Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars free.

A Letter from Oregon.

HELIX, Oregon, Oct. 20.

Editor Herald:

We have been in this state about two and a half years and have never taken the opportunity to write to the HERALD, so I will try to give you a few items. I have been a subscriber to the HERALD all its life. It has always been a welcome visitor with us, and is read more carefully since we left old Cape county, for we always like to hear from home. We generally look for the Millerville correspondence first. I like Oregon all right and think it a better place to make money than Missouri, and on the other hand anyone can spend it as fast as he makes it. This is a great wheat country, but raising wheat is somewhat like gambling—when there is a good crop and a good price the people make their stake all at once; but with poor crops and low prices they just about make a living. A man is not counted much of a farmer here if he doesn't run two or three sections of land. It would surprise some people back there to see the amount of money that is paid out here for hands, horses and other expenses on a harvesting outfit. We run our own header this season and headed and stacked our grain for about 50 cents per acre. We paid 7 1/2 cents each for sacks to sack it, and 6 cents per bushel for threshing for men to run a heading outfit, and it takes from twelve to fifteen horses. Some run two headers and a thrasher together and thresh from the headers, while many farmers are buying combine harvesters. They seem to give good satisfaction, and only require about five hands and from 26 to 36 horses to run them. The wheat yield was good this year, some as high as 50 bushels per acre. We made about 30 1/2 bushels per acre on 240 acres. Wheat is selling at 43 cents per bushel now for No. 1. It has been down as low as 39 cents in the last two weeks. If we can get 50 cents per bushel we think we are doing well. Still, some have two or three crops, holding for higher prices.

There is not much fruit raised in this—Umatilla—county. Still, some ranchers have fine orchards of fine assorted fruits, and many more could have fruit if they would put out an orchard. Most of them depend on buying fruit and about everything else they eat. Clothing, groceries, etc., are about the same price as in the east.

There are quite a number of Cape county people who have been here and went back and expressed their opinions about this wild and woolly west, as some call it. There is quite a band of us Cape county folks here yet. In fact, there are many people here from all parts of Missouri. We have people of nearly all nationalities here.

We are having some dry weather and some are not going to seeding until it rains, while others are going right ahead seeding in the dust. People ride in this country and do most all their work. In fact it is a fine lazy man's country. Last spring I saw a 50-horse-power engine pulling fifteen 14-inch plows. They cut about 18 feet at a round and plowed about fifty acres per day. There was about a section of land in the field and they were plowing it all in one land. The same engine is used to run a combine harvester.

We are located on Vansycle canyon, twenty-five miles north of Pendleton, on the Washington and Columbia River railroad, and if any of our old Cape county friends chance to come this way, we would be glad to have them stop and see us.

W. H. DAVIDSON.

Mrs. T. Bridleman, Marshallville, Mich., was troubled with rheumatism for thirteen years and had tried a number of doctors without relief. After two applications of Banner Salve, her hands became better and in a short time she was entirely cured. Beware of substitutes. All dealers.

Don't fail to pay your subscription. We need the money.

Mothers everywhere praise One Minute Cough Cure for the sufferings it has relieved and the lives of their little ones it has saved. Strikes at the root of the trouble and draws out the inflammation. The children's favorite cough cure. H. L. Jones.
