MAYES FOR SENATE

We take pleasure in announcing in this issue of the Herald the candidacy of Hon. Von Mayes, now Representative of Pemiscot county, for the Democratic nomination at the August primary for State Senator from this (23rd) Senatorial district, composed of Pemiscot, New Madrid, Mississippi, Stoddard and Scott counties. We wish to say that we can gladly recommend Mr. Mayes to the voters of this district as being an upright citizen, a brilliant lawyer of this county, and one who possesses a legion of friends, and so far as we have ever heard, no enemies. The people of this community have known him for years, and knowing him as we do, we are for him to a man. We know him to be scrupulously honest, fair minded and well informed. His standing as a lawyer and citizen commends him to the confidence of people. He was reared in Southeast Missouri, and knows the needs and wants of the people of this section of the state. As a member of the last General Assembly he

made a record that assures us if sent to the Senate he will serve us to our advantage. He was the author of the law which carved a new Judicial Circuit out of Pemiscot and New Madrid counties, a law that has been long needed and which has resulted in a saving to the tax-payers of a great amount of money which otherwise would have been paid out for court costs. While in the legislature Mr. Mayes did something for his constituency. He was always at his post, and worked hard and accomplished what he undertook. These are matters that entitle him to seek the nomination he does. We are for him not only because we know him to be a gentleman and a scholar, but because his services will be of value to the state. He is an active Democrat, having always spent his time and money in fighting for his party. We will be glad to see the voters of this district rally to his standard.

Our lawyers and some of the Hayti citizens have been attending circuit court in Caruthersville this week.

SCHOOL NOTES.

The third quarterly examinations were held last Thursday and Friday.

The agriculture classes set the incubator Tuesday noon. Rhode Island Red eggs were used for the experiment. Mrs. Ben Thomas of Concord furnished the eggs.

An inquiry was received this week from the German State Bank of Springfield, Mo., concerning our School Savings Bank, stating that they were trying to interest the Board of Education of Springfield in the move. The bank asked for our plans, and also suggestions which might help to induce the Board of Education of Springfield to try out the plan.

The Seniors will give their play about a week before the close of school. They have selected a very strong comedy-drama, and with ample time for learning the parts, we feel certain that this will be one of the best of the year.

The boys and girls who compose the agriculture classes will begin work in the school garden this week. Mere theory of agriculture without some practical knowledge of the subject will never be sufficient to make agriculture really worth while in our public schools.

Hayti High School will graduate its first twelfth grade class this year. The graduating exercises will include the baccalaureate sermon and graduating address. We are expecting to get the best talent we can afford for these two occasions. More definite announcements will be made later.

We understand our sister city, Caruthersville, is to vote on the free text-book proposition April 4. We have had free text books for two years and find them satisfactory. Our pro rata of the foreign insurance tax has more than paid for all the books we have used.

We Welcome Him.

Dr. W. A. Swearingen of St. Louis, formerly a practicing physician at Steele, was in this city Tuesday looking over the prospects of locating here. The Doctor bears a good reputation and had a good practice while at Steele, but several months ago sold out his business and practice to his nephew, and took up farming, as he is owner of several nice tracts of Pemiscot county land. Since, he has sold some of his land and has spent a few months in St. Louis, Chicago and New York doing post graduate work and further preparing himself. We learn that he is contemplating very strongly of locating in this city for active practice. LATER: Since putting the above in type, Dr. Swearingen has purchased the Arch S. Russell property, and as soon as his household goods arrive will take up permanent residence here. Hayti welcomes this estimable family.
