

RACING REVIVED OVER IN ILLINOIS

Succor State Turf Men to Enjoy Decadent Sport This Month.

Chicago, July 10.—After slumbering peacefully in its legislative grave for more than a decade, horse racing will be inaugurated in Illinois again, July 15, with the opening of a two-weeks meeting at the old Hawthorne track, scene of many famous turf classics. The meeting will be under the auspices of the Illinois Jockey Club.

Club officials have taken precautions to make good on their promise to have a "betless race meet." Wagering will not be permitted on the grounds or in the open, and policemen have orders to arrest all persons suspected of "having a good thing in the third."

That there will be betting, however, seems certain, in spite of all the police and officials can do to prevent it. It will be done under cover, of course, just as it has been done in Chicago since the death of the game.

"Betless racing" proved an old maker, when asked for an opinion as to the probability of there being a meet of that sort. "Did you ever see a boneless ham, or a poker game without chips, money or players?"

The feature of the opening day will be the revival of the famous American Derby, which in years gone by drew annually to Chicago sportsmen from all over the United States.

In this event almost every horse of derby calibre in the country has been entered. The colors of the August Belmont, Harry Payne Whitney, John Sanford, Vau & Lewisohn and many other famous stables will float in Chicago again.

George Smith, winner of the Kentucky derby at Churchill Downs this season; Dodge, winner of the Latonia derby; Chicle, who came home ahead in the Brooklyn derby; Achievement, winner of the Hamilton derby, and Friar Rock, winner of the Suburban and Brooklyn handicaps—these are some of the turf favorites that will participate in the revival of the famous old event.

Practically all the best seats have been reserved for weeks. Society will be out in force.

Everything has been done to make the derby tomorrow a replica, so far as is possible, of the old American derby, which for years was the feature of the Washington Park meetings on the South Side. The Hawthorne stands and stables, long unused and decaying, have been renovated, painted and decorated.

The meet will continue until July 29. The game will have had its trial by jury in the two weeks, and old-timers says it will be impossible until the meet is concluded to forecast whether the revival of racing in Chicago is to be permanent.

HEALTH BOARD WARNS MISSOURI AGAINST PLAGUE

Fear of Infantile Paralysis Epidemic Spreading Here Is Responsible for Circulars Describing Preventives.

Jefferson City, July 10.—The State Board of Health today took cognizance of the danger to Missouri children from infantile paralysis and issued a circular to physicians and local health officials, in which it is recommended that children under 10 years of age be kept from attending picture shows during the summer months. The disease, the circular says, may be communicated.

The circular follows: To physicians and local health officers throughout the state: As poliomyelitis is epidemic in New York City and isolated cases are appearing in a number of the states, all physicians and health officers are hereby requested by the State Board of Health to isolate each case of the disease as soon as ascertained and report the same to the State Board of Health immediately.

This disease moves in a mysterious way, yet the virus is known to exist in the nose and throat of children, and animals, as well, and is communicable. It is therefore advised that every precaution be taken in the way of cleanliness. Due care should be taken in trapping and screening flies, and the premises should be kept scrupulously clean.

Domestic animals are a source of danger and children should not be permitted to play with them during the summer months, as 80 per cent of all cases are confined to the summer months, and the disease is confined most exclusively to children under 10 years of age.

As the virus is found in the nose and throat it is advised that saline gargles be used freely, even in the case of healthy children and grown people as well.

It is also advised that children under 10 years of age be kept from picture shows during the summer months.

By order of the State Board of Health. J. A. B. ADCOCK, M. D., Secretary.

16 YEAR OLD PRIVATE JOINS NATIONAL GUARD

Denver, Colo., July 12.—The youngest "rookie" in the Colorado National Guard, has just entered the service. His name is Dale de Fluiter, 16 year old son of Henry de Fluiter, a musician. He was assigned to the medical corps and left for the mobilization camp at Golden soon after joining the militia.

For weeks the boy had pleaded with his father to permit him to enlist in the militia. At first the father frowned upon his request, but eventually the boy succeeded in convincing him that military training would benefit him mentally and physically and the father consented.

Latest Market Reports Sent The Tribune By Wire

MARKET STRONG ON ST. LOUIS MERCHANTS' EXCHANGE WEDNESDAY.

WEATHER MAP FAVORABLE

Big Gain at Minneapolis and Verification of Black Rust Reports by Samples Bullish Influences —Coarse Grains Steady.

St. Louis, July 12.—The wheat market was strong on the Merchants' Exchange Wednesday.

