## Southeast News.

Ironton Register.

Business on the railroad continues exceedingly quiet. Were it not for the early fruit and vegetable shipments from the south there would scarcely be anything doing.

Cape Herald.

When No. 850, a local freight train that runs from Kennett to Chaffee, pulled into the Chaffee yard Friday night, April 21, it was met head-on by a switch engine. Both engines were badly damaged and fireman Jordan died a few hours later from scalds.

Fredericktown Democrat-News.

James Stanfill, aged about 45 years, a resident of Glen Allen, but who had been working at Marquand, received injuries April 22 that necessitated his being taken to a St. Louis hospital. He fell from the coal chute, breaking his left collar bone, dislocating his left shoulder and fracturing his left leg, besides minor injuries.

Cape Herald.

The old cooper shop on Meriwether street, between Sprigg and Frederick, burned April 22. It was in a mass of flames before the fire was discovered. Several men were working in the shop, but did not know it was on fire until a little boy informed them. The fire company arrived on the scene a few minutes later. The building was owned by Desselman & Matteson.

Fredericktown Democrat-News.

Thursday evening April 20, the handsome residence of A. A. Blumer was consumed by fire. Some of the furniture on the first floor was saved, but all of the contents of the second floor were lost. The fire is supposed to have started from a defective flue and when first discovered could have been stopped with a few buckets of water. There was \$2500 insurance on the house and \$500 on the furniture.

Fredericktown Democrat-News.

Harry Gale has an Odd Fellows pin which he prizes very highly. It is a small, three-link gold pin. The day after the battle of Fredericktown, in 1861, an old darky living with Dick Berryman found the pin on the battle ground and gave it to Mrs. Berryman. Mrs. Berryman gave the pin to her daughter, who is now Mrs. Gale, and as Mr. Gale recently took the degrees in Odd Fellowship he is now wearing it as a present from his wife.

New Madrid Record.

Scott Wallace, the handsome editor of the Libbourn Ledger, was in New Madrid last Wednesday, bragging of his red-complexioned, long-horned, 12-year-old heifer that eat up all the shade trees in that pretty city last Monday night, and is expected—if she breaks loose from where she is chained to a three-foot stump—to finish up the plank sidewalks and front galleries before the week is out. Mr. Wallace is willing to sell the heifer, at a great bargain, to somebody who wants to clear up a farm.

Ironton Register.

A coal car, loaded with iron ore, got out of the switch at Pilot Knob and came buzzing down the road. It went past the Ironton station like it had been shot out of a gun, over the grade east of town, and then made a fast run to Arcadia. It almost reached the station, then stopped and came down the hill toward Ironton again and stopped on the bridge. It is very fortunate that there was no train on the road at the time. One of the pushers pulled the car to Arcadia and out of harm's way.

Caruthersville Democrat.

Bob Ooten, who escaped from the county jail here last week, shot and killed himself April 20 at the residence of Mrs. Rowland Bradford, near Denton. Ooten was 21 years

## Cole's Formal Opening!

We are now ready for business in our new home, the ODD FELLOWS MAGNIFICENT BIG BRICK BUILDING, just completed. Don't let the children miss the fun. Bring them all.

## H. B. COLE, - Lutesville, Mo

**Old and single** April 13 he was arrested and lodged in jail on the charge of carrying a revolver. Not being locked in a cage he cut his way out and fled to Tennessee, but returned to Missouri and went to Mrs. Bradford's. Soon after a posse appeared and when they rapped on the door they heard a shot, and on investigation they found that Ooten had shot himself. Taking his life for so small an offense is a mystery to his friends.

**Bennie Hughey, son of Mr. and Mrs. M. C. Hughey, was accidentally shot and killed while fishing close to Knobles, Ark., a few days ago.** It is not exactly known how the accident occurred, but, according to the statement made by the boy, young Hughey and some other boys were on the trestle just over the water, and the boy, whose name we failed to learn, was below them and shot at a fish, the bullet glancing and striking the boy on the left side, passing thru his lungs and came out on the other side. He died instantly. His remains were brought to Hiram for burial Tuesday.

