HE SITS UP WHILE UNDERTAKER IS PREPARING HIM FOR BURIAL.

LATTER SEES THE BODY HEAVE

Speaks When Hand Is Plunged into Jug of Cold Water—Able to Convers. with Family in a Short Time.

London.—A Rochdale undertaker met with a startling experience the other day. During the last few days a traveler named James Fegan, 26 years of age, whose parents reside in Christian street, Preston, has been seriously ill with pneumonia at his lodgings in Rochdale. During the whole of Thursday night he was extremely ill, and apparently died at seven o'clock Friday morning.

A brother and sister of Fegan, who had been summoned from Preston, and the inmates of the house assured themselves that the man was dead, and straightway began to make arrangements for the funeral. The blinds were drawn and the doctor was informed that death had taken place. He prepared the customary certificate and arrangements were made about some insurance money.

The undertaker was informed, and three hours after death was supposed to have occurred he proceeded to the lodgings of Fegan. When he reached the room he found the man's head propped up with pillows rather high, and one of the pillows was removed in order to secure a more correct measurement. The undertaker, Albert Heywood, had already taken one measurement, and was proceeding with a second in order to verify the first, when he was startled to see the body slightly heave. At first he thought he must have been mistaken, but after waiting a second or two the body heaved again, and there was a slight twitching of the eyelids, which had been closed by the person who had "laid out" the body.

Mr. Heywood informed the brother, who commenced to shout wildly:

"Oh, I'm Cold," Muttered the Supposed Dead Man.

"Jim! Jim!" and shook Fegan vigorously. In response Fegan slightly moaned. A doctor was sent for, and the sister, who was in an adjoining room, was summoned. As soon as she learned that her brother lived she fainted.

Mr. Heywood then plunged the man's hands into a jug of cold water, and the shock caused him to speak. He muttered: "Oh, I'm cold." He had lain in a cold room three hours, with only a sheet covering his body. By means of brandy Fegan revived so much that in half an hour he was, with assistance, able to sit up in bed. Medical attention was given, and later in the day he had recovered sufficiently to converse freely with his relatives and friends.

**Bees Object to Moving.**  
Woodbury, N. J.—William Rambo, bus driver of this city, had an experience that he long will remember. He was engaged to take a hive of bees from North to South Woodbury, and, thinking they would rather occupy one of his buses than an express wagon, he placed the hive on the front seat. When German street was reached a few of the bees came out to investigate. They didn't like midwinter moving, and called to others to come out. A council of war was held, and then the bees opened for business. Several tackled the horses, others the driver.

In the melee the hive was upset and Rambo came out victor, but he doesn't care to haul any more bees.

## AWFUL GRAVEL ATTACKS

Cured by Doan's Kidney Pills After Years of Suffering.

F. A. Rippey, Depot Ave., Gallatin, Tenn., says: "Fifteen years ago kidney disease attacked me. The pain in my back was so agonizing I finally had to give up work. Then came terrible attacks of gravel with acute pain and passages of blood. In all I passed 25 stones, some as large as a bean. Nine years of this ran me down to a state of continual weakness, and I thought I never would be better until I began using Doan's Kidney Pills. The improvement was rapid, and since using four boxes I am cured and have never had any return of the trouble."

**Comparisons Necessary.**  
"We find repeatedly how imperfectly figures convey to the ordinary mind the magnitude of objects," says the Welt Spiegel, "and how much more readily they are comprehended by comparison." To substantiate the assertion a picture is produced of the cathedral at Cologne, which is 160 meters in height, and next to it is placed a picture of the Zeppelin airship, standing on end, reaching away beyond the middle of the highest section of the steeple, and to within 26 meters of the apex. The picture also shows the Triumphal column at Berlin, 61 meters in height, and next to it the airship Parsifal, 50 meters high, as it stands on end.

The Rev. William Y. Chapman of Newark, N. J., thinks that the uplift movement should be extended to the kitchen girl. good health, with its blessings, must understand, quite clearly, that it involves the question of right living with all the term implies. With proper knowledge of what is best, each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to living aright. Then the use of medicines may be dispensed with to advantage, but under ordinary conditions in many instances a simple, wholesome remedy may be invaluable if taken at the proper time and the California Fig Syrup Co. holds that it is alike important to present the subject truthfully and to supply the one perfect laxative to those desiring it.

# POTASH CORN

requires the best selected seed and the most thorough cultivation; but the real difference between profit and loss on the crop depends on Potash. It makes strong, sturdy stalks and well shaped ears filled out to the very tip, with every kernel sound. Fertilizers high in phosphoric acid, with a little nitrogen, won't do. They need Potash to complete them—15 to 20 lbs. to the hundred. Supplement the manure or clover or fertilizer with 50 lbs. of Muriate of Potash per acre.
