Notice is hereby given to all persons, companies and corporations that the undersigned, Lawrence Morrison, is the owner of the middle one-third of Lot 6, Range "B", fronting 65½ feet on Spanish street; part of Lot 5, Range "B", fronting 36½ feet on Spanish street; part of Lots 3 and 4, Range "B", fronting 67 feet on Spanish street; also northwest part of Lot 4, Range "A" fronting 50 feet on Spanish street and north one-half of Lot 3 and 20 feet off south one-half of Lot 3, Range "A", fronting 120 feet on Spanish street, all in the City of Cape Girardeau, County of Cape Girardeau, State of Missouri.

That T. J. Shorb recently entered into a contract with the City of Cape Girardeau, in said county and state, to grade, pave and construct gutters and curbs on said Spanish street from the south side of Independence street to the north side of Morgan Oak street, in said city, according to certain plans and specifications. That by reason of said contract with said city, said contractor entered upon the construction of said work, but he is not building said curbs, gutters and street according to the specifications set forth and required in said contract, in this he has not used under the gutters and curbs the amount of cinders required in said contract and specifications, and that he has changed the rock as called for in the contract.

That in places the street as constructed is not in compliance with the specifications in this that said contractor has used a larger stone in constructing the foundation of said street than required by the specifications for the construction of said street which change injured the durability of said improvement. That said contractor did not use the kind of stone required by said specifications in this, that by the specification said contractor was required to use hard lime stone, and instead thereof said contractor used soft lime stone. That by the specifications said contractor was required to screen the stone used in the construction of said street and free it from all trash and dirt and not use stone above a certain dimension. All of which said contractor failed to do.

For these and many other delinquencies, the undersigned will refuse and resist payment of any tax certificates that may be issued to said contractor by reason of said contract, and all persons, companies and corporations are

warned not to purchase any tax certificate from said T. J. Shorb, or his heirs or assigns, that may be issued by said city under said contract.

## KINDS OF ADVERTISING.

Upon embarking in business the first problem that faces the merchant is how to get customers. He starts out after business. That is advertising. He personally solicits trade or adopts some other means of advertising his business. But one thing is certain, if any business is ever built up it is built up through the medium of advertising. Every business man must admit this, or why not start a business under ground and the proprietor sit down waiting for trade to come to him? A well kept store in a good location, stocked with good goods at reasonable prices is an advertisement. A merchant cannot hide his light under a bushel and be a success. He must advertise.

There are various ways of advertising, and for the sake of convenience and in the order of their importance we give them here:

1st. Personal Advertising—Where the merchant personally solicits business.

2nd. Personal Letter Advertising—Where the merchant writes personal letters to stimulate business.

3rd. Newspaper Advertising—Where through the newspaper the merchant gives business news each week to thousands.

4th. Circular and Other Advertising—Where through circulars, bills, bill boards and all other means of publicity effort is made to influence the trading public.

There is no denying the advantage to a merchant in personally soliciting business, either visiting prospective customers personally or writing them personal letters. These are very effective ways of advertising, and at the same time very expensive ways of advertising. Newspaper advertising is the next best means of advertising, and, price considered, it is by far the best advertising.

## First Typewriter at Balmoral

London, Oct. 16—For the first time in the history of England the typewriter is being used for the Kings private use at Balmoral. His Majesty dictates many of the letters himself, because he likes them to have a personal touch. Queen Mary, however, has her letters to her friends sent out in the handwriting of her private secretary or writes herself, for Queen Mary considers that disrespect is shown to friends by those who act as though they did not care to give the time needed to communicate with them in their own hand. Queen Mary's handwriting, by the way, is both beautiful and legible.
