\$1.00 Per Year in Advance.

COLUMBIA AND JEFFERSON CITY, MISSOURI, FRIDAY JAN. 16, 1903.

VOL. II. NO. 11

To Colonize Negroes.

Jefferson City, Mo., January 12.—A joint resolution has been received by Senator Walker, of Boone county, with a request to introduce it in the senate, providing for the deportation of all the negroes from the United States and their colonization, something after the methods pursued with the Indians, except that the country to which the colored people are banished is to become one of the United States, with its own state officers, elected from among the negroes themselves. The resolution is signed by two residents of Cedar City, in Callaway county, just across the river from this city. Senator Walker has not decided what he will do with the document, but may introduce it, with the explanation that it is by request, for the edification of the upper house.

The document itself shows that it was not prepared by a person of much intelligence and if introduced will probably serve only as a source of fun for the members of the legislature. It is in substance as follows:

"Be it enacted by the forty-second general assembly of the house of representatives and the senate concurring in a joint session at Jefferson City, Mo., be it

Resolved, That we as a legislative body hereby resolve that it would be to the best interest of all mankind to colonize each and every one of the African race (negroes) from among the whites in the United States. That wisdom in the sight of God demands that such a move should be made for the future happiness of all mankind. In approximate numbers there are about 6,000,000 people of the African race (negroes) in the United States. And we earnestly ask our sisters states, each and every one, to concur with us in this move."

The resolution further provides that the government shall provide sufficient land for all negroes colonized, which is another evidence of lack of intelligence as such a resolution could only be effectively passed by the United States congress, and it is not at all likely that any further notice will be given the document.

Suggested by Roosevelt.

Washington, January 12.—William H. Lewis, a colored man, has been appointed an assistant United States attorney for Boston. The appointment was made by Henry P. Moulton, the United States attorney for the Boston district, but it is understood that the selection was made on the suggestion of President Roosevelt. Mr. Lewis is a graduate of Amherst college and Harvard law school and was held in high regard by both the students and faculty. He took a high rank in his studies and was a popular member of the football squad. He is said to be a lawyer of excellent attainments.

A Teacher's Agency.

A teacher's agency bureau is being established in Columbia in connection with the state university library. It will doubtless prove quite helpful to the teachers of this state, as it is to be a means of securing positions for teachers of this and other states. The readers of this paper will be furnished information concerning the same and full information concerning the agency will be published later.

Auxvasse Items.

Mrs. Nellie Dupee, after a 10 days visit with her sister, Mrs. S. M. Bradley, and friends, returned to her home in St. Louis, accompanied by her niece, Miss Nellie Logan, of New Bloomfield.

DIED—Smith—At the residence of her father, Mr. Jake

White, in Auxvasse, Mo., Jan. 12th, 1903. Mrs. Anna Smith, aged 22 years 2, months and 5 days. Her health has been on the decline for some time and her death was not unexpected. She united with the Baptist church 8 years ago and was a faithful member 'til the time of her death. She was united in marriage to Mr. J. M. Smith in 1899. Her funeral services were held at Pleasant Hill Baptist church, of which she was a member and was conducted by Rev. J. W. Sears of New London. Besides a husband, Mrs. Smith leaves a father, mother, 3 sisters, and a baby. In her last hours she told her mother all was well and there were no clouds between her and heaven. The funeral services were largely attended by relatives and friends of the deceased.

New Bloomfield Notes.

Happy New Year to the Professional World and all its readers.

Mr. Johnie Murray and little daughter, Mary, have been quite sick, but are some better now.

Miss Estella Logan, who has been confined to her bed since the holidays is able to be up again.

Miss Nellie Logan and her aunt, Mrs. Nellie Dupee, who visited homefolks during the holidays, returned to St. Louis last Saturday.

Messrs. Joseph and Timothy Murray and Eula Baynham are home from Jefferson county.

Mr. Eugene Reese is on the sick list.

Mr. Moss Gatherright spent the holidays with homefolks and returned to Kansas City last week.

The home of Mr. and Mrs. Anderson Logan was the scene of a most enjoyable social last Thursday evening Jan. 8th, given in honor of their daughter, Miss Nellie Logan, of St. Louis. Those present were Misses Mattie Davis, Mary, and Lula Hill, Florence Reese, Gertrude and Mayme Logan, and Mrs. S. J. Hart, Messrs. S. R. Carter, Samuel Holt, Timothy and Thomas Murray, James Gatherright, Price Logan, Luther and Arthur Hill, Marvin and Eula Baynham, and Eugene Reese. Messrs. Carter, Murray and Holt furnished excellent music for the occasion.

Huntsville Items.

Rev. M. L. Clay passed through the city this week and preached at the Second Baptist church Wednesday evening.

Mrs. Georgia M. Robinson is able to be out again.

Miss Dollie Walker and Mrs. Clara Tolston, of Omaha, Nebraska, are visiting their sister, Mrs. Watkins.

The Professional World is only \$1 per year, order it now.

Dr. J. S. Pey has removed to Moberly again.

