A MAN'S INCOME

MAY BE VERY LARGE,

But if he fails to save a part of it he never meets with success. The same may be said of the man who has a small income. A first-class plan is to lay aside a dollar or more every week. It soon becomes a habit and you are on the right road to success and prosperity.

The Color Line.

Seattle, Wash., Oct. 20.—Past Grand Master J. M. Taylor, when shown to night the associated press dispatch from Louisville on the action of the Masonic grand lodge of Kentucky in withdrawing recognition from the grand lodge of Washington because it recognizes the negro lodges, said:

"The Masons of the state of Washington are, in this matter, contending for a principle of right and justice. Kentucky can certainly get along without us, and it is equally certain that we can get along without Kentucky. We can afford to bide our time until such time as the future shall demonstrate that the Masons of Washington are right on this question just as the once loudly condemned abolitionists were right in their fight for slavery."

It's All in the Play.

It is surprising, says the Nevada Mail, how the soul of our republican friends swell with indignation about election time over democratic management in county affairs. Evidently they put their indignation on ice in an incubator during the many months previous to election time, for they seem to live and get along all right. But when the election rolls around they begin to paw the air, and their venom escapes like steam from a two horse boiler. But after the election law is over they find democrats pretty good fellows with whom to do business.

A Narrow Escape.

Thankful words written by Mrs. Ada E. Hart, of Groton, S. D. "Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles. It has cured me, and thank God I am saved and now a well and healthy woman." Trial bottles free at H. L. Tucker's drug store. Regular size 50c and \$1. Guaranteed or price refunded.

JORDAN ON FOREIGN POLICY.

College President Enters Protest Against Imperialism.

Omaha, Neb., Oct. 21.—A bold and unmistakable argument against imperialism was made by President David Star Jordan at yesterday's session of the liberal congress of religion, and it was listened to by a crowded house.

Summed up it was to the effect that a policy of expansion would make incumbent upon the country an expensive colonial system with all that implies of a costly army and navy; that our government system would have to be largely changed from American republicanism to British imperialism; that the pursuits of war would take the place of pursuits of peace; that it is not suited to this country; that the effect of living in the tropics is to degenerate the Anglo-Saxon character; that a better way is to preserve the friendship between this country and Great Britain, and, finally, that this nation stands for an ideal of individual citizenship, which is a higher purpose for humanity than national aggrandizement.

We are still in the market for your chickens, eggs, butter or any thing you have to sell, and will at all times pay you the highest market price in cash or merchandise.

Dugly Prosperity.

Dingley is saying nothing in defense of his tariff bill trust at present, says the Chicago Democrat.

Republicans are not boasting about the high price of wheat this year. They have no famine in India, no short crops abroad, no big corns in America to boom the great cereal.

But Mark Hanna's coal mine manager is talking very indiscreetly and will doubtless receive a hint from the boss to cease his ill timed comments.

In discussing the outlook for mining this employe of the great advocate of "honest" money says: In the early part of next year we will have one of the greatest coal strikes this country has ever seen. All indications are that the strike will last many months.

Of course those coal miners who worked for Hanna were ejected and coerced into voting for McKinley in 1896. They were told the fairy story of McKinley prosperity and warned if they voted for Bryan their jobs would be forfeited.

Now there is a great strike in prospect.

West Virginia coal miners are working for the lowest wages ever paid them and the anthracite miners of Pennsylvania are on the verge of starvation.

In the state of Illinois negroes are imported to take the places of white men in the mines with the result of degrading labor and reducing wages.

It looks as though the trouble of last year might break out again in a worse form and then wage earners may expect the revival of the junction and the crack of the Winchester.

Our line of Groceries is more complete than ever. As we buy for cash, we are enabled to sell at prices that will astonish you, come and see us.

Peck Secures More Space.

Paris, Oct. 21.—When Ferdinand W. Peck, the United States commissioner to the exhibition of 1900, arrived in this city the space allotted to the United States at the exposition grounds was 175,000. Mr. Peck's first gain was 6,000 square feet, and he has just secured 22,000 square feet more, by means of a direct order from the French government and the director of the exposition, making the present total 203,000 square feet.

Germany has 150,000 square feet. It is not known yet how much space has been allotted to Great Britain or Russia.

PHILADELPHIA'S JUBILEE. POLICE FOR SANTIAGO.

The Great Peace Celebration Fully Launched in the City of Brotherly Love.

Gen. Wood Will Reorganize and Enlarge the Force in the Province.

