

THE DAIRY

MAKE-UP OF GOOD DAIRYMAN

His Class May Easily Be Judged From Appearance of Stable—Little Things Make Farming Pay.

We can safely judge a dairyman from his stable. If when you go into a man's stable you see his cow standing in good, dry straw a foot deep in

A Good Stall.

a roomy box stall, the fodder box arranged so that all is eaten, a good, roomy feed-box, one deep enough so that when a feed of chop is put in, the animal will not throw it all over before he eats it, you may know the owner is a good farmer.

In that kind of a stall you will not find any corn cobs mixed with the bedding; they are all gathered from the feed boxes and placed in a barrel and used for kindling.

There are other things by which we may judge as to the class in which a farmer belongs. If the farm dwellings and outbuildings are neatly painted, and the fences and gates in good repair, you will not see haystacks or straw-piles standing all winter, or see this farmer husking out corn in April so as to get it out of the way for another crop.

It is the little things that make farming pay, and the little things make the losing game, too.

NEW FRAME FOR MILK PAILS

Wire Structure Fits Around Receptacle and Protects It From Dirt at Bottom—General Design.

With the improvement in farming and dairy methods in general, and the demand for pure milk in particular, comes the milk pail frame, designed by an Iowa man. This frame cannot be considered a necessary article by any stretch of the imagination, but a great many things are being used by the dairyman now that have decided merit without being necessities. The

New Frame for Milk Pail.

Illustration shows the general design of the frame, which has a pan in the bottom on which the pail rests. Two projecting U-shaped portions of the upper ring of the device fit over two flails at the top of the bucket. When the flails are under the ring the frame is turned a few inches to afford them a purchase and prevent their slipping out again, and the dairyman thus has his pail enclosed in a framework that extends on all sides and protects it from dirt at the bottom.

DAIRY NOTES

It is best to test the milk for butter fat once each month. Don't mix the morning and night milk unless both are quite cool. There is no liquid that will absorb odors more quickly than warm milk. The animal that pays the best is bound to be in evidence as dairymen become better informed.

It is a mistake to suppose that a good cow of inferior breeding is qualified to drop a good calf. Clover is one of the best forage crops for cows and is one of the best crops a dairyman can put in.

Before selecting a pure-bred sire to head the herd of cows, it is necessary to canvass the situation thoroughly. In building up a dairy herd from common stock, much time will be saved if the best cows are selected to form the breeding herd.

There are few cows which will not stand more quietly during the milking process if they have nothing else to attract their attention. Milk that is properly pasteurized and then kept at a low temperature will keep much longer, as a rule, than that which is not so treated.

Separate the cream while the milk is still warm and in cold weather first run hot water through the separator to warm it. Strain the milk into the separator through a wire gauze.

Use of Separators. Many farmers in this section are buying separators and shipping cream. They think it pays better than making butter and saves the hard work of churning.

CLOVER HAY FOR DAIRY COWS

How to Cure It to Make Best Fodder—Cut When Dew is Off, Soon as Well-Willied.

Clover for milk cows should be cut when part of the heads commence to turn brown; if cut too early there is a waste of substance, and if cut when the heads are dead ripe, the leaves have fallen off in the curing and the stalks are hard and woody. The character of the weather should be studied. Cut when the dew is off, as soon as well-willied. It should be shaken out and turned before dew falls. The next day rake into small windrows, and after the field is raked over, commence at the beginning and double the row, and by turning the hay with the rake two or three times, exposing the green bunches to the sun and air, the sap will evaporate by the middle of the afternoon, when the hay may be bunched and put up into medium-sized cocks. If the weather is clear, cocking will not be necessary. The next morning haul in; spread one peck of coarse salt upon each load. If the bottom of branches should be damp turn the bunches over an hour before hauling. The nicest way to cure clover hay is to put it up in good-sized cocks, cap it and let it remain in the cock until well cured, when it should be hauled in and placed in a portion of the mow for spring feeding. Clover hay cured in the cock is much more valuable than sun-dried hay. Cows fed with this quality of hay will not only give a large quantity of milk, but the milk will be rich and well flavored. If the hay feels heavy in handling, a layer of old hay or straw should be spread over each load to absorb the moisture. Green hay should not be put into the mow, as it is sure to heat, and may cause the loss of the barn.

GOOD CONCRETE MILK HOUSE

Illustration Shows Structure to Accommodate Twenty Cows—Convenient Fuel Room Provided.

The accompanying illustration of a concrete milk house is supplied by the dairy division of the United

Concrete Milk House.

States department of agriculture. This building is ten feet wide and twelve feet long and is intended for a dairy of about twenty cows. The plan provides for a convenient fuel room which in most instances is omitted.

Dairy Profits Depend on Quality

Profits in dairying do not depend so much on the number of cows kept, but upon the kind. This fact is being realized more and more as the dairy industry increases. One way to increase the acreage of a farm is to increase the fertility of the soil of the farm. Similarly one way to increase a dairy herd is to increase the cows' producing power.

Butter Must Go Higher

Dairying has become one of the most important branches of farm industry. Do not fear that the present high prices will not continue, for the number of milk cows and the amount of butter made does not keep pace with the increase of population the country over. Butter must go higher rather than lower under present conditions.