**Money from Hogs on Forage**

The Missouri Experiment station has just given out the results of an experiment lasting three years that

shows large profits from feeding hogs on forage crops.

The average income per acre from clover forage was \$34.11, from rape and oats, \$23.63, from corn and cowpeas, \$29.08, and from blue grass \$17.71.

The estimates are all made on the basis of 60 cents a bushel for the corn feed and 6 cents a pound for the pork produced. The results are important as indicating what may be accomplished when the hogs themselves do all the harvesting.

This bulletin, which is numbered 95, was written by Dean F. B. Mumford and C. A. Willson, and can be had on request by writing to the director of the experiment station, Columbia, Mo.

**Fattening Cattle on Blue Grass**

Cattle fattened on blue grass will make double the gain on the same grain for the first three months of the pasture season, as compared with the late months of the feeding period. This important factor, as well as the influence of age, nitrogenous supplements and the margin of profit are discussed in Bulletin 90 of the Missouri Experiment station. This bulletin was written by Dean F. B. Mumford and records the results of five years' experiments in fattening

cattle of various ages on blue grass pasture.

This extensive investigation involved the feeding of 262 cattle divided into 36 distinct experiments, and is the largest and most complete investigation of this subject which has ever been made in this country.

The bulletin will be sent on request by writing to the director of the experiment station, Columbia, Missouri.

**Dan C. Crites**

Was born Jan. 1, 1831, died April 23, 1911, aged 80 years, 3 months and 22 days.

Mr. Crites was married to Susanah Grable March 25, 1855. To this union six children were born, five of whom are living to mourn the death of their father.

He was converted in 1855 and united with the M. E. church south at New Salem, Cape Girardeau county. In 1960 he transferred his membership to Trinity church and lived a faithful Christian life.

Besides his children, Mr. Crites is mourned by eighteen grand and twelve great grand children.

In the presence of a large number of friends his funeral at Trinity was conducted by Rev. R. S. Warren.

A good man is gone who will be mourned by many people.

TWO FRIENDS.

**Presbyterian Church Notes**

Our church looks much better since the ladies and their helpers cleaned up for presbytery and it would be too bad to let things get out of order again. If everyone will try to improve the appearance of the church and the grounds every time he comes to the church, things will soon begin to look up, but if he acts as though the church premises is a playground it won't belong until the ladies will need to make another crusade against unsightliness.

Can we not help our Sunday school superintendent make our Sunday school the banner Sunday school of the county? Is not Marble Hill the county town? Are not we the people? Who has said we are not? What's to keep us from becoming so if we are not? Let's throw dust in

the eyes of our neighbors, and let him run back again, he has never been known to run. Some suggestions may prove helpful. Think them over, please.

**Some Things that Should Be Done**

Every one be in his class pew when the superintendent's bell taps at the hour for the opening of the school. This will prevent unnecessary changing of seats after the exercises begin. All bookkeeping papers to be distributed to the general should be distributed by the librarian just before the beginning of the sessions and if books are not next the middle aisle by the pupil as he leaves the church, they are left at the church. Every one stand during the singing and reading of the lesson, rising up and sitting down at the top of the superintendent's bell, while every one should bow the head during prayer and stand for the benediction.

**Things that Should Not Be Done**

Neither books nor papers should be distributed or collections taken during the recitation of the lesson. These things can be done with less confusion either just before or just after the recitation. No one should come to the Sunday school without thorough preparation of the lesson. Anything worth doing is worth doing well. Why make a track of a thing and fool over it? Put one of us to work, and let us try to help the Sunday school in our own county. We want to know what you are doing. Let's see you at the prayer meeting next Thursday evening at 7:30 and again next

**WORMS**

When in health the baby laughs, the child plays, the youth enjoys athletic sports. The contrary indicates some departure from health, and in the case of children, is often caused by worms; a child so afflicted is pale, sickly and peevish. **WHITE'S CREAM VERMIFUGE** is the deadly enemy of worms. It destroys the worms and strengthens the weakened organs. Children who take it speedily recover their normal happy condition.

Price 25c per Bottle.