A NAVAL REVIEW ON THE DELAWARE.

THE SCHOOL BOARD SEES GEN. WOOD.

The War Vessels Remained at Anchor. Every One of Them Gaily Decorated with Bunting—Two Hundred Steam Vessels Rendezvoused Below League Island Navy Yard—Atlanta's Jubilee.

They Wanted Their Authority Defined—Land Offered to the General to Enable Him to Carry Out His Plan of Furnishing Work for Anyone Who Desires It—An A. M. E. Church for Santiago.

Philadelphia, Oct. 25.—The great peace jubilee is now fairly on, the first of three monster pageants, the naval review on the Delaware river, occurring to-day. The city was crowded with people and the weather was favorable. The nine naval vessels were anchored in the middle of the stream equal distances apart and in all stretching out for about two miles on the city front. The war vessels remained at anchor during the demonstration, every one of them gaily trimmed with bunting from stem to stern. Below League Island navy yard 200 other steam vessels had rendezvoused and from this point the procession moved up the river past the anchored fleet of men-of-war. The McCauley, with Commodore Josiah R. Adams, of the Philadelphia Yacht Club, the officer of the day, on board, led the fleet, followed by the yacht May with the secretary of the navy and party. Then in order came steamers with invited guests, members of the jubilee committee, city councilmen, the mayor and other city officials, the local and visiting newspaper men and following these came the long line of excursion steamers. The imposing pageant passed the warships on the New Jersey side of the river and each man of war as the yacht May came abreast, belched forth a salute of 17 guns in honor of the secretary of the navy.

The Atlanta Peace Jubilee.

Washington, Oct. 25.—A committee of prominent citizens of Atlanta, Ga., called at the white house to-day and invited President McKinley to attend the peace jubilee to be held in that city in the near future. The date for the celebration has not yet been decided upon, the committee informing the president that the date would depend on his convenience. The president expressed his earnest desire to make the trip, but stated that it was not likely, owing to the pressure of public business, that he would be able to leave Washington before December 15. The committee thereupon informed the president that the celebration would be fixed at that date, as it was greatly desired by the people of the state that he should be present.

FUSIONISTS KNOCKED OUT.

Missouri Supreme Court Decides That Middle-of-the-Road Populists Ticket May Go on the Ballot.

Jefferson City, Mo., Oct. 25.—The state supreme court to-day awarded the writ of mandamus asked by the middle-of-the-road populists against Secretary of State Lesueur, to compel him to file their state ticket. This knocks the fusion populist party, headed by A. Rozelle, state labor commissioner, clear out, and its ticket, as filed with the secretary of state last night, in which it filled the vacancies by putting in the democratic candidates, is thrown out and the middle-of-the-roads ticket filed.

Lowe Will Be Discharged.

Kansas City, Mo., Oct. 25.—The indictment against William W. Lowe, the self-confessed train robber, will be dismissed in the criminal court before the robber is called as a witness against Jesse James. Lowe has turned state's evidence, and it is customary in such cases to dismiss the charge against the informer before he goes on the witness stand.

Negro Robs a Mexican Bank Cashier.

St. Louis, Oct. 25.—Ramon Basal, cashier of the City Bank of Mexico, spending his vacation touring the United States, was robbed of almost \$5,000 in money, bank drafts and railroad tickets by a negro, within two blocks of Union station, at a few minutes past nine o'clock last night. Half a dozen of Chief Desmond's men are on the case.

Immense Tobacco Corporation.

Albany, N. Y., Oct. 25.—The United Tobacco company of America, capitalized at \$10,000,000, filed a certificate of incorporation with the secretary of state to-day. Its principal office is to be in New York city and it purposes to manufacture and sell tobacco in all its forms. The company paid to the state a corporation tax of \$12,500.

Kansas Who Will Not Go to Manila.

San Francisco, Oct. 25.—The following members of the Twentieth Kansas regiment were yesterday granted discharges: Private Henry McKeeney, company A; Privates Frank McCoy and Edward Liehrance, company F; Private William E. Sexton, company G; Corporal R. E. Elder, company K; Private E. I. Miller, company M.

Episcopians at the White House.

Washington, Oct. 25.—President McKinley gave a dinner last night in honor of some personal friends among the delegates to the Episcopal convention now in session in this city. The dinner was given in the state dining room of the white house and covers were laid for 15. The floral decorations were elaborate and beautiful.

A Trust to Operate Fire Brick Plants.

