Take Plenty of Time to Eat.
 There is a saying that "rapid eating is slow suicide." If you have formed the habit of eating too rapidly you are most likely suffering from indigestion or constipation, which will result eventually in serious illness unless corrected. Digestion begins in the mouth. Food should be thoroughly masticated and insalivated. Then when you have a fullness of the stomach or feel dull and stupid after eating, take one of Chamberlain's Tablets. Many severe cases of stomach trouble and constipation have been cured by these tablets. They are easy to take and most agreeable in effect. Sold by all dealers.

The announcement of Squire G. A. Venable of Bessville for the democratic nomination for the office of judge of the Probate court of Bollinger county appears in this issue of THE PRESS. Mr. Venable is a man of more than ordinary intelligence, a splendid, industrious citizen and a mighty good man. He was born in Union township and is therefore a native of our county. Being a farmer and having the care of his aged father, who is blind, he has little hope of being able to make anything like a thoro canvass of the county and will be very grateful for any assistance that friends may be inclined to render. He desires to thank his friends and neighbors in Crooked Creek township for their generous support in his race for justice of the peace, at which time he received the full vote of his party, which is the best kind of evidence of his standing among his neighbors and those who know him best. He makes no long string of promises, but if nominated and elected, proposes to give his time and attention to discharging the duties of the office to the best of his ability.

But with good wheat we are assured of bread, and with rain from now on a good corn crop will be cribbed next fall, so the outcome may not be so bad after all.