Big gains at Minneapolis and verification of rust reports with samples were bullish influences in the fine grain. Rust reports keep coming from the northwest. Snow had samples. Cables were bullish. Weather map favorable. September delivery advanced 1 1/2c at \$1.09 1/2; December, 1 1/2c at \$1.12 1/2.

Coarse grains were dull but steady. Weather map and cables were bearish, but the strength in wheat helped corn. July unchanged at 79c; September up 1/2c to unchanged at 74c; December 1/2c at 63c. September oats up 1/2c.

Receipts—Sask wheat, 292; cars wheat, local, 71; cars wheat, through, 5; cars corn, local, 19; cars corn, through, 10; cars oats, local, 13; cars oats, through, 9; tons hay, local, 335; tons hay, through, 35.

Grains in St. Louis Public Elevators —Wheat, 1,397,899 bus.; corn, 55,639; oats, 64,932.

St. Louis Hay Quotations.

Hay—Timothy—No. 1, \$16@17.50; No. 2, \$13@15. Clover—Mixed, No. 1, \$12@14; No. 2, \$10@12. Alfalfa—No. 1, \$14.50@15; No. 2, \$13@13.50. Prairie, \$12@13. Wheat straw, \$6.50 @7.

Liverpool Wheat Quiet.

Liverpool, July 12.—Spot wheat was quiet, unchanged. Corn was quiet, unchanged to 1d lower.

New York Cotton.

New York, July 12.—The cotton market opened steady, with little change. Prices were 1 under to 1 over Tuesday night's close.

Liverpool Cotton Dull.

Liverpool, July 12.—Cotton futures opened quiet and ruled dull and slightly irregular. There was improved demand for spots. Middlings, 8.97d. Receipts were 21,000 bales, of which 20,800 were American.

East St. Louis Live Stock.

National Stock Yards, July 12.—Cattle—Receipts, 5,500 head, 800 southern. Market steady. Native beef steers, \$7.50@11.20; yearling steers and heifers, \$8.50@10.50; cows, \$5.50 @8.25; stockers and feeders, \$5.50 @8.50; calves, \$6@11.75; Texas steers, \$5.50@9.90; prime southern steers, \$9 @10; cows and heifers, \$5@8; prime yearlings and heifers, \$8.75@10.25.

Hogs—Receipts, 9,000 head. Market 10c lower. Mixed, \$9.70@10.65; good, \$10@10.65; rough, \$9.45@9.55; light, \$9.75@9.95; pigs, \$8.50@9.60; bulk, \$9.70@10.

Sheep—Receipts, 4,500 head. Market steady. Shorn ewes, \$4@8; wethers, \$6@8; shorn lambs, \$6@10; spring lambs, \$7@10.80.

POISON IS SENT IN A LETTER

Search Made for Former Sweetheart of Dead Girl After Inquest at Pelahatchie, Miss.

Pelahatchie, Miss., July 12.—Miss Amy Atkinson, 18-year-old daughter of J. W. Atkinson, a prosperous farmer, sent to her in the mail, according to the verdict of a coroner's jury. Contents of the girl's stomach were examined at Jackson.

Postal and secret service agents are tracing the anonymous letter, inclosing the powders, which were sent to the girl and in which she was told to take the powders to relieve her condition.

The father of the girl has gone to Shreveport, La., in search of a former sweetheart.

The letter and remaining powders have disappeared from the Atkinson home.

DIVORCES CAUSING CONCERN

132 Granted in Council Bluffs, Ia., in Year to July 1—865 Marriage Licenses Issued in Same Period.

Council Bluffs, Ia., July 12.—The 12 months from July 1 last year to the corresponding date of 1916 were noteworthy because of a ratio of divorces to marriages that is occasioning some concern to those who are keenly interested in the state of society. In this city there were 132 divorces granted during the period named, and, as there are two county seats, the total given is far from complete for Pottawattamie county.

During the same time there were 865 marriage licenses issued, but a considerable proportion of them were to couples not residents of the county.

Train Hits Auto, Kills Five.

Mansfield, O., July 12.—Five persons were killed when a Pennsylvania freight train struck an automobile near here. The dead are: Mr. and Mrs. Simon Nau, and son Albert, and Mr. and Mrs. Peter Baum, all of Loudonville, O.

Admission Day in Vermont.

Montpelier, Vt., July 12.—Men of national prominence joined with citizens of Vermont in celebrating the 125th anniversary of the admission of the Green Mountain state into the Union.

TWO CHILDREN ARE KILLED BY SHARKS

Third Bather Loses Limbs at New Jersey Beach—Four Slain in Two Weeks

(Special Dispatch to The Tribune.) Mattawan, N. J., July 12.—A shark killed two children at the bathing beach here today and bit the legs from another. This makes a total of four persons who have lost their lives within the past two weeks to sharks along the New Jersey coast.

