Lyon's velvet or Ponne styles, shown for the first time. The very latest of fashions will be found in our Millinery Department.

### Stock Foods and Salvet

Liniments and many remedies for diseases in stock are going at COST. We have a good veterinarian here now who will carry everything needed in this line, therefore we are closing out our stock.

### Dress Goods and Dry Goods

It will pay you big to come to our store and lay in your supplies in above lines for everything of this kind will be double the present prices in a few months. Besides, the government has taken over this year's crop of wool for war purposes and you will not be likely to be able to buy any woolen goods next year. Our prices will surprise you.

### Big Line of Underwear

We have a big stock of Fall and Winter Underwear which we bought early and are selling at bargain prices while the stock lasts. We nor no other merchant will be able to replenish these goods this season. Buy early.

### Shoes Shoes

We have the largest stock of Shoes in the county—most of them contracted for months ago—and therefore we are able to give our customers Bargains in this line. Just price Shoes elsewhere and then come here and we will show you where timely buying pays and how much we can save you. This is a fair proposition and should satisfy you that we are giving you a fair, square deal. Our prices can not be equaled anywhere else.

Heavy Shoes and Drivers Boots are hard to buy and after the present stock is exhausted, we may not be able to supply you. We handle the "Stump of the World" and other reliable brands.

BIG STOCK OF GLOVES AND CAPS

### New Fall and Winter COATS

The early buyer always gets the best of it in almost every instance. We extend a most cordial invitation to our customers to call and carefully inspect our lines. We certainly can show you some real Bargains.

### Rubber Boots and Shoes

We are fortunate and our customers are equally so, in having bought an enormous stock of the "Ball" and "Red Hand" Rubber Boots and High Top Shoes. No merchant in the county can duplicate these goods at the prices we are selling them—if they can get them at all.

Big Line of Overalls and Work Shirts.

Heavy Blue Work Shirts, each only 98c

When you start to town with a load of produce, just ask yourself where you can get the most for it and we feel sure you will come to our store.

And then we have the goods you want and at living prices, too.

*Let It Be a Wheat Crop*

### What Shall We Do With The Kaiser?

Probably our Sammies "over there" will not give us an opportunity to say what we shall do with the Kaiser for when they get him in all probability it will be with aeroplane bombs or a big shell and then not even pieces of him are likely to be found. But, if we could get him and his sons unharmed it seems to me that a good thing to do with them would be to chain them within a strong cage made to fit a flat car, and take them on a tour thru the United States and other Allied countries, charging an admission fee to all who wished to see them, this fee to go towards paying our war debt.

At the completion of the tour, the cage containing these creatures to be placed in the Smithsonian institution at Washington, as a permanent exhibit, labeled "The Greatest Criminals in History."

Then when in the course of nature they die, as each one dies, his body to be preserved as we do those of animals, and replaced in position in the cage.

To all future generations this

would be a lesson on selfish ambition.