The news of the death of William Moss, who recently moved from here to Minneapolis, Minn., was received last Wednesday. His remains will be brought to Huntsdale for interment, under the direction of Harrison Lodge of K. of P. of which he was a member.

Capital City Notes.

Mrs. Bettie Hopkins is very ill. Mrs. M. E. Goins is on the sick list.

Mrs. Edna W. Sears Hardin is in St. Louis.

Miss Anna L. Williams is visiting her parents in Boone county.

Mrs. Henry Bolton is still on the sick list.

Prof. J. W. Damel has a tempting position as mail carrier for the Missouri State Senate. Colored men are not getting positions this Legislature.

Mr. Al Thomas is in the city.

Rev. Goins has gone to Macon City on business.

The Missouri Legislature is down to business. It is feared by some of the friends of Lincoln Institute that the present legislature may fail to make a liberal appropriation for the support of that institution.

The ladies of charity were around a few days ago hunting those that were in a destitute condition. We learned from them that a very few applications have been made for assistance. From

the way that fuel has been jumping up in price we judge that these ladies will have much to do in the near future.

The boys have at last moved into their new dormitory at Lincoln Institute.

Many of the citizens of Jefferson City want to know what has become of the old soldier. They fear he is sick or dead.

Schools and Teachers.

Miss Laura Douglass has resigned her position at Wentzville to accept a position at St. Charles. The salary at St. Charles \$50. per month.

Of the 16,034 teachers in the public schools in Indiana, 1185 are graduates of colleges and universities, 1274 of state normal schools, and 1165 of private normal schools. The number that have had no training above the common schools 2718.

There will be a summer term at Kansas university for the benefit of those students who wish to shorten the collegiate course, this being the expedient, which Chancellor Strong has resolved to adopt for this purpose.

At the mathematical convention held at Columbia university during the holidays Dr. A. B. Cole, of the Missouri state university read a paper on "The Invariant Theory of the Convex in a Dimension a Space," which was considered very interesting. A great many Western professors were present at the meetings.

The teachers of New York city contemplate building a clubhouse, and for that purpose a committee of 100 members of the teachers' association has been appointed to interview the teachers and discover just what the feeling of the majority is in the matter and what amount can be raised.

It is an odd fact that in the schools of Chicago there are fewer pupils enrolled in the grammar schools than in any other large city, there being 43 pupils for each teacher. In New York there are 50 pupils enrolled for each teacher: in Philadelphia, 53; in Boston, 50; in Baltimore, 51; in St. Louis, 58; in Cleveland, 44; in Buffalo, 47; in San Francisco, 42; and in Cincinnati, 46. In Washington the number runs as low as 41, while in Milwaukee it is 46.

Emancipation Anniversary.

The 38th anniversary of the emancipation proclamation was celebrated at the Second Baptist church in Columbia, Mo., Sunday afternoon Jan. 11th, by the old soldiers and citizens in general. The meeting was called to order by W. W. Lampkins, who was chosen master of ceremonies. After briefly stating the object and purpose of the meeting, announced the following program:

1. Song—by congregation.
2. Scripture reading—by Rev. A. A. Adams.
3. Invocation—by Gabriel Smith.
4. Song—"John Brown"—Ruby Mosley.
5. Paper—Miss Lilly Drew.
6. Address—Lieut. Coleman.
7. Remarks—Rev. A. A. Adams.

Sergeant Wallace Lilly and commander Tarlton Woods of the G. A. R. deserve much credit, their interest manifested by their arranging for the program.

Catarrh Cannot be Cured

with Local Applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

F. J. Cheney & Co., Props., Toledo, Ohio. Sold by druggists, price 75 cents. Hall's Family Pills are the best.

Thirteen Mistakes of Life to Avoid.

Not to yield in immaterial matters.

To endeavor to mold all dispositions alike.

To look for perfection in one's own actions.

To expect uniformity of opinion in this world.

To measure the enjoyment of others by our own.

To expect to be able to understand everything.

To believe only what finite minds can grasp.

To look for judgment and experience in youth.

Not to make allowances for the infirmities of others.

To consider everything impossible that we can not perform.

To worry ourselves and others with what can not be remedied.

Not to alleviate all that needs alleviation as far as lies in our power.

It is a great mistake to set up our own standard of right and wrong and judge people accordingly.—Exchange.

All Over the Farm.

Profit is the excess of selling price above the cost.

Good sheep will not remain good long unless well cared for.

The value of good feed is wonderfully increased by close attention.

All bedding for hogs should be dry or rheumatism directly results from damp and filthy beds.

If sheep are kept in flocks of not more than fifty, they will do best, especially if of the mutton breeds.

Disease always lurks in filth.

This being true the cleaner the stables and surroundings where the stock is kept the less liable they are to disease.

Profits of sheep feeding depend largely on continued good times.

Treble the number of sheep and lambs have gone on feed compared with last year.

The value of any kind of farm stock is largely determined by its feeding the first year of its life.

Breeding counts for much, but good feeding can not be overlooked.

Make the bridle fit. It is grievously wrong to torture a horse with a headstall and bit that can not be worn with a degree of comfort.

