Announcement. We are authorized to announce...

Democratic Central Committee. Members of the Bollinger county...

F. M. WELLS, Chairman. SAM J. McMISS, Sec'y.

TAKE it right off the bat from us, bud, that the republican bosses are not going to let the "common people" in primary election...

NEDRINGHAUS, the man with the treacherous memory, has declared that he is "out of politics."

THE democrats of Cooper—ex-Governor Stephens's native county—passed resolutions strongly recommending him as a delegate at large to the Denver convention.

THE local option election in Illinois last week put thirty-six counties on the water wagon and eleven hundred saloons out of business.

IS common with other papers, perhaps, we have been offered some free plate service by the Johnson for President campaign managers...

THE republican bosses think primary elections are all right—for democrats; but they prefer to say who shall be their candidates...

PRESIDENT ROOSEVELT has made public his letter of April 2 to the attorney general, directing proceedings by injunction to compel certain railroads of the south to furnish equal accommodations to white and negro passengers...

"I would consider it a grave misfortune if any technicality should be found for setting the law aside. It is a good law, which at its passage had the endorsement and approval of representatives of the different political parties...

It develops more and more that the republicans have no debaters able to cope with Williams of Mississippi and Clark of Missouri...

AFTER six attempts to secure recognition last Wednesday Congressman Shackelford of Missouri was finally recognized by Speaker Cannon and moved that the committee

of ways and means, to which was referred the resolution of inquiry into the shortage in the St. Louis subtreasury, several weeks ago, he discharged from further consideration of the matter...

From the Louisville Courier-Journal. Said Mr. Bryan in his Kansas City speech: "President Roosevelt is not a democrat, for he leans toward Hamilton rather than toward Jefferson..."

Precisely so. The democrats who have been applauding the president and hailing him as a democrat have overlooked the most undemocratic and at the same time the most dangerous tendency of his policies...

Mr. Cowherd defended primary. A Kansas City telegram, dated April 12, says: W. S. Cowherd, candidate for the democratic nomination for governor of Missouri...

Mr. Cowherd gave his endorsement to the law as a wise and fair measure intended to protect the interests of all, and expressed a hope that the intentions of its enemies may prove unavailing.

"The measure was adopted at the request of Gov. Folk, and met with the approval of the leading representatives of all political parties, being recognized as a medium for the opportunity of the fair expression of the will of persons of all political faiths."

"I would consider it a grave misfortune if any technicality should be found for setting the law aside. It is a good law, which at its passage had the endorsement and approval of representatives of the different political parties..."

These well meaning, but misguided subagists, are pleading for constitutional amendment which will permit women to vote. To secure submission of such an amendment to the states it must have a two-thirds vote of congress, and this two-thirds vote will not be given for well, not for several days.

Each state has the right to say who shall vote and who shall not vote, and instead of going before congress, where nothing is to be gained, the girls, old and young, who want to get into politics should mass their strength, their beauty, wit and powers of persuasion upon individual states, for the average state legislator is far more susceptible than is the average member of congress.

But the real reason why women have not been given the ballot here is that no great number of the

of ways and means, to which was referred the resolution of inquiry into the shortage in the St. Louis subtreasury, several weeks ago, he discharged from further consideration of the matter...

Several people are expecting to take the masses. Rev. J. J. Page recently preached at Syrian church. Jesse thinks the Farmers' union is a worthy affair, and since he has unlearned his libelous for the house not made with hands he intends to go straight thru.

What right has the government to allow extra pay to widows of deceased co-

You'll Want New Shoes for Easter, Won't You?

Your other togs will look decidedly out of place unless you have a pair of New Spring Oxfords to go with them. Remember, you have only two days more in which to get them, and it would be a good idea to get busy.

Giesecke Oxfords will fill the bill to a nicety. They possess the greatest amount of STYLE, SNAP and SERVICE, and when you see how perfectly we can fit you in one of the New Spring Shapes, you will at once come to the conclusion that it is the Shoe you have been looking for.

grossman any more than the widow of a deceased farmer?

Give 'em up. THE PRESS isn't attempting to "keep cases" on republican misadministration of affairs. They can't spring any surprise on us, though, no matter what they do.

The land banks of Norway and Sweden loan money to their subjects, to build farm homes, at a low rate of interest and plenty of time to pay the principal, but the subjects know how to make the home—by industry and economy. Seems to me we need such banks in this country.

Will some student of literature explain what is alluded to in the story of the seven knights of the seven deadly sins that Gabriel, on one of his missions to the holy grail, fought at the temple of maidens? See Folk Tales of the Twelfth Century. HAYSEIDER.

Shrum. Rev. E. F. Yount preached an interesting sermon to a large and attentive congregation at New Salem church Sunday.

While making pickets recently George Pittman of Grass had the misfortune to cut his head.

Ad Key had the misfortune to lose a fine mule recently.

The dog tax was voted in this district by a "unanimous majority." It would seem that Green Fuz is opposed to dogs, and I frankly admit that too many of them are running at large, but give us our old fox hounds, for without them it would be an impossibility for the farmers to raise stock and poultry, on account of foxes.

The Perkins Creek and Zaima Kid lines played a game of baseball on the 12th, resulting in a score of 11 to 10, in favor of the Zaima Kids.

Since the heavy rains of last week the Zaima truckman has been unable to make regular trips, on account of high water, but our postmaster H. S. Shell brought the mail out last Saturday.

A suspension foot bridge, spanning Perkins creek, near the Union store, will be put up soon. Harry Diehl will furnish the material and the citizens of the vicinity will put it in place.
