

SHOT BY A CRANK.

Customs Surveyor Beattie Wounded.

The Official Fired Upon by a Discharged Inspector.

Two of the Bullets Take Effect But are Not Fatal.

New York, Nov. 1.—Surveyor of the Port of New York Beattie was shot about noon to-day in his office at the custom house by a discharged inspector, who fired five or six shots at him, hitting him twice.

The surveyor's wound would be a serious one. He was shot in the back of the head by a discharged inspector, who fired five or six shots at him, hitting him twice. The surveyor's wound would be a serious one. He was shot in the back of the head by a discharged inspector, who fired five or six shots at him, hitting him twice.

At 12:20 reports of pistol shots were heard by Private Secretary Louis Nichols and Examiner Thos. Hyatt. The discharged inspector rushed instantly out of the private office, pistol in hand, and ran through the corridor to the exit into Hanover street.

A man attempted to stop Berial and he yelled: "If you touch me I'll kill you," and the man stepped back. Berial ran along to Beaver street into which he turned and ran to the cotton exchange.

A number of citizens followed in pursuit, when finding escape impossible the man turned and ran into the arms of a policeman. He was trembling with fear and seemed to anticipate that his pursuers would harm him. He said to the policeman, "For God's sake arrest me."

He was taken to the Old Slip station house and locked up. He described himself as being 70 years old, married, and living at 859 Sixth avenue, and said he was a native of Brazil.

THE WOUNDS NOT FATAL. Meanwhile Berial's victim was being cared for. News of the shooting, greatly exaggerated, spread rapidly, and a large squad of police had all that they could do to keep the corridors clear. A number of physicians appeared to render aid to the wounded man, and the surgeon attached to the custom house was promptly on hand and after an examination concluded the wounds were not of a dangerous character.

One bullet had passed through the thigh. So far as a hurried examination could disclose the latter bullet had taken a downward course and lodged in the muscles of the upper part of the leg.

Surveyor Beattie remained conscious and endured the pain with fortitude. He spoke calmly to those who were admitted to the room, and made close inquiries of his medical attendant as to the nature of his injuries.

The fact that he was not mortally wounded and had not received five bullet wounds, as was at first reported, was speedily communicated to the surging crowd in waiting and relieved their anxiety in a marked manner.

SURVEYOR BEATTIE'S STATEMENT.

Coroner Levy took the statement of surveyor Beattie this afternoon. He said the prisoner was removed from his post of inspector on his recommendation, as he had illegally taken money from an emigrant girl. The surveyor was sitting at his desk when his door was thrown open and the prisoner entered with a pistol in hand, exclaiming, "Now, by —, I'll teach you." He fired three shots, two of which took effect, one through the fleshy part of the surveyor's left hand and the other struck the crest of the ilium, glancing in an inward and upward direction. This ball has not yet been extracted.

The prisoner when captured was perfectly calm and admitted the shooting, and added that he did it

because Beattie refused to listen to the men who went to him to appeal for his reinstatement. The prisoner was taken before the injured official, who unhesitatingly identified him. Berial said: "Yes, I'm the one that did it. He took the bread and butter out of my family's mouth." The prisoner was subsequently taken to the Tombs police court, where he confessed to Justice Murray having fired the shots, and said he did it because the surveyor had discharged him without cause.

ED. TIMES:—After a long silence we come again.

It has been very dry until recently when we have had several refreshing showers.

Corn gathering, coal hauling, potato digging, and going to hear candidates speak, is the order of the day. Portable wells on wagons are very common, some hauling water while others drive the stock to water.

J. M. Alexander has 212 head of cattle which he has to drive to Mormon Fork, two miles, every day to water. It doesn't rain before cold weather stock in this section will suffer for water.

We heard Wm. O. Jackson speak at Burdette on the night of the 19th inst. Billy is a daisy, a no mistake. We predict a large majority for him.

S. C. Marshall drilled to the depth of 169 feet in his well. He struck water and gas at the depth of 168 feet. B. B. Marshall is a boss driller and did the above work. He has a good drilling outfit and says he will work cheap these hard times.

Mr. Harry Hill and Bob Cowley have gone to northwest Kansas to look at the country.

B. B. Marshall has been appointed "Squire" in Alex. Sheppard's place. We would like to hear the Squire perform the marriage ceremony. We wish you much joy, Mr. Editor, in your married life, may long live, peace and happiness be the lot of you and your estimable lady. Success to the TIMES and ticket, may we poll the largest ever had in Bates county is my wish and desire. More in the future.

NOW AND THEN.

C. T. Davis, of Nevada, in sneezing broke a rib. The mail gives half a column write-up of the peculiar circumstance and says that possibly Mr. Davis fractured the rib some days since while out driving when he was thrown from a buggy, but adds that it is probable the "sneeze" finished the job of breaking the rib.

In the light of later developments several little squibs on an other page already in type, are quite premature to say the least. However this will give the Republican contemporaries a chance to air themselves.

Don't wear your old hats till Christmas when new ones are so cheap at Mrs. McConnell's.

NO SURGICAL OPERATION PERFORMED.

With all its horrors, being only equalled by hydrophobia,—no matter how strong one may be—Rupture is a lurking enemy, undermining the constitution, and unfitting its victims for all physical and social enjoyments of life. The displacement of the bowel in rupture, and the use of the truss, affect the kidney, bladder and other organs, till impotency, impaired memory, fever, Bright's disease, and other mortifying and serious ailments are induced.

Dr. D. L. Snedeker's Treatment of Rupture is becoming well and favorably known wherever given a trial, and is being most successfully treated by DR. O. D. LEE.

In his treatment there is no operation, or restriction from labor, but a speedy cure, and restoration from all the ailments caused by rupture.
