Far and near sight can be accommodated in the same pair of glasses. But it takes expert examination to determine the selection of the proper lenses. Eye examinations are free here, no matter how much care they involve. So if you require glasses both to read by and to see your friend across the street come and have your eyes examined and thus get the glasses suited to your eye needs.—N. S. BOYS DO LIKE FARMING.

Sixty-one boys, future farmers of the State of Missouri, want to go to the college of agriculture of the University of Missouri. At the last lecture given the boys at Columbia during Farmers' Week, R. S. Beese, assistant in farm management, asked the boys how many of them wanted to return for a course at the University. Every boy reached his hand into the air just as high as possible. "It was the first time that farm advisers brought boys to Columbia," said R. S. Beese, "but so successful was the experiment that we must have the boys with us every year hereafter."
