In the first place such a meeting is easily packed, and even were the meeting by all our voters a proper expression could not be obtained. The meaning of a charter cannot be fully grasped by anyone from hearing it read once under such circumstances. Besides this viva voce voting is no voting at all. A few will vote "aye," the negative will be hurriedly put and no response will be received. "Carried unanimously" will be declared by the chair. We want a fair and this paper will support any reasonable charter. But we believe the proper way to decide this question is by a vote of the people at the next city election which is near at hand. A charter thus adopted by a majority will be held by the people to be binding in honor and will be better for the gas company. It will not cost a cent to submit the question at that time.

The city council will please allow us to suggest to them that a meeting of this sort cannot be considered a fair expression of the people.
