It is not a donation to the Government, this buying Liberty Bonds, but the safest investment in the world.

If every school child invests twenty five cents a week in Thrift Stamps it will mean \$6,000,000 a week.

If our soldiers can give their lives—we can surely lend our money. Invest in War Savings Stamps.

The general-purpose breeds of poultry are best for the backyard flock. They will supply both eggs and meats. They are usually good sitters and good mothers.

Simplicity in farm machinery is important. Complicated parts cause trouble and are difficult to repair when a machine or implement gets out of order.

BOND INVESTORS INCREASE BECAUSE OF LIBERTY BONDS

Sixteen Millions Expected to Participate in Third Liberty Loan.

More than 15,000,000 persons are expected to subscribe to the Third Liberty Loan. Four million subscribed to the first issue and about 11,000,000 to the second loan.

Sixteen million buttons for subscribers have been ordered by treasury officials for the Third Liberty Loan. The system of honor rolls in each municipality, community or business organization, bearing the names of subscribers, and of honor flags, to be given to each city exceeding its quota, is expected to stimulate the number of subscriptions. This plan will disclose who subscribes and who refuses to buy.

Extensive preparations have been made for advertising the Third Liberty Bond campaign. Requests have been received from hundreds of newspapers publishing Sunday editions for 10,000,000 inserts showing the honor flag in colors, to be distributed April 7. Two hundred foreign-language newspapers have requested supplies of poster supplements.

A special train carrying French war relics, accompanied by Liberty Loan speakers and wounded French soldiers, will travel through the South and Southwest and perhaps elsewhere.

The relics, which include some of the small guns, German helmets and other trophies, and Red Cross exhibits, recently were sent to the United States by the French government to assist in the bond campaign. The train will be sent through the St. Louis, Dallas and Atlantic federal reserve districts, starting April 6.

A LIBERTY LOAN PRAYER

St. Louis Minister Composes Appeal on Eve of His Departure For France.

Less than a week before he sailed for France in the service of the Y. M. C. A., Rev. Elmer T. Clark, Litt. D., former minister of the Shaw Avenue Methodist Episcopal Church, South, and former secretary of the St. Louis Ministerial Alliance, prepared the following prayer for the Third Liberty Loan for use on Liberty Loan Sunday, April 7th:

"Oh God, who dost ever guide the tread of the nation, born to serve mankind with an exalted unselfishness, bless all our people and their representatives in authority.

"In this time of crisis and judgment, inspire us to think, act and serve together in the common cause of a victorious righteousness. Touch our souls with a high sense of patriotic sacrifice. Consecrate our means as well as our men.

"Bless, we beseech Thee, the Third Liberty Loan with the benediction of Thy benignant favor. May no act or word from us impede its sanctified will. And arouse our enthusiasm to see it through to a most successful conclusion. Amen."

BUSINESS CONCERNS TABBED

Credit Men Keep Uncle Sam Posted on Ability to Buy.

Liberty Bond slackers among business houses throughout the nation are being revealed by credit men whose duty it is to analyze the financial statements of firms in all classes of trade.

Preliminary investigations of expert credit men in checking up the financial statements of many concerns in various businesses in all parts of the United States find that the percentage of Liberty Bonds of the first and second issues among their assets was startlingly small.

It has been suggested that banking institutions would be justified in bringing to the attention of their customers, particularly those who are borrowers, the necessity for these patriotic investments being made in reasonable proportions.

Credit men have undertaken to bring to the attention of the public the lukewarmness of many business houses in backing the government in its prosecution of the war. The government is in the war business not only to destroy Prussian autocracy but every vestige of disloyalty and opposition to the battle for world liberty.

It is clear that the people of England are in dire need of food and that the man power of the nation is waning.

A member of the Archbishop's party said the distinguished Britons were surprised and delighted with the enthusiasm of the American people to support the war. He said Americans have come to a realization of what the threat of German domination means to the world, and especially to America. He explained that many persons in Great Britain were slow to realize the necessity for shedding their blood upon the battlefields of France to halt the Hun.

Just while the primary election is fresh and the candidates are beginning to get as thick as bees, some Democrats announcing in a paper that would use his money to fight him with, and a Republican candidate announcing in a paper that would use his money to fight him with, and a Republican candidate announcing in three of the four papers in the county, two of them Democratic. This paper wants to call the attention of the DEMOCRATIC candidates to the fact that the Herald is the ONLY paper in the county not carrying a Republican announcement. There might be more to be said along this exact line, but we place this just now before those that might be interested.