SPONH'S

This is the name of the greatest of all remedies for Distemper, Pink Eye, Heaves, and the like among all ages of horses. Sold by Druggists, Harness Makers, or sent to the manufacturers, \$2.50 and \$1.00 a bottle. Agents wanted. Send for free book, Spohn Medical Co., Spec. Contagious Diseases, Gothen, Ind.

LADIES CAN WEAR SHOES

one size smaller after using Allen's Foot-Powder, the Antiseptic powder to be shaken into the shoes. Makes tight or new shoes fit easily. Gives rest and comfort. Relieves chafing. For FREE trial package, address Allen S. Unwin, La. Roy, N. Y.

A man doesn't have to be a detective in order to find fault.

FREE

MUNYON'S PAW-PAW PILLS

TRADE MARK

A trial package of Munyon's Paw Paw Pills will be sent free to anyone on request. Address Professor Munyon, 534 & Jefferson Sts., Philadelphia, Pa. If you are in need of medical advice, do not fail to write Professor Munyon. Your communication will be treated in strict confidence, and your case will be diagnosed as carefully as though you had a personal interview.

Munyon's Paw Paw Pills are unlike all other laxatives or cathartics. They coax the liver into activity by gentle methods. They do not scour, they do not grip, they do not weaken, but they do start all the secretions of the liver and stomach in a way that soon puts these organs in a healthy condition and corrects constipation. In my opinion constipation is responsible for most ailments. There are 26 feet of human bowels, which is really a sewer pipe. When this pipe becomes clogged the whole system becomes poisoned, causing biliousness, indigestion and impure blood, which often produces rheumatism and kidney ailments. No woman who suffers with constipation or any liver ailment can expect to have a clear complexion or enjoy good health. If I had my way I would prohibit the sale of nine-tenths of the cathartics that are now being sold for the reason that they soon destroy the lining of the stomach, setting up serious forms of indigestion, and so paralyze the bowels that they refuse to act unless forced by strong purgatives.

Munyon's Paw Paw Pills are a tonic to the stomach, liver and nerves. They invigorate instead of weaken; they enrich the blood instead of impoverish it; they enable the stomach to get all the nourishment from food that is put into it.

These pills contain no calomel, no dope; they are soothing, healing and stimulating. They school the bowels to act without physic.

Regular size bottle, containing 45 pills, 25 cents. Munyon's Laboratory, 534 & Jefferson Sts., Philadelphia.

An Ambassador's Nose.

An ambassador to Russia, formerly a leather merchant in this country, discovered certain secret processes regarding a special kind of leather manufactured there. He would have been looked on with suspicion had it been suspected that he could learn anything of these methods. But during his sojourn he got near enough to certain factories to register, through his sense of smell, some impressions with which he was able to work out the formulas when he returned home.—Ailante Magazine.

You Can Rely on Resinol to Do Its Work Quickly and Perfectly.

Have been troubled with dry Eczema for several months, and have tried many different remedies, but I have gotten more relief and better results with two applications of Resinol Ointment than all other remedies. Will gladly recommend it whenever and wherever I can. A. E. Hatch, D. D. S., Cleveland, Ohio. Resinol Ointment is for sale at all drug stores.

He Might Have Earned a Vote.

Little Johnnie stood gazing solemnly on the decrepit form of an old countryman. Noticing the boy's attention the old man asked: "Well, what is it, son?"

"Sny," the inquisitive youngster asked, "did the politicians kiss you when you was a baby?"—Success Magazine.

"SPOHN'S"

Good breeding is benevolence in trifles, or the preference of others to ourselves in the little daily occurrences of life.—Chatham.

Take Garfield Tea to overcome constipation, cleanse system and maintain health.

TRAIN LOAD AFTER TRAIN LOAD OF SETTLERS

ARE GOING TO CENTRAL CANADA.

The question of reciprocal trade relations between the United States and Canada has provoked considerable discussion and interest. Whatever else the discussion may have done, it has brought out the fact that on the Canadian side of the line the agricultural situation is one that forces attention, and it has also brought forth the fact which it is well to face, that on the American side of the border, there is a vastly increasing population to be fed with a somewhat decreasing proportion of food products. This article is intended to point out to those who may wish to become of those who can raise wheat, oats, barley, flax, cattle and hogs at the least cost that the opportunities in Central Canada are what they are seeking. During the past year the official figures show that upwards of 150,000 Americans located in Canada, and the greatest majority of these have settled on farms, and when the time comes, which it will within a few years, they will be ready to help serve their parent country with the food stuffs that its increasing population will require. The immigration for the spring has now set in in great earnest, and train load after train load of a splendid class of settlers leave weekly from Kansas City, Omaha, Chicago, Detroit, St. Paul and other points. Most of these are destined through to points in Manitoba, Saskatchewan and Alberta. The reports that come from the different farming districts there are that the spring is opening up well, and the prospects for a splendid crop this year are very good. In some districts good homesteads are yet available. The price of all farm lands has naturally had an increase, but it is still away below its earning capacity. The Immigration branch of the Dominion Government has just published its 1911 illustrated pamphlet, which may be secured on application to the Department of the Interior, Ottawa, Canada, or any of the agents of the Dominion Government, whose advertisement may appear elsewhere in this paper.

