TWENTY FIFTH YEAR

Marble Hill, Missouri, Thursday, April 5, 1906.

Vol. 25.

No. 47.

The columns of THE PRESS are always free to the people of the county for the discussion of questions of local interest.

ANNOUNCEMENTS.

are authorized to announce HON. M. E. SMITH, candidate for Congress, from the congressional district, subject to the action of the democratic party.

Poston has sold the White House to G. T. Tennille.

The democrats of Wayne county have their primary election on April 11, the same day we hold ours.

Carry's carried Wayne county in the local option election last year by a majority of 181, according to a special to the Republic.

opinion recently handed down by the Supreme court in relation to the constitutional amendment adopted several years ago gives the courts the power to levy an additional tax for road purposes, will deprive the roads of a part of thousands of dollars that are needed in road improvement.

The court holds that the amendment in which the amendment was made was unconstitutional in the cities of St. Joseph and Kansas City were not permitted to do so.

It is possible that the charges by David Graham Phillips in his articles under "The Lion of the Senate," now running in the Cosmopolitan, are true when this is a government of trusts, by the trusts, and for the trusts, and the tolling masses, who produced the millions that the trusts have appropriated thru special privileges, and are now using as the most powerful weapon to destroy the few safeguards left behind to aid the trusts in appropriating their earnings more rapidly than "not in it" except to toil on and produce wealth and wealth to be appropriated by the vampires. Here is a small sample of the charges in the second volume.

Various senators represent various divisions and subdivisions of the business. But Aldrich, rich in franchise grabbing, the institution Wall street's great robber, the father-in-law of the only Rockefeller—Aldrich represents the colossal. Your first impression of many and conflicting interests has disappeared. You now see a single interest, with a single chief to execute its single purpose—getting rich at the expense of the labor and the independence of the American people. And the most head among the many of this monster is that of Aldrich and his intimate relations of life!

There are many passages in the constitution in which a senate, true to its oath and mindful of the welfare of the people and of the nation, should mandate to stop whole sale bribery and similar practices. Yet, what has the senate, with its high pretenses of reverence for the constitution? It has so legislated as to refrain from legislating more than half of all the wealth of the American people to less than one per cent of the income of the average American family, has sunk to less than six hundred dollars a year, of our more than twenty-seven million children of school age, less than twelve millions go to school, more than two millions work in mines, shops and factories?

Miss Maude Baxter was the guest of Misses Lou and Eva Galway Sunday.

Miss Emma Myers was the guest of Miss Bertha Myers Saturday night.

board and wanted the secretary to summon certain witnesses. Prohibition proceedings against the board followed.

"In the case now before us for judgment, we hold that the state board of health is not a judicial body and that it has the power to revoke a license or certificate issued by it, after investigation, and the licensee is afforded an opportunity to be heard, it is satisfied that he has been guilty of unprofessional or dishonorable conduct, and that in conducting such investigation (or that term be preferred), it is not assuming to exercise a judicial function. Therefore, a writ of prohibition does not lie to prevent the investigation."

"We understand the doctor has been subpoenaed to appear before the state board of health at Kansas City on May 1, at which time we presume his case will be taken up and finally disposed of."

Mrs. W. J. Poston is reported in very poor health. We hope for her speedy recovery.

Yo scribe was in one of the stores at Luffin the other day and overheard the following conversation: one party said it looked as tho it was about time for candidates to come out! Another said he believed that so and so would be nominated by the democrats, naming some of the best men in the county—sound democrats. One of them who pretended to be a democrat, said he wouldn't vote for so and so; that he didn't before, and wouldn't again if so and so was a candidate. To such democrats I would say, the party can never depend on democrats of your kind, for it would be foolish to do so. We must look to democrats for votes and be appreciative of all we get from other sources. And we must look to our best and truest men for leaders; we cannot expect to receive support from those who prefer to work for and vote the republican ticket. It has always been the hope and cry of the republican party workers to "vote for the man." A great many so-called democrats, like those who went vote for Bill or John, but vote for the republican nominee, have greatly reduced the democratic vote in our county and brought on the defeat of our ticket. The fellows who claim to be democrats and vote the republican ticket, should be avoided in the councils of the party. You old veterans of democracy, get behind the young democracy and boost it along; advise, counsel and assist in every possible manner, and you will see the democratic ticket elected next November. L.
