NO. 11

MUSICAL REVUE MONDAY NIGHT

Homefolks and Visitors Put On Big Town Stuff—Reception at Home of Dr. and Mrs. Johnson.

Monday evening, January 17th, the High School Auditorium in this city was the scene of one of the most (and we might say, THE most) successful and appreciated musicals ever staged in any small town in this section of the country.

As has been stated from time to time in this publication, these entertainments are the result of three young men of this city, who promised to raise \$1000.00 for the benefit of the new Baptist church now being constructed in this city, and in every instance they, nor those who so kindly assist them, are not members of this church, so therefore, their efforts are not a religious fervor, but of civic pride.

The first number on the program was "Hold Me," by the entire company, with Mrs. Otto Kassel and Billy Nethery at the piano. This number was a hot one and prepared the expectant audience for what was to follow.

Number two on the program was extra good, being rendered by Mr. and Mrs. Kassel, who are the guests of Mr. and Mrs. Bill Finch. Mr. and Mrs. Kassel are well known to the music lovers of this city and they truly deserved the evident appreciation of their hearers.

Mrs. Norwine of Flat River, Mo., who is visiting her parents, Rev. and Mrs. L. D. Nichols, rendered two beautiful solos: (a) "Come Where the Blue Bells Ring," by Holmes; (b) "Pickin' Lullaby," by Carrie Jacobs Bond. Mrs. Norwine certainly honored our good people when she consented to sing for them. She possesses one of the most musical voices and her rendition of the selections were entirely without strain or effort, showing her perfect voice mastery and training.

The next number was a musical selection by the Kassels. This was extra good and in keeping with the preceding selections.

One of the most unique numbers was that by Mrs. Kassel, with the cornet, her husband furnishing the wind with a pump and she doing the fingering.

Then came Bill McCumber in a vaudeville stunt. Bill has the goods, and when he puts one over she hits on all four.

Miss Bess Bay of Caruthersville gave a very delightful reading. Miss Bay's talent is surely reading, for study alone could not accomplish the pleasing manner in which she entertains her hearers. By special request she gave "Red Head."

A duet by Mrs. Brasher and Lamar Thompson, "Tell Me Little Gypsy," was given in a most pleasing way and was truly a number "just 15 minutes from Broadway."

Mrs. B. L. Guffy, at the piano, assisted L. J. Banner in a violin solo. Mrs. Guffy, as a highly trained musician, is too well known for us to add much here, let it suffice to say that her rendition of any composition would make the composer proud of his handiwork. Mr. Banner is an old-school violinist employing none of the freak methods of technique and his selections are always heartily received.

A specialty in a cornet and clarinet duet by Messrs. Kassel and McCumber was a decided hit. These two instruments are rarely used in combinations and was something of a novelty.

"Feather Your Nest," was a well received musical selection by Messrs. Banner, Thompson, Nethery and Dorris.

One of the most enjoyed numbers was that by Dr. J. V. Moore, banjo, and Bill Sutton, guitar. This called for three encores.

Mrs. R. N. Brasher pleasingly sang a beautiful selection. Mrs. Brasher never fails to please her hearers.

Messrs. Banner, Thompson and Nethery personally wish to tender their sincere thanks and appreciation to each and every member of the cast for their cooperation and assistance in presenting these musicals, as the same could not have been successful without their aid.

Immediately after the entertainment, the musicians and their escorts repaired to the beautiful home of

CAMPBELL-THOMAS

Mr. A. P. (Lonnie) Campbell and Miss Allie M. Thomas, two well-known young people of our city, were united in marriage Saturday evening at the home of Mrs. A. C. LaForge, on West Seventh Street, the residence of the Rev. Harry V. McCulloch, who officiated at the ceremony. The wedding was a quiet one, only a few relatives and close friends of the contracting parties witnessing it.

The groom is at present and has been for some time, employed at his trade as plumber with the City Plumbing Company, and he is a steady, reliable young man, industrious and enjoying the friendship and esteem of all who know him. His bride is a daughter of Mr. and Mrs. Ben Thomas living at Sixth and Laurant in the west part of the city, and has for several months past been employed as stenographer and bookkeeper at the Caruthersville Plumbing & Auto Repair Company. She is a handsome, refined young lady, possessing many of the qualifications, no doubt, which will fit her for her future role of helpmate and homemaker.

We predict for this worthy pair a life of happiness together and take pleasure in extending congratulations, in common with their many friends. They will make their home for the present with the groom's mother on the east side of the city.—Caruthersville Democrat.

The bride has many friends and former schoolmates in this city, who join in extending to her sincere congratulations for a profitable journey.

Dr. and Mrs. J. W. Johnson, where they were royally entertained with a reception. Music was enjoyed and delicious refreshments were served. Those who were fortunate guests of this hospitable home are loud in their praise of the endeavors of Dr. and Mrs. Johnson in showing that their latch string always hung on the outside of the door.

WILL ENFORCE QUARANTINE TO LETTER

Last Monday afternoon the city Council, Board of Education and Board of Health met in joint session to discuss the question of small pox quarantine.

There seems to be much dissatisfaction over the city because of the fact the quarantine laws have not been enforced more strictly, it being argued if this had been done two weeks ago possibly ten or twelve cases would have been averted. Many point out that inmates of homes having smallpox leave the house at will and mix with the people in general.

At this meeting a motion was made at first to close all places of public gathering and after some discussion the member withdrew his motion and it was agreed that the picture show could continue until such time as the Board of Health should deem it necessary to close, the same ruling to apply to churches, ice cream parlors and other public gatherings. In this instance it would have closed the public schools. To avoid this the Board of Education ruled that all children to attend must be immediately vaccinated or show a certificate of such.

And likewise George Dorris, who operates the Empress Theatre, took it as a personal precaution and for the benefit of his patrons to discontinue all shows for a few nights or until the situation clears.

The City Council also ruled to further extend on the quarantine that: "heads of families be permitted to go about their duties provided they have been from home at least two hours and will remain from home until the quarantine is lifted; and provided the said head of family has had the smallpox or been vaccinated; further if said head of family has been in said home he shall take usual precaution against spread of the disease."

Never-Fall oil can do not pour, they pump. Buckley's.

TRAINS 801 AND 802 ROUTED OVER MAIN LINE

Washington, D. C. Jan. 17.—An order of the Missouri Public Utilities Commission requiring the St. Louis & San Francisco Railway to divert two interstate passenger trains daily from its main line to Caruthersville, Mo., was held invalid today by the Supreme Court. The case came up on an appeal by the railway from decisions of the Missouri State Supreme Court approving the order.

The Frisco originally stopped at Caruthersville before building thru to Memphis. When the line was extended to Memphis the railroad moved the main line 7 miles west of Caruthersville and gave that town one train a day from the main line. The citizens of Caruthersville petitioned the Public Utilities Commission for another train, which was ordered by the commission, the order being upheld by the Missouri Supreme Court.—St. Louis Post Dispatch.

This has been a long, drawn out fight between Caruthersville and the Frisco through lower and upper courts—the Frisco won.

This is indeed a severe blow to our neighboring city, but like our esteemed contemporary, the Democrat, we believe the best method would be to take up the matter in a friendly and honest-to-goodness manner with Frisco officials. Caruthersville is a good town and we would judge its business in travel would be such as to justify good train service.

Be that as it may, we welcome our friends to this city, where all trains for any direction may be had.

Those of the local depot force, when telephoned by the Herald for information along this line could give no valuable data, saying the date of the new schedule was not known.

—FOR SALE—A good, 3-horsepower Fairbanks-Morse kerosene engine, in good condition. Will sell for cash or good note; price \$50. Apply to Herald office.

MARTIN-WAGSTER

A quiet but very pretty wedding ceremony with Eddie B. Martin and Miss Erma Wagster as the contracting parties, was held at Blytheville, Ark., on Tuesday evening, January 11th, at p. m., at the home of Mr. and Mrs. W. O. Morris, close friends of the groom. The ceremony was performed by Rev. Pruett, pastor of the Blytheville Methodist Church.

The news comes no doubt as quite a surprise to all friends as well as relatives to both parties, not even the closest friends of either party knowing of their plans, the groom going to Blytheville on the morning train, where he was met by the bride who arrived just a few moments before the ceremony.

The bride is the pretty and charming daughter of Sam Wagster of Cooter, having a host of friends in that little city and loved by all who know her.

The groom, who is the oldest son of Mrs. Clara Adams of this city, and is a very popular young man, with sterling qualities which promise a bright future for both parties.

Immediately after the ceremony the bridal couple journeyed to this city, spending the night at the home of the groom's mother here, and returned home Wednesday.

They will make their future home at Lepanto, Ark., where Mr. Martin who is known among his friends as Eddie, holds a good position with the Majestic Theatre at that place. We are informed they will visit relatives and friends here in the early part of spring.

The Herald joins their number of friends over the county in wishing them the best in life and that their lives may be crowned with pleasures and prosperity.

George Cameron is very ill this week.

NAMES DELEGATES TO STATE C. C. MEET

Gov. Arthur M. Hyde Names Men From Every County in State to Attend Federation of C. C.

Jefferson City, Jan. 19.—Good roads boosters in rural Missouri were advised today that Gov. Arthur M. Hyde had named delegates from every county in the State to attend the State-Wide convention of the Federation of Missouri Commercial Clubs which will be held in Jefferson City, on January 26th and 27th.

This meeting will afford the folks out in the State an opportunity to have a voice in determining the future road program of Missouri.

The legislature in order to keep faith with the taxpayers in connection with the \$60,000,000 road fund, needs the advice and active support of rural Missouri.

The cities are making an organized drive to control the road program, and they will succeed if the rural districts pursue a policy of watchful waiting.

Members of the Legislature admit that unless the road question is settled to the satisfaction of the folks out in the state, it will be impossible to carry another bond issue of any kind.

Everyone at the state capitol is looking forward to the state-wide meeting, with the hope that all sections of the State will be represented by able men and women, interested in State development.

All delegates will be given a hearing and on opportunity to interchange ideas on the road question, a road program on which the folks

This should result in working out in the state can unite and put thru when the road question is taken up by the Legislature.

INSURANCE AGAINST SMALLPOX

What is smallpox? It is a loathsome, dangerous, contagious disease—often mild, but frequently fatal. It is spread from person to person and is very catching. It usually leaves a person "pock-marked" for life.

What is vaccination? It is a method of protecting against smallpox which consists in the introduction of vaccine virus into the skin, causing what is known as vaccinia. This vaccine is prepared under special precautions and sold under Government license.

A small papule or pimple appears in three or four days, the skin around it becomes red, slightly swollen and tender. In 10 to 12 days the swelling goes away, a scab forms, and soon drops off. There may be a slight headache and fever.

Is vaccination dangerous?—No. When properly cared for no more dangerous than any pin scratch on the skin. Within the last two years over 3,000,000 persons have been vaccinated in this country without a single death.

What does it do?—It protects you against smallpox. Even when, after years, the protection has lessened, smallpox is still much less fatal than in unvaccinated persons.

Proper time to vaccinate.—During the first year of life, and again at the age of about 10 years. After two successful vaccinations protection usually lasts a lifetime. If you are exposed to smallpox, get vaccinated at once, unless you have had the disease or been vaccinated within the past five years.

Why you should be vaccinated.—Because it protects you against smallpox. If you "catch" smallpox it means "quarantine" for three or four weeks (that is if you have officers who do their duty) and loss of wages.

It is a duty you owe yourself, your family, and your country. If anyone were vaccinated there would be no more smallpox.

If you have not been vaccinated within the past five years, get vaccinated at once. Have every member of your family vaccinated.

The Edison Policy

The prices of the New Edison, "The Phonograph With a Soul," have increased less than 15 per cent since 1914. A large share of this increase is War Tax.

Edison sacrificed millions of dollars in profits, which he might have made. Why and how he did this are explained in the circular, "What Did Edison Do During the War?" Call, or write, for a copy of this interesting circular.

Should the Government increase the Excise Tax on Phonographs, it will be necessary to increase the price of the New Edison. We hope that no additional tax will be placed upon music, which Napoleon said "is the art to which legislators ought to give the greatest encouragement."

Even without an additional Tax, the Edison Manufacturing Laboratories would have had to increase their selling prices, if they had not been able to maintain a full time operation in their Phonograph Works. Accordingly, they worked full force, until the close of the year, and are now shut down temporarily, while Edison dealers, such as ourselves, are preparing their orders for 1921.

There will be no increase in Edison prices, if it can be avoided. On the other hand, we guarantee that the selling prices of the New Edison in 1921, will not be reduced.

The manufacture of Edison Re-Creations is being increased and a special department is being installed for the rapid manufacture of timely selections.

Ask your banker about the Edison policy, whereby you are able to buy a before-the-war value with an after-the-war dollar.