Foretold.

District Attorney J. F. Clarke of New York was talking about the recent kidnaping cases.

"Kidnapers," he said, "are apt to disappear now. They have become too unpopular. Why, a kidnaping is as unpopular as a widower."

"Widows, now, are very attractive, but about a widower there is always something uncanny, something almost clammy—I mean, of course, from the matrimonial point of view."

"I know a widower who is thinking of marrying again. He thought he'd broach the matter delicately the other morning to his little daughter, so he said:

"Ah, my dear, how I did love your mother!"

"But the little girl gave him a suspicious look and snapped: "Say 'do,' not 'did,' papa."

Sure. "What is a co-worker?" "One who helps you work somebody, of course."

Eye Salve in Aseptic Tubes Prevents Infection—Mulle Eye Salve in Tubes for all Eye Ills. No Morphine. Ask Druggists for New Size 25c. Valuable Eye Book in Each Package.

Away with these cemeteries of stone; they are indecent; let me fade into the anonymous grass!

Garfield Tea will win your approval. It is pleasant to take, mild in action and very health-giving. It overcomes constipation.

The better you behave the better you'll get along. Now, try it.

Take Garfield Tea to overcome constipation, cleanse system and maintain health.

A Poor Weak Woman

As she is termed, will endure bravely and patiently agonies which a strong man would give way under. The fact is women are more patient than they ought to be under such troubles. Every woman ought to know that she may obtain the most experienced medical advice free of charge and in absolute confidence and privacy by writing to the World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y. Dr. Pierce has been chief consulting physician of the inviolable Hotel and Surgical Institute, of Buffalo, N. Y., for many years and has had a wider practical experience in the treatment of women's diseases than any other physician in this country. His medicines are world-famous for their astonishing efficacy.

The most perfect remedy ever devised for weak and delicate women is Dr. Pierce's Favorite Prescription. IT MAKES WEAK WOMEN STRONG. SICK WOMEN WELL.

The man who can't see an inch around the corner is always barking his shins.

Take Garfield Tea in the spring to purify the blood and cleanse the system.

The proper time to do a thing is when it should be done.

Before Allowing an Operation

Please Read These Two Letters.

The following letter from Mrs. Orville Rock will prove how unwise it is for women to submit to the dangers of a surgical operation when it may be avoided by taking Lydia E. Pinkham's Vegetable Compound. She was four weeks in the hospital and came home suffering worse than before. Then after all that suffering Lydia E. Pinkham's Vegetable Compound restored her health.

HERE IS HER OWN STATEMENT.

Paw Paw, Mich.—"Two years ago I suffered very severely with a displacement—I could not be on my feet for a long time. My physician treated me for several months without much relief, and at last sent me to Ann Arbor for an operation. I was there four weeks and came home suffering worse than before. My mother advised me to try Lydia E. Pinkham's Vegetable Compound, and I did. To-day I am well and strong and do all my own housework. I owe my health to Lydia E. Pinkham's Vegetable Compound and advise every woman who is afflicted with any female complaint to try it."—Mrs. Orville Rock, R. R. No. 5, Paw Paw, Mich.

"There never was a worse case of woman's ills than mine, and I cannot begin to tell you what I suffered. For over two years I was not able to do anything. I was in bed for a month and the doctor said nothing but an operation would cure me. My father suggested Lydia E. Pinkham's Vegetable Compound; so to please him I took it, and I improved wonderfully, so I am able to travel, ride horseback, take long rides and never feel any ill effects from it. I can only ask other suffering women to give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation."—Mrs. Margaret Meredith, R. F. D. No. 3, Rockport, Ind.

We will pay a handsome reward to any person who will prove to us that these letters are not genuine and truthful—or that either of these women were paid in any way for their testimonials, or that the letters are published without their permission, or that the original letter from each did not come to us entirely unsolicited.

For 50 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

His Future. Knicker—Is he a has been? Becker—No, a going to was.

You are not treating yourself or your family fairly if you don't keep Hamlin's Wizard Oil in the house. It's the best substitute for family doctor and a mighty good friend in case of emergency.

Reducing the waits between the acts will not lighten a heavy play.

Smokers like Lewis' Single Binder cigar for its rich mellow quality.

A pleasant smile and a sweet voice are great helps on life's journey.

FREE SAMPLE CURED OLD PERSON'S BOWEL TROUBLE

One of the most remarkable proofs of the unusual laxative merit contained in Dr. Caldwell's Syrup Pepsin is that it is effective not only in people in the prime of life, but at the extremes of ages. As many letters are received from mothers regarding the cures of children, as from men and women of sixty, seventy and eighty years of age. It must be truly a wonderful laxative. In the cure of constipation and bowel trouble in old people it has no equal. It corrects the constipation, dispels the headache, biliousness, gas, drowsiness after eating, etc. People advancing in years should see to it that their bowels move freely, and if they do not to take Dr. Caldwell's Syrup Pepsin. You can pro-
