Well, now is the beginning of a new year, and what has the "Great I Am" Allen done since he has been elected mayor of our thriving and progressive city? Has he not blocked the wheels of progress? Has even one concrete crossing been put in, one sidewalk been built by the city, or anything else done but to sit like a knot on a log at the beard of aldermen meetings and draw his pay? Ask yourself and look about over town and see that we tell the truth—where is all the wonderful things he was going to do?

We learned Monday that the telephone recently installed in our school has been removed, on account of the district failing to pay for same. We understand the majority of the school board are in favor of the telephone, as they should be, but, some how or other, some one failed to issue the warrant to pay for same. This is a backward step, and one that should be keenly regretted by every progressive citizen. Our school should be our pride, and, considering that 400 pupils are enrolled there, and that for the small expense of a telephone they could be in immediate touch with their parents in case of necessity, to say nothing of other contingencies that might arise, the removal of the telephone is a shame on our district.