Massillon, O., Oct. 25.—William G. Hipp, of the Massillon Fire Brick company, has secured options on the plants of all the leading fire brick companies of this county and they will soon be purchased and operated by a trust. It is claimed that eastern capital amounting to \$12,000,000 is behind the scheme.

Santiago, Cuba, Oct. 25.—The police force of the province of Santiago is to be reorganized and enlarged. Gen. Wood will plan the work with the help of a council of eight, which he has chosen from the Cuban committee of 50 appointed to recommend men for office and to make suggestions on the government. The council of eight will consist with Gen. Wood three times a week. The other 42 members of the committee may go to different points to consider local applications for office. The members of the council will receive salaries, though the amount has not yet been decided upon. Gen. Wood's plan is to make the police force a semi-military organization, in command of an inspector general, with the rank of lieutenant colonel, having headquarters at Santiago. The whole service will be thoroughly drilled. The mounted police will be armed with carbines and revolvers and the foot constabulary with machetes and revolvers. There will be a reduction in the number of police at Santiago, but Gen. Wood contemplates adding 12 American patrolmen for districts specially frequented by soldiers, teamsters and Americans generally. Apparently no men of the present force dare to arrest an American, even when the police outnumber the offenders seven to one.

The School Board Sees Gen. Wood.

Santiago, Cuba, Oct. 25.—A committee of members of the school board called on Gen. Wood yesterday with a request to have the limits of their authority defined. Gen. Wood informed them that they were virtually vested with full power, subject in all matters to himself, but he assured them that he would carry out all reasonable plans proposed, adding an expression of hope that nothing would occur to shake the confidence he now had in them. Another committee, composed of influential Cubans, called to express thanks for Gen. Wood's efforts on behalf of the city. The spokesman of this committee assured him that the Cubans who made complaints were for the most part those living in the United States, with whom, throughout the entire war, the majority of Cubans in the island had little sympathy.

Free Lands for Cubans.

Santiago, Cuba, Oct. 25.—Several wealthy Cubans have offered Gen. Wood a quantity of land to enable him to carry out his plans of furnishing work for anyone who desires it. Any such applicant will be given, for one year, the use of a piece of land, implements, seed and rations until his crops grow, to enable him to supply the Santiago market with vegetables, fruits, fowls or pork. Gen. Wood believes that no fewer than 500 men will accept this. He has accepted the offer of a coffee plantation, without capital, to find work for 50 men if the United States authorities will supply rations for two months. Rations will be given weekly in proportion to the number of men found actually at work. Lieut. Rooney has gone with 180 pack mules to Bayamo, distributing rations along the roads. He carries 21,000 rations.

An A. M. E. Church for Santiago.

Santiago, Oct. 25.—Rev. Mr. Somellan, a minister of the M. E. church here, is about to build a church and establish a school, after which he will visit the other Cuban cities for a similar purpose. He is of Cuban birth, but has been living in the United States since he was a boy. He had been away from Cuba 30 years.

To Sail Under America's Flag.

Tacoma, Wash., Oct. 25.—The steamship Tacoma, of the Northern Pacific Steamship company, was formally transferred from British to American registry yesterday. Five thousand people on the ocean dock listened to the speeches on the occasion. Permission to assume American registry was granted by congress last July, but the English government forbade the transfer, as it might be construed as a breach of neutrality. With the signing of the protocol all objection ceased.

Sagasta Roundly Secored.

Washington, Oct. 25.—Senator Salmeron, the distinguished leader of the republican party of Spain, who opposed the war with the United States and the administration of affairs in Cuba, has written an open letter to his followers, in which he roundly scores Senator Sagasta and the government party for the condition in which Spain now finds herself, and charges Sagasta and his ministry with the loss of Cuba and all the other colonial possessions of Spain.

Picked Up in Mid-Ocean.

New York, Oct. 25.—Capt. William A. Andrews, who left Atlantic City in an open boat August 24, was picked up at sea by the bark Friede, September 27. He was within 600 miles of the Azores islands, his destination. His stock of provisions had been nearly exhausted. In the 34 days at sea he had traveled nearly 2,400 miles. Capt. Andrews' boat was only 14 1/2 feet long and made of canvas which can be handled when not in use.

Kansas to Embark Wednesday.

San Francisco, Oct. 25.—The Second and Third battalions of the Twentieth Kansas regiment will go on board of the Indiana to-morrow, and a few hours afterward will be on the way to Manila. Orders to this effect were given out at regimental parade last night.
