One man cannot do all the boosting for a town. Neither can a newspaper do it all alone. Nothing gives the management of this paper more pleasure than to spread good news about Pemiscot county and Hayti, our home town. But a newspaper needs help, the combined help of the citizens. If you know something you would like to have go to the public, something that would advertise our wonderful resources, let us have it. And don't be lazy; write it up yourself, for we very often forget matter intended for news when told in a casual way. This county has resources the world knows little of at present. We need capital and must make a bid for it if we get it. There's no use letting the other counties get the cream of the ceaseless stream stream of emigrants now pouring into the state.

Bury the croaker out in the woods in a beautiful hole in the ground, where the woodpecker pecks and the bumble bee hums and the straddle bug straddles around. He is no good to the city push; too impractical, stingy and dead, but he wants the whole earth and all its crust, the stars that shine overhead. Then hustle him off to the bumble bee's roost and bury him deep in the ground; he's of no use here, get him out of the way, and make room for the man that's sound.—Ex.

To look about over town and see the amount of building and improvement that has been carried on in Hayti the past year, ought to convince any one that the future of our town is good. Hayti has a good location, and there is no reason why it should not become a live business center. But we must not expect too much right at this time, in a business way, as conditions in Pemiscot county are unsettled and must come to a balance. Hayti will surely get back to her old self before many months.

It is now time to plant grass on the public square. To do well the seed should be sown sufficiently early that grass can get a good start and root well before freezing weather. In this way the grass will have a good start by spring and can establish itself before the hot, dry weather of summer sets in. Spring-planted grass does not do so well, as it has less chance to cope with the weeds, and does not stand the mid-summer. Let's look after this.

Your home newspaper is a thing you should not desert. There is nothing that does more good for the town than its newspaper. Stick to your paper and it will stick to you. We are friendly to you and always ready to speak a good word or do a good turn, if you will only show your appreciation for our efforts. We know our friends only as they prove themselves, and those who prove themselves come first in our consideration.

Some people really intend to give us certain items of news, but neglect to do so, and then sometimes censure us because we did not publish it anyway. Now, the best way is to tell us the news while it is on your mind—before you forget it. We want all the news and appreciate the efforts of our friends to help us. Don't be backward.

Watch for the X cross mark on your paper. It means that your subscription is out and you are requested to renew at once, before we stop the paper. Be prompt.

Have you noticed the large number of grips and satchels that are being carried now-a-days? We notice lately that the regular Parma visitors all carry a satchel since the law prohibiting taking "packages" on the cars, has been in effect, and some of the old "timers" carry their's in a suit case—it holds more.—Parma Victor.

When you hear a man sneering at the local papers, you can safely bet he don't spend his time making them better. They who see not a benefit arising to a town from its newspaper haven't as much sense as a cove oyster, and are about as much value to a town as a ten-year delinquent.—Ex.

The other day Jack Averill and Henry Dortch started out for an all-day hunt. They made the start at an early hour, carrying breakfast and dinner with them. When about ten miles out and going at a 2:40-gait Averill's politics began to bear heavy and he asked Dortch to carry his grub. Of course Averill was not acquainted with Dortch's politics. After they had walked a mile or two further, Jack gave chase to a three legged, bob-tail squirrel. This is where he lost sight of Henry. Jack looked pretty lean when he came in that night, and Hensays the next time he swipes a fellow's grub he wants to be sure the beans are black, instead of white.

Cape Girardeau News: A company composed of Southeast Missourians are now endeavoring to organize and secure leases on nearly all land in Pemiscot county for the purpose of prospecting for oil which they fully believe exists in that county. Louis H. Graessle of this city, who owns a farm near Hayti, is in receipt of a letter from parties interested in the move in which they state their desire to secure a lease on his farm of 160 acres. The organization will be capitalized at \$25,000 and 25,000 shares will be distributed throughout the Southeast. Many leases have already been secured and the probabilities are that the organization will be perfected this coming year.

Fredericktown Democrat News: Messers. Geo. W. and Chas. T. Graham last week sold their stock of groceries to J. Jones & Co., of Morehouse. Messers. Graham have, through their courteous treatment and promptness, built up an excellent trade, and will be missed by their patrons. The new firm took charge of the business Monday morning. Ill health of both George and his brother was the main cause of their selling. We are sorry to state that they are thinking of leaving our city, but hope it is for the better. Should they decide to leave, will probably locate in Oklahoma City, Okla.

Sikeston Hornet: All lovers of the rod and line should get a sharp stick after that fellow Jesse Tollerton, the new game and fish warden. He has appointed two deputies in this congressional district—one from Ozark, in Christian county, and the other lives in Taney county, while the east end is not represented and it is the wealthiest and largest in point of population. We are entitled to protection over here, Jesse, old boy, and you must get busy.
