OLD TIME DANCES AND PARTY GAMES SEEM TO BE IN FAVOR AGAIN

"You know, it seems to be the idea of most people that when one goes to a party now, all one does is play cards or do the pershing wave or the military walk and talk nonsense. But that isn't so at all. I was down in the country this summer and we didn't do those things at all. What's more we had lots more fun doing the things they usually do at a country party than merely dancing," said the girl from west Missouri.

"Those games they play are lots of fun" her roommate admitted. "Though of course one would get tired of them after a time. I went to one of those parties once and we played spin the plate, fruit basket turn over, clap-in and clap-out, and one or two other games. Everybody, old and young played."

"But the most fun of all were those two dancing games called 'Skip to me,' 'Lou my darling' and 'There was a little miller boy down by the mill.' Every one got his partner and began singing while they did sort of a dance step. Ever so often they would change partners and begin singing the same verses all over again. And you know these games are played not only in the country but in the cities as well for at the mixers in Kansas City we always play them."

The old dances and party games seem to be coming back into favor again and some predict that they will replace the present day amusements. Other amusements differ a great deal from those of a few years ago. Now corn husking and barn warmings and log rollings and other neighborhood parties are less frequent than they used to be, although they are still given in some of the mountainous regions. But where ever there is a large settlement these things are passed. No longer do the neighbor women gather at another's house taking with them their dinners and spending the entire day helping her to make a rag rug or finish her quilt.

"No longer do the men neighbors take a day off from their work, hitch up their teams and go over to help a neighbor finish an extra piece of work, which he is in a hurry to get done. The people of today are in too big a hurry to get ahead of their neighbors, to have more than any one else has and to make a big display. They have lost the true neighborly spirit that used to prompt our mothers and fathers to quit their own work if they knew their friends needed help. And we used to have great times at these things, too. We had as

much fun and more enjoyment than they have today at their so-called parties," said the Judge as he looked at his daughter. "You all don't know what honest to goodness fun really is. You just think you do. Why, when there was going to be a party we used to know it about a month ahead of time. Then when the night of the party would come we would all go over on horseback or if you took a girl you would try to get a buggy to go in, and we'd have the best time possible. And we didn't get tired either. We enjoyed them more because we didn't have them every night or so and we were really glad to see our friends, not bored to death with them. Those were great days and great parties."

COMING SALES

Public sale, October, 12—Ora L. Hall, administratrix of the estate of J. W. Hall, will sell at public auction, at the home of the deceased, two miles north of Ashland road, a half mile east of Salem Church, the property of the estate consisting of 10 head of cattle, 11 horses and mules, 7 pigs, farm machinery, and several tons of hay. Making Extraordinary Mileage a Certainty  
Car Owners want more rubber on the tread where the wear is hardest; more gum between cord plies to perfect a resilient and powerful carcass. And they want a scientifically constructed Non Skid tread with all angles and contacts to resist skidding and give sure traction. Firestone Cord Tires have met these demands of the car owners.  
Read Letters Below—  
Records from 29,000 to 57,000 Miles  
Cord Tires built the Firestone way could not fail to produce mileage. Every day, from all over the country, comes the word that 10,000, 20,000 or 30,000 miles are frequent and consistent records.  
Now and then they are emphasized by unusual instances such as quoted below. Performances like these demonstrate the ultimate possibilities of Firestone Cords under careful driving.  
Firestone Tire & Rubber Co., Sept. 10, 1921  
Jacksonville Branch, Jacksonville, Florida.  
Gentlemen:—  
I submit herewith the history of a 32nd Firestone Cord tire. This tire has run 57,000 miles to each retreading. The average mileage was about 7,000. I think you will agree this is a remarkable record. It is especially unusual as I know the owner to be a severe driver. However, he gives his tires proper inflation. The tire in question is not yet out of service and has every indication of being sufficiently strong for another retread. I am enclosing photographs under separate cover.  
C. U. Penney, Plant City, Fla.  
The Harvey E. Mack Co., Sept. 2, 1921  
Thirteenth & Harmon Plac., Minneapolis.  
Gentlemen:—  
It occurs to me that you might be interested in the mileage that I obtained from the set of Firestone Cord tires on my Dodge coupe. The first tire went over 29,000 miles. The second tire rolled up a mileage of between 34,000 and 35,000. These were both rear tires and had been cut considerably by chains. The two front tires have gone better than 35,000 miles and are still in good condition. I expect to get at least 40,000 miles from each of them. I need scarcely say that the Firestone Cord will be my tire choice for the future.  
Archie H. Beard, 127 LaSalle Bldg., Minneapolis.  
FABRIC 30 X 13 1/2 NON-SKID EXTRA SIZE \$13.95  
In this fabric tire as in our cord tires only Firestone resources and experience can provide this quality at this price.