Never before have these sea monsters invaded the bathing beaches of New Jersey. Sharks have been seen in the waters off New Jersey in years gone by, but they were not of the variety that are known as man-eaters.

These sharks are believed to have come from the tropics, and are of a different type than have ever been seen in this vicinity before. It is now definitely known that these man-eaters have invaded the waters along the New Jersey coast in schools and are shadowing bathers.

The sharks remain in the deep water, thoroughly submerged and wait for the bathers to enter. They wait until the swimmers get at a safe distance from the shore before they attempt to attack. When the swimmers get within striking distance the big fish darts into the shallow water, and seizes the swimmer's legs or mangles his body in but an instant.

The children killed today, and the third one, which was mortally bitten, were close to the shore when seized. The two children were dead when taken from the water and their bodies cut to shreds. The other was taken from the sea in a dying condition.

Two men were killed by sharks a short distance from here within the past two weeks.

The tragedies will virtually put an end to beach bathing, it is feared. The announcement of the death of the two men demoralized the sport and drove summer resort habitues inland. It is feared that the tragedies of today will result in the abandonment of some of the summer resorts along the coast.

GOETHALS QUILTS AS GOVERNOR OF CANAL

President Wilson Accepts Resignation of Chief of the Panama Canal Zone

Washington, July 12.—President Wilson announced tonight that he had accepted the resignation of Gov. G. W. Goethals of the Panama Canal zone. No successor has been selected as yet, but President Wilson will appoint a new governor-general within a very short time.

Mr. Goethals will return to his old home in New York City, and his name has been mentioned for governor of New York. He has been desirous of getting away from the canal zone for almost two years, but remained only at the urgent request of President Wilson.

He has performed a wonderful service as governor of the Panama Canal zone, and his accomplishments have won the praise of President Wilson, although Mr. Goethals is of the Republican faith.

Col. Goethals became chief engineer of the Panama Canal in February, 1907. He is largely responsible for the success of the undertaking. He was a member of the Board of Fortifications during the Spanish-American war, and has been identified with government engineering projects for a quarter of a century.

DOG ROBS FISHERMEN

Takes Meat from Lunch Baskets of Bliik Cooper, Doc Braham and Nunn.

When Bliik Cooper, Dr. J. V. Braham and J. T. Nunn Jr., yesterday went fishing, they failed to mount a guard over their provisions while they busied themselves catching mud-cats. They had departed from the Cape prepared to make a day of it and when noon time arrived and they had not snagged very many fish, they hustled back to their lunch basket just in time to see a cur dog depart carrying what was left of their supply of meat.

MOUNT LASSEN IS AGAIN IN ERUPTION

California Volcano Fmitting Flow of Lava and Residents Are Becoming Alarmed

(Special Dispatch to The Tribune.) Redding, Calif., July 2.—Mount Lassen, the volcano located a short distance from Redding, is in active eruption. A stream of lava began flowing from the mountain today after a week of continuous rumbling. Light earthquake quivers have been felt in this vicinity for the past month, and smoke has been coming from the volcano at intervals during that time.

While Mount Lassen has shown signs of activity now and then during a number of years, the flow from the crater has never been as threatening as the present eruption. A blaze of fire can be seen coming out of the top of the mountain for a great distance, and there is great alarm among those living within a radius of a few miles.

The flow of molten lava is rippling down the side of the volcano, but the eruption is not of sufficient volume to cause much damage.

DOG ROBS FISHERMEN

Takes Meat from Lunch Baskets of Bliik Cooper, Doc Braham and Nunn.

When Bliik Cooper, Dr. J. V. Braham and J. T. Nunn Jr., yesterday went fishing, they failed to mount a guard over their provisions while they busied themselves catching mud-cats. The strength of this bank lies not only in its capital, surplus and resources, but in the character and financial responsibility of the men who conduct its affairs.

MANY people do not realize the food value of Ideal Beer. Do you? Do you know that Beer nourishes, soothes, livens and cleanses the body as no other beverage does? Do you know that its malt is a food partly digested and most easily assimilated?

Do you know its hops area tonic quieting to over-wrought nerves? Do you know that its small per cent of alcohol assists digestion? Do you know that its liquid washes away clogging waste?

All These Things Are True

Your Doctor Will Tell You So!

Beer is good for both the sick and the well. Doctors prescribe it for those who are weak and "run down." The inhabitants of the most healthy and progressive nations of the world drink beer.