If the head and shoulders of a draft animal are kept reasonably comfortable the work can be done with less strain.

Horses that are given water with regularity fatten most readily.

They can be taught to take water before breakfast, and this light drink seems to be worth a great deal to them.

In an effort to put flesh upon an animal the water is as big a factor as the grain.

There is nothing so sweet, clean and economical for the horses bed as sawdust, where straw is too expensive. Sawdust and tanbark mixed, also make a good bed.

Both are good absorbents and do not injure land if lime is also applied, but do not mix them.

They can be applied conveniently for top dressing or plowed in without difficulty.

Let the small, weak pigs of the litter stay with their mother for two weeks after the larger ones are weaned.

The increased supply of milk will make them grow very rapidly, so that in a few weeks they will often surpass the largest and best of the litter.

In this way small weak pigs that would not pay for their keeping can be made to become large and thrifty hogs.

Calves or veal may be started on whole milk, gradually shifted to skim milk, and finished off with whole milk for a week or ten days, to give them a smooth appearance and improve their sale.

In a number of careful tests calves gained one pound in weight from ten to sixteen pounds of skim milk.

Marketing should be done at a month to six or eight weeks old.—From the Ladies Herald.

To Subscribers.

When your subscription expires and you receive a notice to that effect and do not respond, your paper will at once be discontinued.

A Request.

We will consider it a great favor if our readers will patronize the merchants whose advertisements they see in this paper.

ALL AT AN END.

Tale Showing How One Can Jump at a Conclusion and Miss it.

The young woman sat by the window looking out dreamily when her reverie was disturbed by an elderly woman coming in.

"Oh," said the visitor, "excuse me, I didn't know you were absorbed."

"Come in," responded the dreamer, extending her hand; "I am glad to see you."

"But why are you so pensive? You look as if your best friend had died. What is the matter?"

The young woman drew her handkerchief hastily across her eyes.

"Ah," she sighed, "Harry and I—"

The older woman dropped her hands in her lap in a helpless, despairing fashion.

"Don't tell me," she interrupted, "that you and Harry have quarreled?"

The girl sighed again.

"The end has come," she said, "to all our moonlight walks, to the tender whispering beneath the trees, to the boxes of sweets and the baskets of flowers, to the sweet nothings in the conservatory as the dancers whirl in the ballroom, to the verses he wrote me, to the rivalries and jealousies of any sweetheart days, to the—"

"Say no more," exclaimed the older woman, determined to set matters right; "what have you two done? Tell me anything."

The girl came over and laid her head on the other's shoulder.

"We were married this morning at ten o'clock," she whispered, and the older woman's hands fell helpless once more.—London Tid-Bits.

C. A. Albright, of Lamar, Mo., a student in the engineering department of the State University, broke the hyoid bone at the base of his tongue on the 9th, while practicing on the horizontal bar in the gymnasium. There are only 11 similar cases on record.

The patient is in the Parker hospital and is doing well.

From the Moberly Democrat.—The Missouri Press Association will meet at Columbia January 22 and 23. The citizens of Columbia know how to entertain and none are more hospitable. The full membership should be present. It should also be a business session. Columbia is a good place to meet for there is not so much to divide the attention of those in attendance, as in St. Louis. The members must all be in favor of the best and most effective educational facilities.

and should, therefore, be pleased to know as much as possible about the state institutions at Columbia. We believe every editor in the state would find it to his advantage to belong to the association and attend the meeting at Columbia. No man can properly and intelligently do his duty toward the institutions there located unless he has personal knowledge of these fast growing educational properties.

In his account of the Edward Butler trial at Columbia, Lincoln Steffens, editor of McClures Magazine, who was an eye witness to the trial, refers in the following manner to Judge Hockaday:

"This Judge, John A. Hockaday, also, is a remarkable man, and his conduct of the case so swift and yet so deliberate, is enough to make any American proud."

"I wish this judge were on the supreme bench. You may have good judges there, too, but I would like to know that Judge Hockaday was to pass finally on the soundness of Mr. Folk's work."

Mrs. Carrie Nation, who has been raising money in the East to establish a home for drunkard's wives, last week purchased the residence of S. N. Simpson in Kansas City, Kan. The price paid was \$7,500. Mrs. Nation will spend several thousand in improving it.

The public schools in Switzerland are operated by the government, and civil service rules are strictly applied. The teachers, who are mostly women, are very well paid, and never discharged except for cause. When they get so old they can not teach they are pensioned liberally. The result is that the country has an excellent corps of educators.

From the Fulton Gazette:—Columbia, Fayette and Fulton are each without an opera house, and each is on the line of the proposed electric railway. If the three towns will build the road the opera house questions will settle themselves, for the increased population of each town will justify the building of theatres.

On the 1st inst., Probate Judge Thomas B. Crews (D.) of St. Louis city assumed the duties of the office, succeeding Judge Wm. W. Henderson, (R.) formerly of Columbia.

Do you know that horses cost money, but the night mare often comes to some people through a piece of mince pie?
