Ice Famine

Reports come to us that in some sections ice is so scarce deliveries are made only every other day; another town consumers are limited to certain amounts; another town people are carrying the ice from the plant and begging for it; another town ice is selling for \$1.25 per hundred. One town in Missouri is reported to us as charging \$2.00 per hundred for ice. We could name a number of such alarming conditions, but we want to assure the people of Columbia we do not intend to raise the price.

We are thankful for the words of appreciation which come to us from so many, for our efforts to supply them with ice at about half the price many people pay. Although we are selling ice at a very low price we feel partly compensated by the spirit of appreciation which is so evident in this community of grateful people.

JAPAN REPLIES TO INVITATION

Agreement to Discuss Problems Understood to Have Qualifications.

WASHINGTON, July 27.—The Japanese acceptance of the American proposal for a discussion of the Pacific question and Far East problems at the Washington disarmament conference was received today, it was learned.

The Japanese reply to President Harding's invitation is understood to contain important qualifications regarding the conference. The reply was made late last night to Edward Bell who is in charge of the American embassy in Tokyo, and was received by the state department today. The message is long and will not be made public for some time.

SPRAY GOT CANKER WORM

Expert Shows Good Results of Preventive Measures.

MADISON, Wis., July 27.—Orchards which have received the regular application of spray materials are entirely free from canker worms which are doing so much damage this year, reports F. Gifford, extension horticulturist for the Wisconsin College of Agriculture.

In many orchards which have not been sprayed, the apple trees have lost their entire foliage. In one county 35 orchards being sprayed under the direction of the College of Agriculture show no injury, while the foliage in other orchards in the county have been almost entirely destroyed.

Not only have the ravages of the canker worm been prevented by this spraying program, but other insects and disease pests have been controlled so that there is promise of a good crop of clean fruit.

"Plan now to follow a regular spray program next year," urges Mr. Gifford. "This is the only way to control orchard insects and diseases. Where they have not been controlled this year the trees will be in a poor condition to bear a normal crop next year. If they are allowed to keep on from year to year, the trees will be killed."

Miss McHenry Finishes Visit Here.

Miss Nora McHenry, who has been visiting Miss Lillian Cromer and Miss Tilburn Johnson, 512 South Fifth, has returned to her home in Shelbyville. Miss McHenry will spend a few days in Hannibal before returning to her position as secretary to the general secretary of the Y. M. C. A. at Tulsa, Okla., August 6. Miss McHenry was formerly employed here as a stenographer in the College of Agriculture.

YOUNGSTER CALLS ON UNIVERSITY DOCTORS TO MEND BIRD'S WING

Parker Memorial Hospital had an early visitor this morning. He was a little boy with something wrapped up in a cloth. Upon gaining admittance he displayed his burden, a bird with a broken wing. A boy had broken it with a rock and he wanted it set.

After an examination by the doctors it was found that the wing would mend of itself in time, if the bird were kept still. After the application of some medicine to the injured member, the greatly relieved little boy wrapped up his bird and left.

JAMES STUEBNER IS KILLED

M. U. Student in Accident While Beating Way to New York.

James Stuebner, a St. Joseph boy and a member of the Missouri R. O. T. C. unit that attended the recent training camp at Camp Knox, Ky., was killed Sunday while beating his way to New York on a freight train. The camp had closed just two days before and several of the boys were on their way to New York for a sight seeing trip, and had gone as far as Clifton Forge, Va., where the accident occurred.

He was 19 years old, and had completed one year in the University of Missouri. While here he played in the R. O. T. C. band. The last his father, Adolph Stuebner, 624 South Fifteenth street, of St. Joseph, had heard from him was two weeks ago when he received a letter telling him that he would be home last Saturday.

FAVORS PROJECT METHOD

100 Members Attended Ed Club Meeting—Will Have Pageant.

"The Project Method in Education" was the subject of Prof. J. L. Meriam's lecture to the Ed Club Monday night in the Auditorium of the University high school building.

Dr. Meriam emphasized the point that the term project is applied mostly to method whereas it ought to be applied to subject matter. With the present organization of subject matter probably the project method is the most efficient yet devised or likely to be devised, said Professor Meriam.

Besides the lecture by Dr. Meriam, two piano solos and readings by members of the club were given. More than a hundred persons attended the meeting, according to I. N. Chiles, secretary of the club. The next meeting will be held in two weeks when more definite plans for a pageant to be given by the club will be decided upon. The date for the pageant has been tentatively set for August 6.

OLD TRAILS TAVERN OPENS

Mineola Springs Hotel Will Accommodate Pleasure Seekers.

The Old Trails Tavern at Mineola Springs was formally opened Saturday night. A special chicken dinner was served in the evening and a dance was held from 8:30 to 12 o'clock at which dancers enjoyed music furnished by a negro orchestra from Fulton.

Mineola Springs is becoming a popular pleasure resort. Situated on the Old Trails highway about fifty miles east of Columbia, it is attracting numerous pleasure seekers who enjoy its facilities for swimming, boating, dancing and picnicking.

Fill your Fountain Pen with Stafford's Ink and forget it.

No fussing with your fountain pen when it's loaded with brilliant Stafford's Fountain Pen Ink.

A uniform, steady flow always on tap.

It never sticks, gums or clogs the pen-point or barrel.

The secret is in the chemical formula which has made Stafford's famous as

"The Ink That Absorbs Moisture From the Air."

Your fountain pen is a delicately adjusted instrument. Most inks are too heavy, too syrupy to flow smoothly through the point escapement. Stafford's Fountain Pen Ink is made for just that particular purpose. Most every stationer sells it.

S. S. Stafford, Inc., established 1853, 603-609 Washington St., New York;
