

Society

Miss Ella Wyatt, society editor. If you have news of social events of interest to Columbia and the University, the Missourian will appreciate it if you will call Miss Wyatt by telephone, No. 274, between 11 o'clock and noon, each day.

The women of circle four of the Presbyterian Ladies Auxiliary entertained last evening at the church with a party for the Presbyterian students of Christian College, Stephens College, and the University. As the guests entered the church a paper bag was tied on each one's right hand. A slip of paper on which a song was written was pinned to each person's back. The song was hummed by a person standing behind the hummer of the song, a prize being given for guessing the correct name. Another prize was given to the person who shook hands the greatest number of times without tearing the paper bag. The church was decorated in Christmas colors, little Christmas trees, holly and evergreen being used. The refreshments were red and white ice cream and stick candy.

Announcements have been received of the marriage of Miss Irma Bryant of St. Louis to Harrison Barton of Kansas City. Both are former students in the University. Miss Bryant is a member of the Kappa Kappa Gamma sorority and Mr. Barton is a member of the Sigma Alpha Epsilon fraternity.

Mrs. Paul J. McCaw and daughter, Jane Rogers, of Lexington are visiting Mrs. McCaw's sister Mrs. L. W. Dumas, Jr., at the Dumas Apartments. They will remain until the Christmas holidays.

The girls in the College of Agriculture entertained with a series of parties last night at the Agricola house for the junior and senior Agricultural men. The house was decorated with yellow jonquils, ferns and palms. Dancing and candy making occupied the evening. The junior men were entertained from 8 o'clock to 10 o'clock and the Junior men from 10 o'clock to 12 o'clock. There were between seventy-five and 100 guests.

The Alpha Gamma Rho fraternity entertained the following guests at dinner this evening: Miss Allie Drymon, Miss Bernice Irwin, Lenore Casselman and Miss Madge LaForce.

Mrs. G. D. Edwards and Mrs. J. E. Fairburn entertained with a tea for the Women's Missionary Society of the Christian Church yesterday afternoon at the home of Mrs. Edwards, 811 College avenue. The house was decorated with potted plants and the table in pink roses.

Mrs. Fred Jenkins of Kansas City is spending the week-end at the Kappa Kappa Gamma house. She attended the formal dance given at the chapter house last night. Mrs. Jenkins was formerly Miss Emily Fitch, a student in the University.

Mrs. John Pickard, 81 Hillcrest avenue, will entertain Monday afternoon with an informal tea for Mrs. R. M. Brashear of Kirksville who is visiting her daughter, Miss Minnie Brashear, 605 South Fourth street. There will be eighteen guests.

The following persons were guests at the dinner party given by the pledges of the Kappa Alpha fraternity last night: Misses Bernice Thomsen, Iola Woodfill, Ruth Esther, Alice Kurtz, Margaret King, Lillian Harrison, Jean Logan, Mary Emma Dunnavant, Nell Cockron and Mildred Walker.

Miss Francis Sabine of Kansas City and Addison Sessions of Okmulgee, Okla., both former students in the University, will be married Friday evening, December 10, at the home of the bride. Miss Sabine is a member of the Delta Gamma sorority. Mr. Sessions is a member of the Sigma Chi fraternity.

Mrs. G. D. Edwards, 811 College avenue, entertained with a silver tea from 3 to 5 o'clock yesterday afternoon for the women of the Christian Church. About 125 guests attended.

The girls of the College of Agriculture

gave their annual Farm Frolic at the Agricola house, 911 Lowry street, last night. The junior and senior men of the College of Agriculture were invited.

Mrs. R. M. Brashear of Kirksville is visiting her daughter, Miss Minnie Brashear, 605 South Fourth street. Miss Brashear will accompany her mother to Edinburg, Tex., December 22 where they will spend the remainder of the winter. Miss Brashear will return to Columbia in April to resume her position as instructor in the English department of the University.

