It may take one man ninety years to count \$1,000,000, but when a man has that much money he can afford to hire men to count it for him.

A Kansas City girl stole \$5,000 which she gave to the man she loved, and he spent it on another girl who "peached" on the one who did the stealing. It seems useless for a girl to steal \$5,000 for two such people as the fellow and the other girl.

Ruse had been walking the streets with a long knife in his pocket, seeking the man who held him. City Marshal Hart ordered the negro to give up the knife and Ruse shot at him.

At that instant Ed Suddeth ran out of a house across the street and opened fire, instantly killing City Attorney Beavers, and wounding Oliver and Thompson, all of whom were passing at the time and had taken no part in the trouble.

The shelling lasted only a short time and then the troops were landed. The moment they disembarked the Turks made an attack, but were repulsed, and 4,000 Italians were gradually landed on Gulliana beach, although the resistance of the Turks, aided by the Arabs, continued active.

ALDRICH MODIFIES MONETARY PLANS

OUTLINE SUBMITTED TO COMMISSION SPLITS COUNTRY INTO 16 DISTRICTS.

ADDS MAY SAFEGUARDS

National Reserve Feature Retained—Sub-committees to Get People's Views—Aldrich to Explain in Several Speeches.

Washington, D.—Former Senator Nelson W. Aldrich of Rhode Island submitted to the national monetary commission, of which he is chairman, a revision of his plan for monetary legislation. The commission may use it as a basis for its recommendations to congress.

The basic principles of the revised plan are substantially the same as those embodied in Mr. Aldrich's first proposal sent to the commission last January, which he said he expected would serve as a basis for national discussion.

The important phases which were then unsettled and those which have since been evolved are treated in the recommendations now sent to the commission. Most of the questions are re-handled with great detail as a result of discussions and conferences which have been going on since the plan was first suggested.

Briefly the plan still provides for the organization of the National Reserve association, with a capital of approximately \$200,000,000, in which the United States government and the banks owning shares in the association shall be the only depositors.

Messrs. Aldrich and Andrew will address a meeting of the Indiana Bankers' association at Indianapolis, October 25 and 26. Mr. Aldrich will speak in Chicago, November 16, before the Western Economic Association; in Kansas City about November 14; before the Trans-Mississippi Commercial, and November 17 will discuss his plan before the American Bankers' association at New Orleans.

Meantime a sub-committee of the National Monetary commission, headed by Vice-chairman Edward B. Vreeland, which is now in Chicago, will push on to the Pacific coast and return to Washington about the middle of November giving hearings on the currency question in many cities, including St. Louis, Kansas City, St. Paul, Minneapolis, Seattle, San Francisco and Denver.

TRUST BOOSTS COFFEE UP

Part of Product Placed at 16 Cents. Highest Since "Famine Year" of 1895 in Brazil.

New York, N. Y.—The coffee market opened with No. 7 Rio at 16 cents, the highest price since 1895, the year of the "coffee famine" in Brazil.

The new high record was set in the face of a "tight" coffee supply 26,000,000 pounds greater than it was last year when spot coffee was 5 cents a pound in the New York market. Prospects of short coffee crop in 1912 have influenced prices upward, but the extremely high levels are due to the presence in the market of the coffee trust, formed between the Brazilian government and American, English, French, German and Dutch financiers to corner the coffee supply until 1915 and dictate coffee prices to the world for that period.

Pinkham's Vegetable Compound and decided to try it, and it has made me a well woman. My neighbors and friends declare it had worked a miracle for me. Lydia E. "What was it?"

"As soon as she came downstairs I saw she had on a lemon colored dress."

A Broken Bone.

Your first duty after notifying a surgeon, is to provide support for the injured member in the form of an improvised splint.
