[It is the best we ever used—Ed.]

—The meeting of the Teachers' Association of Bollinger County last Saturday was a very successful one. It was decided to take up the regular Institute work at next meeting.

This will be of great advantage to those who intend to apply for certificates next year. The number of teachers enrolled is much smaller than it should be, but the teacher who displays an interest in his profession and neglects no opportunity for improvement is the one who will "get there." The program of work will be announced next week, and a large attendance is expected at the next meeting.

Gravel Hill.
By our Regular Correspondent.

Our school is progressing finely under the management of Albert Lesley.

There has been an immense amount of sickness in this part of the county, principally typhoid fever.

Mr. Henry English and Prof. Robertson, Assistant State Geologist, were here a few days ago looking at the Hon. L. H. Davis' lead mine.

The wheat crops around here do not look very promising, although some of the farmers have been sowing their wheat. They say they are afraid we will have a warm winter, and the wheat will get too high and get too close next spring.

—This paper will not be held in any way responsible for the expressions and utterances of correspondents.

—The Press will likely please your neighbor if you will call his attention to it. Be kind enough to do this early, before he promises to take some other paper.

—A young Mr. Snider and a Mr. Williferd got into a difficulty at a ball at Whitewater Station on Christmas eve, and it seems that during the row Wash Snider interfered on behalf of his son, when Williferd cut Mr. Snider severely on the head, shoulders and sides. At this writing the attending physician (Dr. W. B. Finney) reports the injured man improving.

—I took a look through the great emporium of R. Drum the other day and I NEVER was so surprised to see such a large line of good Mds. in Bollinger Co. His store building is immense—ninety feet long, forty feet wide, full two stories high, divided into several different departments and chock full of goods from bottom to top, and every line complete. You ought to go and see it.

—Marriage license:—Jesse G. Glasamer to Ida M. Cabbage; Noah F. Sitzes to Lucretia Huffman; Chas. King to Leotie Slinkard; A. B. Dolle to Carrie Eisenberg; Elsworth Cox to Martha Randolph; John F. Deck to Mintie Myers; Jas. A. Borders to Emma M. Crites; Samuel A. Smith to Vina Elledge; John Stark to Sarah C. Proffer; James Stewart to Minerva McGee; Daniel R. Seabaugh to Mary E. Sample.

—The Gravel Hill correspondent of the Jackson Cash-Book says that the same strange animal mentioned in this paper as being in the northern part of this county a few weeks ago, or one just like it, "was seen by Chris. Seabaugh last Saturday night near Baker's Mill. He says there is no question but that it is a dangerous looking animal. It is supposed to be a hyena—a regular man eater. The rumor is that some time ago an animal show was going through Wayne county, and a cage of wild animals turned over and this animal escaped."

—The following, says an exchange, is the Cape county form of marriage ceremony: "By the authority vested in me as squire in the state of Mizory, by golden fields of corn and wheat that wave to and fro from the gentle summer breeze, by the great droves of stock that are continually finding their way to the different markets of the world; by the monotonous song of the cat on the back yard fence; and by the pumpkin vine whose clinging tendrils shade the entrance of a summer kitchen; by the whole earth and sea and all that is in them, I pronounce you man and wife, and may the Lord have mercy on our souls."

—Last Tuesday night at about 11:10 Thos. H. Jackson, who lives four miles south of this city was startled by a peculiar light to the west of his house. At first it was thought to be a neighbor's house on fire, but after close examination it was found to be a "solar" object of six or eight times the size of the moon. When discovered it was very near the horizon. Another person of the house, James H. Brown, witnessed the peculiar sight, and the statement of these gentlemen cannot be doubted. They would like to know what it was. —Charleston Enterprise.