Mr. and Mrs. E. H. Guitar motored to Marshall yesterday to attend the wedding of Mrs. Guitar's niece, Miss Frances Brown to Benjamin Gallup of Trenton which took place there today. Mr. Gallup was a former student in the University and a member of the Pi Kappa Alpha fraternity. They will be at home in Trenton, Mr. and Mrs. Guitar will return home tomorrow.

Miss Katherine Davis and her guest, Miss Teresa Wilson of Lexington, Mo., will be dinner guests at the Phi Gamma Delta house tomorrow.

The Men's Brotherhood of the Presbyterian Church will meet Tuesday evening after the dinner which is to be served at the church. E. A. Van Noy, head of the men's work for the Northern Presbyterian Church in the middle west, will talk to the members. All Presbyterian students are invited.

The members of the Lawrence County Club will meet at 7:30 o'clock Tuesday evening at the Sigma Phi Epsilon house, 802 Virginia avenue.

The members of the Cosmopolitan Club will entertain at open house tonight at the Knights of Columbus Student's home. Each member has the privilege of inviting two friends. The program will consist of recitations and songs given by the members of the Club, after which the guests will dance.

The regular meeting of the Daughters of the Confederacy will be held Wednesday, Dec. 8 at the home of Mrs. Margaret Somerville, 400 South Sixth street. Mrs. Hugh Baker will have charge of the program. Mrs. F. C. Shoemaker will talk on "The Women of the Confederacy During the Civil War." Mrs. F. H. Bolbrecht will talk on "The Confederate Home at Higginville" and Mrs. M. W. Burton will give a reading.

The members of the Kappa Kappa Gamma sorority entertained last evening with a formal dinner party at the Daniel Boone Tavern. The decorations were Christmas suggestions. There were 200 guests.

The freshman members of the Delta Gamma sorority entertained this morning with a breakfast party for the upperclassmen of the sorority. The decorations were in black and white. There were 100 guests.

Mrs. W. H. Lunsden of St. Louis is the guest of Mrs. L. O. Hockaday, 505 Rollins street.

Mrs. D. H. Wilhite and Mrs. Herbert White will be hostesses next Saturday to the regular meeting of the D. A. R. at the home of Mrs. Wilhite, 1314 Rosemary Lane. There will be a special Founders Day program.

Dinner guests at the Phi Delta Theta house tomorrow will be Dr. and Mrs. J. E. Thornton, Mr. and Mrs. John

Sykes, Mr. and Mrs. E. Sydney Stephens and Mr. and Mrs. C. B. Miller.

The dinner guests at the Phi Mu house tomorrow will be Miss Dorothy Stephenson, Miss Elizabeth Agce, Miss Beatrice Robinson and Miss Edith Hamby.

Stephens College Notes

Miss Floy Miles, a former student of Stephens College, and Harold Kenyon, a graduate in the College of Agriculture in 1918, were married at the home of the bride in Norborne, Mo., Thursday. Miss Miles is a member of the Beta Sigma Omicron sorority, and the groom is a member of the Kappa Sigma fraternity.

The faculty of Stephens College gave a small informal tea yesterday, in honor of Mrs. W. W. Charters in the parlors of the college.

Miss Mary Faris has for week-end guests Misses Fanny and Sue Canole of Sedalia.

Misses Allie and Louise Guinn are visiting Mrs. Richard Guinn of Sedalia. Mrs. J. B. Heberling of 602 South Fifth street will give a tea tomorrow afternoon for the members of the Beta Sigma Omicron sorority of Stephens College, of which she is a patroness.

OLD WILLIAM JEWEL CEMETERY IS SLOWLY FALLING INTO DISUSE

The old William Jewell Cemetery located just two miles south of Columbia on the Providence Road is practically closed according to H. H. Banks of the Columbia Savings Bank, who is trustee of it. The cemetery is the family burying ground and only immediate relatives of the Jewell family can be buried there.

There are several persons who could have been buried there but practically all of them have said they did not wish it. Mr. Banks said, Mrs. Fanny Talbert of San Francisco who is a niece of Governor Hardin and her three boys and one girl could be buried there but she has notified me that they will not reserve plots. There are also three sons of Mr. Luther Smith, living, who could be buried there but they do not seem to have such intentions. The last person to be placed there was Mrs. Harbets step mother, Mrs. Fanny Kennan.

