

SENDING OF TROOPS MAY BE DELAYED

Allies' Demands for Food, Coal and Iron May Take All Shipping Space.

AFFECTS NEXT DRAFT

Decision Depends on Compilations by American Mission and by Hoover.

By Associated Press
WASHINGTON, Nov. 10.—The possibility that the first increment of the National Army will not be sent to France for at least six months loomed up large today when it became known that the Allies' demand for food, coal and iron was so strong as to overshadow the use of all available ocean tonnage for their transportation instead of for troops.

The decision on the question will rest largely on reports to be sent from the American mission now abroad and on figures being assembled by Food Administrator Hoover to show the amount of grain and other food products available for export in the United States and South American countries.

Present indications are that the Food Administration believes that the situation, particularly in England, France and Italy, will force the United States to use its ships to send food instead of soldiers.

Plans for the second draft would be affected by the postponement of the removal of the first increment from camp.

WOMEN IN FUN CARNIVAL

Quaint Stunts Seen at Athletic Association's Party.

A riot of costumes and stunts marked the Women's Athletic Association party last night at the Rothwell Gymnasium. Misses Eugenia Roach and Jane Hackney succeeded in stumbling across the floor as winners of the wheelbarrow race. The prize for the most amusing dress was awarded to Misses Helen Copeland and Hazel George. Miss Copeland impersonated a farmer woman and pulled Miss George, who was dressed as a child, in a little toy wagon. On the wagon was written, "Hoover food conservation; sign the pledge."

The stunt that won the prize was that of a trial. A girl was accused of the heinous charge of not having enough "dates" in a week. She was convicted!

The costumes were very unusual. While listening to the music the girls drank cider and ate ginger bread.

The judges of the contests were Mrs. Ida Cunningham and Mrs. C. W. Greene. The chaperons were Miss Mary Stewart and Miss Pearl Ragsdale.

DRAFT PLAN OUTLINED

Machinery Formally Put in Operation—President Explains Regulations.

By Associated Press
WASHINGTON, Nov. 10.—President Wilson formally put the new machinery for the carrying out of the selective draft bill into operation tonight with the publication of the foreword he has written to the regulations under which the second call will be made. The regulations themselves and the questionnaire which which more than nine million registrants will be required to fill out are being forwarded to local boards, but have not yet been made public.

War Department officials estimate that the whole process can be completed in sixty days. This means that no second call will be made upon the draft forces before the middle of next February, as the period of classification will not begin until December 15. The President describes the new plan, which divides all registered men not already mobilized into five classes, as being intended to produce a more perfect organization of our man power.

"The selective principle must be carried to its logical conclusion," the President said. "There must be made a complete inventory of the qualifications of each registrant in order to determine the place in the military, industrial or agricultural ranks of the nation in which his experience and training can be best made to serve the common good."

The questionnaire will go deep into the qualifications of each man. The success of the plan and its completion within the estimated time rest absolutely upon the whole-hearted support of the people, especially the doctors and lawyers of each community, and the President calls upon them for their unstinted aid.

MEN FOR SHIPBUILDING

Workers of Military Age Will Be Excused From Army to Aid Work.

By Associated Press
WASHINGTON, Nov. 10.—Plans to insure the retention of ship workers for shipbuilding were announced today by Provost Marshal General Crowder after conferences with officials of the Navy Department and the Emergency Fleet Corporation.

Regulations for the second call for the National Army will provide a specially qualified list for ship workers of military age and they will be excused from service in the National Army as long as they are employed on government ship projects.

Meyer Bloomfield, head of the industrial service of the shipping board, said the War Department had agreed to return to shipbuilding plants any of the workers who had been drafted. Lists of these men will be made up by the yards and by the fleet corporation, and as fast as their names are sent in the men will be released.

General Crowder said that exemption would end whenever a man was not actually employed on ship construction or listed as needed by the fleet corporation or the Navy Department.

Under the Provost Marshal's ruling, men of military age on strike would be called for military service immediately, but Mr. Bloomfield held that the general feeling was that the right to strike could not be taken from them.

RUSSIA TO PROPOSE TRUCE OF 3 MONTHS

Maximalists Plan to Offer Immediate Armistice—Lenine in Control.

TO DIVIDE ESTATES

Ambassador Francis, in Report, Makes No Mention of Harm to Americans.

By Associated Press
PETROGRAD, Nov. 10.—An immediate armistice of three months will be offered by the Maximalist government at Petrograd. During this time Nikolai Lenine, leader of the Maximalists, plans that representatives elected by the people of all nations will settle the question of peace.

Lenine's government is willing to consider proposals for a just peace from either side. Moscow, the ancient capital of Russia, is reported to have gone over to the revolutionists.

Nikolai Lenine Named Premier.

By Associated Press
PETROGRAD, Nov. 10.—The all-Russian Congress of Workmen and Soldiers' Delegates is reported unofficially to have named a cabinet of Maximalists and then adjourned. The cabinet is headed by Nikolai Lenine as premier, and Leon Trotsky holds the position of foreign minister. The cabinet is supported by the Left and Social Revolutionist parties.

The minister of labor is a laborer. The congress took action to turn over to the land committee for distribution the landed estates and the church lands. The lands of the Cossacks and peasants will not be confiscated.

Ambassador Francis Reports.

By Associated Press
WASHINGTON, Nov. 10.—The first reports from Ambassador Francis on the upheaval in Russia arrived today, but added nothing to the news dispatches already received. The ambassador's dispatches were filed November 7 and 8 and reported that, up to that time, all the ministers of the provisional government except Kerensky had been arrested.

No mention was made of harm befalling Americans. Although the city was quiet when the ambassador sent his report, he indicated it was then too early to secure a definite idea of conditions, especially outside the capital.

Until the situation has been more clearly defined, there will be practically a suspension of official relations with Russia. It was decided today that to continue negotiations now was impracticable, because it is not known just who is in power in the different departments of the new government.

Won't Recognize Maximalists.

By Associated Press
WASHINGTON, Nov. 10.—The Russian Embassy in Washington announced this afternoon that it would refuse to accept the authority of the Maximalist government.

His section was on "repos" then but was soon to go into an active sector. He is the only Missouri man in that part of the front, the other men being from Princeton or Harvard. TEUTONIC FORCES REACH THE PIAVE

Offensive Begun on Trentino Front in Effort to Outflank Italians.

ASIAGO IS TAKEN

Rear Guards Cross River and Blow Up Bridges—Hostile Thrust Checked.

By Associated Press
BERLIN, Nov. 10.—The Austro-German forces which are invading Northern Italy have reached the Piave River. Asiago has been captured. The Piave River has been reached all the way from Susagana to the Adriatic. Asiago is on the Trentino front twenty miles west of the Piave, along which the Italians have been expected to fight a decisive battle. The capture of Asiago indicates that the Germans and the Austrians have begun an offensive on the Trentino front in an effort to outflank the Piave line.

The breaking of the Italian front at this point probably would entail retirement of the Italians from the Piave line.

Susagana is at the foothills of the Alps. The Germans have reached the Piave all along its course over the plains of northern Italy.

By Associated Press
ROME, Nov. 10.—The enemy has been checked in the Oder Valley, the war office announces. A hostile thrust at Brocon in the Pado basin has also been checked.

FOOD CONSERVATION STARTS

Reports Show Early Results in Missouri Economy Campaign.

The recent food pledge campaign of the United States Food Administration, requesting the saving of meats, fats, wheat and sugar, is having its effect in Missouri, according to a current report received yesterday at the office of F. B. Mumford, federal food administrator for Missouri.

Don D. Patterson, assistant to Food Administrator Mumford, says: "A representative of a packing house with headquarters in Missouri, whose territory includes Columbia and Boone County, told me that his sales here have fallen off 50 per cent since the beginning of the campaign for the food pledge. Similar reports of the effect of conservation on consumption are coming in from other parts of the state."

Victoria, B. C., Wants Missouri Beans.

The fame of Missouri soybeans is spreading. Last spring some seed was sent to France by the University of Missouri College of Agriculture. Dr. W. C. Etheridge of the farm crops department has received a letter from A. E. Todd, mayor of Victoria, British Columbia, in which he requests some soybean seed to plant next summer. Victoria has been fostering vacant lot and home gardening. Since the food value of soybeans is so high, they wish to determine whether or not the plant can be grown there. Mr. Todd learned of the soybeans from a newspaper article which was sent out from the College of Agriculture. The request from France was prompted in the same way.