The annual school election was not so interesting as in times past, but this year there were six candidates for school director, two to be elected. It seemed that just about the eleventh hour one of them was brought out for a purpose, but of course he went down in defeat, which should have been.

The city election in Hayti was no doubt the quietest ever pulled off, there being only one candidate in each ward, no opposition in either. A very unusual light vote was cast, the people taking hardly any interest in the election.

Be a Food Controller in your own home and count yourself fortunate that you have food to control.

Buying a Liberty Bond now may save paying tribute to the Kaiser later.

Politics of the Future.
Some day a political genius will announce that he covets the votes of the worst class of people; and the bored and soft-soaped electorate will arise with a mighty shout and elect him to office unanimously.—St. Louis City Journal.

Potash From Dust.
It has been discovered that large quantities of the dust that accumulates in certain portions of the apparatus used in making pig iron from iron ores—that is, in the blast furnaces—contains appreciable quantities of potash. The amount found depends on the kind of ore used in the blast furnace charge.

Height of Clouds Varies.
Thunderstorm clouds are very variable in height—from 500 to 2,000 feet. The clouds in thunderstorms may be very deep—from two to five miles and more—hence the appearance as to distance is very deceptive. Cumulus clouds are intermediate, and generally occupy a position from 2,000 to 5,000 feet above the earth.

AMERICA WILL SETTLE PRESENT WORLD'S WAR

Liberty Loan Bond in American Hands is Most Effective Weapon.

Before the United States entered the war the conflict may have been one for Europeans to settle, with the future of the world depending upon the results. But since America declared war it has become distinctly our war.

It no longer is England's war, or France's war, but America's war—the war of all the nations associated to defeat German autocracy, which seeks to dominate and enslave the world.

The best way to support the war is to buy a Liberty Bond while the brave boys are at the front fighting for you and for your home and for everything sacred.

About Sulphur.
Sulphur is one of the oldest known elements; the ancient Assyrian alchemists regarded it as the principle of combustion and termed it "brimstone," meaning literally burning stone.

Daddy Broke His Face.
John was always an interested spectator when his father shaved. One morning the razor slipped and the skin was cut a trifle, and John turned and said regretfully to his mother, "Oh, see, daddy did break his nice face."

Earning and Spending.
Earning money keeps some men from their wives. Spending money drives some women farther away from their husbands. The proper way is for husband and wife to earn together and spend together.

Wanted Company.
Professor (in chem. lab.)—"This is a very explosive substance and it might blow us all sky-high. Come closer, gentlemen, so you may be better able to follow me."

Drones in the Hive.
"It is civilization which has given us the woman who toils not, who lives for pleasure, who takes from life gifts for which she makes no return."—Exchange

A Great Victory.
"Self-mastery is gained by little victories at a time, and every new victory gives us fresh strength for greater victories in the future."—Exchange

Courage and Happiness.
Duties and burdens often fall heavily upon young shoulders. But courage and happiness in their best forms, come through bearing burdens bravely.

Apt With Her Excuse.
Emily, preferring the doll her grandmother had given her to the one her mother gave her, tucked the rejected doll out of sight in a broken doll crib. Her mother asked her why she didn't play with the doll she had given her. Emily looked at her mother a moment in silence, seeming to fear hurting her mother's feelings, then gave a quick look at the crib and said, "Sh-sh! She's sick."

Famous Tree Destroyed.
"Byron's tree," in Harrow parish churchyard, has been destroyed by fire, wantonly caused by a visitor. This is the elm made famous by the poet, who in a letter from Italy in 1822 stated that he used to sit for hours under a large tree in the churchyard. He also wrote some well-known "Lines written beneath an elm in the churchyard of Harrow."

If—
If I only had the money! Money, money, how hateful you are,—but oh, how I need to have you!—Elizabeth Hasnanzovitz, in the Atlantic.

Good Printing

THE kind of printing that pays dividends is the kind you should have. Pale, muddy, poorly arranged printed matter is worse than none. The quality of your business is often judged by the quality of your stationery—inferior printing gives an impression of cheapness that is hard to overcome, while good printing carries with it a desirable suggestion of quality.

We produce only Quality Printing. Whether you want an inexpensive handbill or a letterhead in colors, if you order it from us you will be sure of getting good work. We have the equipment and the "know how" that enables us to get out really good printing—printing that impresses people with the good taste of its users. That is the only kind of printing that

Why Men Stagnate.
Most men, through set habits and lack of the practice called adaptability, agility, skill, and quick perceptions, are like flies and mosquitoes. That is to say, they seldom go more than a few hundred yards from their homes or occupations. They do not cast off the anchors of their lifelong and hereditary anchorage. The inequalities are in them, not in the opportunities.