The cemetery was opened by Mr. William Jewell. His nephew Governor Hardin, in addition, set aside a certain sum of money for the upkeep of the place.

It is a beautiful old cemetery, surrounded by a stone wall and well kept. There are many curious tombstones and monuments inside, covered with odd inscriptions. It has been in use ever since the early part of the nineteenth century.

William Jewell, founder of the cemetery, was born in Loudoun County, Virginia in 1789. He was graduated from the medical department of Transylvania University at Lexington Ky. In 1820 he moved to Missouri and located in Columbia where he lived until his death. He acquired considerable means from various financial enterprises and was

"In Defense of Ignorance"

BY Dean Walter Williams DON'T FAIL TO VISIT THE BIBLE CLASS ON SUNDAY MORNING AT 9:45 AT THE BROADWAY ODEON THEATER

Studying Nights?

Then our night lunches are just the thing for you. Call at any time and ask for anything you wish. It takes but a minute to drop in and get back again.

The Dugout GROCERIA AND LUNCH ROOM "Where Tigers Eat"

honored by the public for his public spirit and laudable gifts.

Among his various gifts was one of eighteen hundred dollars to the University of Missouri. He also gave to Columbia her first courthouse as well as being instrumental in the building of Columbia's first streets. The street of Broadway which he made possible remained as it was built by him down until the time it was paved.

He was the founder of William Jewell College at Liberty and it was while superintending the erection of the William Jewell College building that his death came, in 1852. He was once a member of the Legislature from Boone County.

RATIONS FOR DRAFT HORSES

M. U. College of Agriculture Gives Experiments of Work. Experimental and demonstration work by the University of Missouri College of Agriculture shows—

That draft horses averaging in weight approximately 1,600 pounds and which did 4.8 hours a day average farm work required an average daily ration of 14.91 pounds of grain and 17.12 pounds of timothy hay.

That brood mares working and nursing foals required 47 per cent more grain and 32 per cent more hay daily during the suckling period than dry mares. That draft colts consumed an average daily ration of 6.68 pounds grain, 7.42 pounds hay daily from weaning time until they were turned in pasture in the spring, a period of 219 days, during which time they gained 330 pounds and weighed at the close of the period 836 pounds.

That it required 4.40 pounds of grain and 4.83 pounds of hay to produce one pound gain on draft colts from weaning time until turned on pasture the next spring.

That in using a grain ration composed of two parts corn, 2 parts oats, 1 part bran, it required 10.46 bushels of corn, 18.30 bushels of oats and 292.9 pounds of bran, to keep draft colts in good growing condition from weaning time until they were turned on pasture.

That 15 pounds of corn silage, 8 pounds of straw, fed with 8 pounds grain is a satisfactory ration for horses doing light work during the winter months.

Workmanship--

Suits tailored as decreed by the latest fashions are to be obtained from us.

Accurateness and exactness in measure and fit help make our tailored suits of highest quality.

And our prices are as low as is consistent with expert workmanship.

GET MARRIED WHILE YOUNG Advice of Happy Parents of Ten Children.

NEW CASTLE, Pa., Dec. 4.—"Every one should get married, and when young, make their fortunes together, and be a help to each other. It is the only way in which one can go through life happy."

Take it from Philip V. Jones, boys and girls, that's the one sure recipe for life-long bliss. And Jones ought to know, 83 years young, married 63 years and as much in love with Mrs. Jones as the day they were married in 1857 with all the gorgeousness and splendor of a church wedding in South Wales, their birthplace. Mrs. Jones is one year younger than her husband.

In 1863 the couple came to America and settled in New Castle. After that, "we worked hard and played hard," said "Ma" Jones. "I have come through 63 years of married life and would not give up one of my joys or sorrows and there have been many of them. I urge every girl to pick the right man and marry him. 'I should say the women do pick out the men,' with a little grin at 'pa.' 'The men never know what's happening to them.'"

