 A rumor had been to existence a few weeks that J. H. Cline, county treasurer, was short in his accounts with the county, and during the first of last week such information

and rumor reached O. L. Manger, prosecuting attorney, whereupon he began an investigation, and after spending three days in investigating the rumor, he filed an information before Squire Carlton, charging Treasurer Cline with having misappropriated \$1500 of the county funds thereby causing his arrest. He was bound over in the sum of \$2500 until to-morrow (Friday) when an investigation will be had.
 Treasurer Cline says there is nothing in the charge and that the matter will come out all right. He has forwarded his resignation to Gov. Doukey, but up to the time of going to press he had not heard whether it had been accepted or not.
 If you meet a pilgrim brother who is a stranger in the land, and he walks up boldly to you and takes you by the hand—if he grips your fingers gently and increasing pressure brings, and a slight downward motion every separate finger wrings them a gentle rising movement, a strange unwonted twist to the muscles of the wrist, if the pressure slowly weakens and he lets your fingers slip—he's a candidate my brother and he's given you the grip.—Ex.

A Lake Cornfield.
 J. E. Johnson in writing to the Mississippi (Ark.) County Herald concluded a long letter with these words:
 "I cannot close this article without referring to my visit to Franklin's Lake farm, in the southern part of Pemisnot county, Mo. I saw there 1,000 acres of corn, which was the blackest green of any large field I ever saw. I was indeed not yet in silk and tassels, above my head on a horse, having been planted only about six weeks, and many of the stalks were as large as my wrist. This corn is on land that stood in water from three inches to seven feet deep in the spring of 1901. I was informed that the soil in this lake (that was) was recently examined for the growing of celery and report is that it will make the finest celery proposition in the United States. Celery land around Kalamazoo, Mich., is worth from \$200 to \$500 per acre. Do not get the idea that all the lands in the St. Francis basin need drainage as fully 80 per cent need none whatever.
It Needs a Tonic.
 There are times when your liver needs a tonic. Don't give purgatives that gripe and weaken. DeWitt's Little Early Risers expel all poison from the system and act as tonic to the liver. W. Scott, 581 Highland ave., Milton, Pa., says: "I have carried DeWitt's Little Early Risers with me for several years and would not be without them." Small and easy to take. Purely vegetable. They never gripe or distress. Dr. S. M. McAnally.

His Sight Threatened.
 "While picnicking last month my 11-year-old boy was poisoned by some weed or plant," says W. H. Dibble, of Sioux City, Ia. "He rubbed the poison off his hands into his eyes and for awhile we were afraid he would lose his sight. Finally a neighbor recommended DeWitt's Witch Hazel Salve. The first application helped him and in a few days he was as well as ever." For skin diseases, cuts, burns, scalds, wounds, insect bites, DeWitt's Witch Hazel Salve is sure cure. Relieves piles at once. Beware of counterfeiters. Dr. S. M. McAnally.
