BRADFIELD REGULATOR CO., ATLANTA, GA.

Hop Plasters

Give Pain Instantly. A New Pain Remedy. Hop Plasters are a new and powerful remedy for all kinds of pain, including rheumatism, neuralgia, and headache.

RURAL LIFE IN CUBA.

A Visit to the Great Sugar Plantations Near Marianao.

Gallant Railroad Officials-Courteous Country People and Sweet Voiced Children.

HAVANA, June 10.—Strictly speaking, Cuba ought to be green, but as a matter of fact it is not. It is a dull, rusty brown, and gives the approaching voyager an impression of barren sterility...

A CUBAN CONVEYANCE.

Up out of the water, crowded by bald knolls and naked peaks of a brownish green hue, and a clump of palms or a lonely Ceiba flapping its scant leaves against the sky...

THE STALEY PALM.

The palm is the most beautiful tree in Cuba. One cannot look on the tall, stately plant, crowned with its clump of plumed leaves, without vividly recalling Syria and the Nile.

A CUBAN TRAIN.

The cars which carry the passenger over the intervening line of railroad are of old American make (neither Spain nor Cuba produces mechanics), and are exceedingly well adapted to the climate, being light, airy structures, with comfortable, wide cane seats.

DAMS IN PLENTY.

Over a Dozen Great Reservoirs Overhanging Towns in Peninsular Cuba. Altoona, Pa., being a mountain city, says the New York World, naturally looks for its water supply at the highest level.

AN ELEGANT TURNOUT.

The sugar plantation of the Island is altogether a colossal affair. The bare machinery often costs from \$250,000 to \$500,000. Leaving the train at a station called Marianao, one is driven several miles over a road composed of a succession of ruts, qualified to overturn any vehicle that has been selected, inasmuch as there is nothing about it to overturn or come apart.

Famous Destructive Fires.

New York, December, 1885.—Over five hundred buildings and \$30,000,000 worth of property destroyed; Sept. 6, 1888—\$10,000,000 worth of property destroyed; Pittsburg, April 10, 1845—One thousand buildings burned; loss, \$6,000,000; St. Louis, May 4, 1861—A large portion of the city burned; loss, \$11,000,000.

COUNTRY SCENES.

We flew along at such a lively rate that we saw only a passing glimpse of the scenes through which we were rapidly whirled. We occasionally caught sight of a solitary palm, with a background of a ragged cactus hedge, a lean, lanky pig, a tumble-down outhouse, and a squallid, poorly clad woman, dirty, lazy, idle, lounging on the broken doorsteps, or sleeping on the bare ground.

THE LINCOLN CLUB.

Brother Gardner Has No Desire to be President.

"I hold back in my hand," said Brother Gardner at the meeting opened in due form, "a letter from the office of the Mayor of Cincinnati, asking me if I will be a candidate for President in 1892, an' addin' dat I am called by six million cull'd people. De secretary of dis lodge will write me a letter in disign my name below, an' direct it to de anxious inquirer. Dat word exactly expresses my feelings."

THE SUGAR PLANTATION.

One's first view of the sugar plantation once beyond the lodge consists of nothing but fields of thousands of acres of waving sugar cane. These tall white chimneys loom up in the distance, and finally the "batey" or square, in which stand the buildings, machinery and residences.

The first person we meet is a good-looking young fellow with a profusion of reddish brown hair and very bright blue eyes, who greets us to our surprise in English, and whom we learn is the head engineer, and, as usual, an American. We are delighted. So is he. At least he says he is, which amounts to the same thing, and we proceed to work over the works, explaining everything as he goes.

THE WORKMEN'S QUARTERS.

Then we are escorted over the negro quarters, which are practically the same as they were before the blacks were liberated. They are well-built, stone-floored structures, enclosed by iron gates, which are closed and locked at a certain hour. The laborers are often chained to their quarters in the days of bondage. I am of the opinion that a great many of them do not know that they are free, or what being free actually is.

ON A SUGAR PLANTATION.

The isolated wilds, among a semi-barbaric people, who did not speak his tongue. But he told us he had become accustomed to the machine, and he was attached to it. Besides it was often broken in upon by bands of desperadoes, who made it lively enough for all concerned.

THE REQUISITES.

A letter from the secretary of the No. 13 Club, located at Terre Haute, Ind., stated that he had been authorized to ask the Lime-Kilo to affiliate, and asked what was required of a candidate for membership in the club.

NOT AS YET.

A communication was received from Bowling Green, Ky., asking if any more had yet been in connection with the recent attempt to despoil Paradise Hall, and adding that a suspicious character was in limbo there who was believed to be one of the vandals.

THE REQUISITES.

I saw two women jugglers at Jaypore. They were bright, intelligent-looking girls, one of whom appeared almost old enough to be the mother of the other.

WHEN BABY WAS SICK.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became a Man, she clung to Castoria. When she had Children, she gave them Castoria.

WHEN BABY WAS SICK.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became a Man, she clung to Castoria. When she had Children, she gave them Castoria.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became a Man, she clung to Castoria. When she had Children, she gave them Castoria.

A SUCCESSFUL MERCHANT.

The Fencer's Story.

Foxes are very cunning, they say. Here is a story that proves it. In the spring of 1888 a pair of red foxes took up their home on a Dakota farm. They dug several holes on a knoll in a wheat field, and soon after four "kitts," or young foxes, arrived.

ROBERT WEISS TANNILL.

Mr. Tannill, the founder of the house of R. W. Tannill & Co., is still a young man, although he has been in active business for over a quarter of a century, and is now numbered among those successful and prosperous business men of Chicago who have acquired wealth and independence through their own talents and exertions.

"I say to you, my friends, de must befool man in de kentry an' de man who wants office. He's everybody's enemy. De man who gets a political call has made a mistake. He takes for de voice of de nashun an' simply de voice of de fool-kil. Pit or unit, I want no office, nor will I accept of any nomination. If dis yer Lime-Kilo Club kin lead de kentry on to fame and glory dat's honor 'nuff for any of us. I say yer an' now to de people an' large dat it will be useless to waste any postage on me, an' de man who soft soups me agin has got to do it while I skip out on my best week."

AN ALARMING REPORT.

Samuel Shin called for the quarterly report of the committee on agriculture, which he alleged had been due for some time, but which he understood was of unusual importance. The president asked the chairman to submit it if ready, and the same was submitted as follows:
