For ridding corn fields of crab grass, Bermuda grass, Johnson grass, running vines, etc., the John Deere Disk Cultivator is absolutely without an equal. The ordinary shovel cultivators will, to a certain extent, dig up grass roots, but they have a decided tendency to scatter the roots and parts of the plant along the row, and in this way do more harm than good, on account of spreading these undesirable grasses and vines all over the field.

BANK OF HAYTI

This bank is one of the pioneer banks of Pemiscot County. Only one bank in the county is older. For twelve years it has solicited and safely guarded the savings of the people of this community, and by its conservatism and prudent management has held its position as one of the leading financial institutions in this section.

Financial Storms Have Tested its Safety. Prosperous Years Have Tried its Conservatism. Through Every Condition it Has Stood Firm. No Less Carefully Managed in Good Times Than in Panics.
