

THE MARBLE HILL PRESS.

TWENTY FOURTH YEAR.

Marble Hill, Missouri, Thursday, December 8, 1904.

The columns of THE PRESS are always free to the people of the county for the discussion of questions of local interest.

Next Door to Postoffice.

The republican electors recently selected in Missouri are talking of going to Washington in a body in order to signalize their unexpected triumph.

The republicans are always ranting about "honest" elections, and the newspapers are full just now of an attempt by Governor Peabody of Colorado, who was defeated for reelection by over 15,000 votes to hold the office.

ALBERT O. ALLEN, the present state auditor and recently defeated for reelection, will move back to his old home, New Madrid, January 1, and take charge of his newspaper property there, the Record.

Best Varieties of Peaches. Experiments by the Missouri Agricultural College with one hundred kinds of peach trees for five years show that the peach crop in Missouri could be greatly increased by a proper selection of trees.

Southeast News.

Hayti Angus. Thos. O. Snyder of Kennett fell from a platform 12 feet high at McKay's Switch Tuesday night, sustaining a broken neck, causing immediate death.

Fredericktown Democrat-News. Mr. R. M. Seruggs, who died in St. Louis last week, by the terms of his will probated this week, left M. C. L., in this city \$2,500. This legacy comes as a surprise, as Mr. Seruggs, while living had persistently refused to do anything for the school.

Greenville Journal. A certificate of incorporation has been issued to the Thebes Bridge and Western Railroad Company with a capital stock of \$350,000. The road is to be constructed from the Mississippi river in Scott county to the Castor river in Stoddard county, and the length of the road is to be 35 miles and is to traverse Scott, Cape Girardeau and Stoddard counties.

Fredericktown Tribune. That fellow Ratliff, who was in jail here for raising checks, had a preliminary hearing Monday and was bound over to the Circuit court but the sheriff let him have the freedom of the jail lobby and he took leg bail Monday night, and now the sheriff is offering a reward for his recapture. Evidence has come to light of his raising several more checks. He is a bird, he is. Later: The sheriff caught his man again and juggled him Wednesday.

Central railroad engineers are in the field locating a line thru the following counties: Scott, Cape Girardeau, Stoddard, Butler, Ripley, Oregon, Howell, Ozark, Taney, Stone, Barry, McDonald and Newton. This line will tap the coal, mineral, fruit and timber belts of Arkansas and Missouri and will prove one of the most valuable pieces of road ever built by the Illinois Central. Bloomfield should be on the alert.

Fredericktown Tribune. Surveyors have been at work for some weeks on a route from Williamsville to Greenville and from there on to Marquand in this county. The Greenville papers spoke of the matter several times and said it was not known who were doing it but in the face of the fact that the Iron Mountain has for years been figuring how to avoid the heavy grades at Hogan mountain and Gads hill, and the further fact that it has been reported that they had secured the Mississippi River & Bonne Terre road, it is more than probable that they are preparing to get around those heavy grades, which they would do by a line from Williamsville to Marquand, thence up the Belmont branch to Doe Run Junction and to Riverside. D. E. Bollinger informs us that the survey runs thru his place, and also thru M. J. Shetley's and S. M. Ivy's places.

Our Correspondents.

Leopold.

How does this weather strike your woodpile? The farmers are all done gathering corn and now they are slaughtering the timber. M. Vandevan brought in the report that he gathered 1200 bushels of corn this fall. Won't he have "hog and hominy?" Mrs. John Nemminger came down from St. Louis recently to visit relatives and friends here. A. Anger was confined to his bed several days last week. A. Hulshof completed the basement under his house last week. Miss Nora Clippard returned last week after spending several days in St. Louis. Henry Thde's daughter, Miss Mary, had her arm fractured some time ago. She is improving right along. We understand that Leopold is to have a third store in a short

time. John Tenholder is to be the proprietor. He has traded his bottom farm to G. B. Snider for his stock of goods in Luffin and, after the 15th of this month, will move the stock to Leopold. He will occupy Geo. Tenholder's building, recently purchased of Dr. Finney. Mr. Tenholder is a good business man and we wish him success in his venture.