Farmers' Week Programs Out Soon. Programs for Farmers' Week, which starts January 17, will be issued in about two weeks. They will contain the programs of both the College of Agriculture and the state organizations which meet here that week.

Particularly for Students

The Great Interchangeable Type Writing Machine

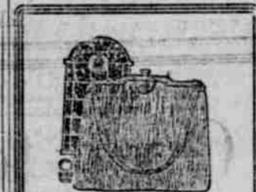

All Business, All Science, All Languages may be had on ONE machine. 365 different arrangements of type and languages, including Greek, Armenian, Chinese-Phonetic, and all modern European languages; also, type set for Engineering, Chemistry, Astronomy, Mathematics, etc.

Lectures, Notes, Theses, may be most beautifully and clearly transcribed on the Multiplex in condensed type.

Monthly payments. Good rebuilt machines. Machines rented.

A post card will bring full information.

STATE JUDGES HOLD MEETING

D. H. Harris Re-Elected Chairman at St. Louis Conference.

Circuit Judge David H. Harris, was re-elected chairman of the State Judges of Missouri at the annual conference held in St. Louis Thursday, preliminary to the annual meeting of the Missouri Bar Association. Other officers elected were: Vice-chairman, Judge David E. Blair of Joplin; secretary, Judge John W. Calhoun of St. Louis; treasurer, Judge William D. Becker of St. Louis. Among the questions considered at the meeting was the plan for a uniform system of courts for Missouri.

THREE HUNDRED IN PROCESSION.

The wonderful story of the beginnings of American history told in living pictures in the "Pilgrim Pageant" at the Christian College Auditorium Monday night, Dec. 6th. Costumed characters of more than three hundred. Processional begins at 7:30. Tickets at Allen's and the Pennant.

Monday, Dec. 6 at 7:30 p. m. Christian College Auditorium Admission--Adults, 35c; Grade School Pupils, 25c Tickets on Sale at Allen's and The Pennant

What Is Air?

BEFORE 1894 every chemist thought he knew what air is. "A mechanical mixture of moisture, nitrogen and oxygen, with traces of hydrogen and carbon dioxide," he would explain. There was so much oxygen and nitrogen in a given sample that he simply determined the amount of oxygen present and assumed the rest to be nitrogen.

One great English chemist, Lord Rayleigh, found that the nitrogen obtained from the air was never so pure as that obtained from some compound like ammonia. What was the "impurity"? In co-operation with another prominent chemist, Sir William Ramsay, it was discovered in an entirely new gas—"argon." Later came the discovery of other rare gases in the atmosphere. The air we breathe contains about a dozen gases and gaseous compounds.

This study of the air is an example of research in pure science. Rayleigh and Ramsay had no practical end in view—merely the discovery of new facts.

A few years ago the Research Laboratories of the General Electric Company began to study the destruction of filaments in exhausted lamps in order to ascertain how this happened. It was a purely scientific undertaking. It was found that the filament evaporated—boiled away, like so much water.

Pressure will check boiling or evaporation. If the pressure within a boiler is very high, it will take more heat than ordinarily to boil the water. Would a gas under pressure prevent filaments from boiling away? If so, what gas? It must be a gas that will not combine chemically with the filament. The filament would burn in oxygen; hydrogen would conduct the heat away too rapidly. Nitrogen is a useful gas in this case. It does form a few compounds, however. Better still is argon. It forms no compounds at all.

Thus the modern, efficient, gas-filled lamp appeared, and so argon, which seemed the most useless gas in the world, found a practical application.

Discover new facts, and their practical application will take care of itself. And the discovery of new facts is the primary purpose of the Research Laboratories of the General Electric Company.

Sometimes years must elapse before the practical application of a discovery becomes apparent, as in the case of argon; sometimes a practical application follows from the mere answering of a "theoretical" question, as in the case of a gas-filled lamp. But no substantial progress can be made unless research is conducted for the purpose of discovering new facts.
