**For \$995 You Can Buy This Highly-Developed Six**

In this improved New Oakland for 1923 you can obtain—for the price of a "four"—the smooth, vibrationless and flexible performance possible only with six cylinders.

But you get more than just six cylinders! You get a highly-developed, overhead-valve engine that embodies all of Oakland's eight years of experience in manufacturing light-sixes exclusively, with the added wealth of engineering skill contributed by the General Motors Laboratories.

Indeed, this engine is so good that its makers unhesitatingly guarantee its performance in writing for 15,000 miles! And as you examine the entire chassis of this car, you will quickly sense that every moving and fixed part is as accurately and ruggedly built as its remarkable motor.

**Just 5 Hours Later-- Not a Pair Left**

In the Wednesday afternoon edition of The Evening Missourian, there was an advertisement of the Sykes & Broadhead Clothing Co., telling about a special style, bell bottom, corduroy pants, "Breeze Bug" pants, that they were going to put on sale at 9 o'clock Thursday morning. At 2:30 Thursday afternoon there wasn't a pair of these pants in the house. They had to wire for more, the demand was so great—