Clubb's Creek.

Having seen nothing in THE PRESS from our creek since the election, I shall offer the following: We were not in the landslide here. The democrats made a gain of ten per cent at this precinct and it really looked to us like the county had gone that way.

Homer Fowler is visiting his brother, Ben, at De Soto this week. Mr. and Mrs. Walter Dellinger are the happy parents of a bouncing big boy. Walt says it will go democratic in twenty-one years. John Pickett is erecting a large frame building on his place, which I am told will be used for a general store and, from its location, I think rumor has it right. We will want a postoffice then, too, John. James Allen is running a dray wagon at the factory. Robert Collins, while hunting last week, accidentally discharged his gun, the contents taking effect in his breast and face. He may be seriously injured. Henry Fowler has improved his premises by making some nice walks about his yard, and the erection of a good woodshed. A. S. Ramsey made a business trip to Cape Girardeau last week. Ed. Dellinger is erecting a new dwelling house. The Greenwood school is running six days a week now to make up lost time. J. W. Null was up to see the fair recently. The professor says he is convinced that he has lived in single blessedness long enough and that he means to try double-cussedness. The factory was shut down Friday and Saturday; being out of holt.

Hiram Shell is doing a good hotel business at the factory. N. Firth and family attended church at Dongola last Sabbath. Our sports are organized and

doing effective work with the "warmins" which they say are very numerous this season.

Lewis Mansker, who had his leg broken by a hay baler recently, I am told, is getting along nicely.

Will Luman thinks democracy will yet win. A 9-pound boy recently called on him.

Getting wood seems to be contortions now. Everybody has a big woodpile, and I fear it presages a very cold winter, as I have noticed the woodpeckers storing their food for the winter and I don't see any young squirrels this fall.

It now looks like I will be able to report a couple of weddings about the holidays.

As yet I have not noticed any of those tanglefoot preparations for Christmas which are sometimes made in our country. This is, no doubt, better for all. Our Press is a welcome visitor to our community, because we always know where THE PRESS stands. That it gives the news and is found everywhere, to be on the truthful and moral side of all questions, has been proven many times.

Geo. X.

W. M. College.

News is scarce this week. The open session, which was to have been held last Friday night, was postponed on account of the weather until Saturday night, although given on short notice it was a decided success. The crowd was fairly large, and good order prevailed throughout. The program was well rendered and the debate was splendid; the decision was given in favor of negative. We hope to have another soon but the date has not been set.

Farm for Sale!

Fifty-five acre fruit and stock farm situated five miles south of Lutesville in Bollinger county, Mo. This farm is well improved; has a good one and a half story frame dwelling, well finished; good log barn and two cisterns. About thirty-five acres cleared and in a good state of cultivation; good fencing. There is not five acres of the fifty-five that can not be cultivated. All lies well and well adapted in character of soil and convenience to market for a successful fruit growing farm.

On account of my long continued ill health, I am not able to give this farm the attention necessary to keep it in good repair and improve it as it should be, so as I intended to do when I bought, so I have decided to sell at a sacrifice—\$500 will buy this farm.

TERMS—Half cash; balance on time to suit purchaser. W. S. KING. For further particulars apply to W. K. CHANDLER, Secretary, Farm and Home Real Estate Co., Marble Hill, Mo.

WINE OF CARDUI

TURKEYS!

We want all your Turkeys from December 7 to 15th. Our prices are CASH and always TOP of the market. We buy Hides, Furs, Geese, Ducks, and anything else you may have in our line.

We buy every day in the year. GOODWIN & JEAN, Lutesville, Mo.

NEW LUMBER YARD.

I have just received a good stock of Flooring, Ceiling, Siding and Shingles, and expect to add to this Stock other Building Material in the near future. Call and see me, adjoining the Bollinger County Undertaking Company's lot.
