The Peoples Supply Co.,

Lutesville, Missouri.

wealthy French family, who came to America and settled in this country more than 100 years ago. His father, the late Napoleon Hagen, entered the land where Leadwood is now situated. He found the surface lead there, mined and smelted it half a century before it was known that his land was underlaid with the richest ore body, perhaps, in the world. His widow gave to their daughter, the late Mrs. Mary Hoffman, the land on which the famous Hoffman mine is now located. Walter Hagen inherited the land where what is now known as Hungarian town is located, two other children—Mrs. Jeanette Harrington and Mrs. Ida Tallock—were also given parcels of this rich mineral land or the equivalent in money. Another son—Edward Hagen—went to war at the age of 18 and was killed in his first engagement.

Geo. F. Kurre allowed \$350, cash

Linoleum for Floor Covering

WHY?

Once you use Linoleum for your floors you will say that it is the best floor covering you ever had. At least those are the reports we have had from everyone else. And here are the reasons why:

1. It will not crack and warp like an ordinary wooden floor. There are no long splinters to pull off and make unsightly holes.
2. It will hold its color and beauty without the annual painting and weekly polishing.
3. There are no long cracks in it to catch DIRT and WATER when it is scrubbed. Every particle of DIRT may be removed from a Linoleum floor and it may be left perfectly dry when scrubbed.
4. There are no pores as in a carpet to catch and hold DUST and GERMS. It may be perfectly cleaned without going thru that awful job of beating.
5. GREASE SPOTS and STAINS may be removed perfectly and as easily as from a tin pan.
6. And best of it all the price is within reach of everyone.

Summing it all up in a few words: Linoleum is the most sanitary, cleanest, best looking and easiest to care for floor covering on the market today that is within the reach of all.

When you do your spring house cleaning call us about it. Or better still, come around and see our patterns and let us figure with you on the cost of covering your floor.

Don't forget that this is the last week that we will sell

Southeast News.

Farmington News.

The Baker Lead company will resume operation at its mine at what is known as the Jake Day property, near Leadwood, about March 1st. Ed Burns, who was recently elected manager of the National Abrasive company, at Niagara Falls, Ont., Canada, will probably return to St. Francois county and resume his old position as captain at the Baker mine. The plant was employing about 200 men when it closed down a year ago.

Centerville Outlook.

During the past few weeks there has been much talk thruout this congressional district as to who and how many will offer their services to their party during the congressional campaign. For the democratic nomination several have been mentioned. We do not know that he could be induced to enter the contest, but we at this time have in mind one of Iron county's stalwart young democrats who has spent his time and money in the interest of the party in this district since arriving at the age of twenty-one years. He is a forceful speaker and has the stick-to-itiveness to keep "everlastingly at it." He, in every respect, will measure up to the standard. His name is Wm. R. Edgar, Jr., of Ironton.

Piedmont Journal-Banner.

Business was never better on this line of the Missouri Pacific, occasioned, at least in part, by the condition of the Mississippi river at the Lesperence street transfer where a large

deposit of sand and a heavy flow of ice have caused the St. Louis Ivory street yards to discontinue the use of the transfer boat to Dupo, Illinois. It is estimated by engineers that it will require an expenditure of at least \$100,000 to remove the obstructing bed of sand so that the transfers may again be made by boat. It is possible that the final outcome will be that the boats will be abandoned and all the traffic which was formerly handled through here will again come our way rather than as handled for some years on the Valley division. There are already many crews being used in freight service here that are regularly used at Dupo.

Centerville Outlook.

We this week received the blue print for Dam No. 2, which will span Current river at the junction of Jack's Ford. This dam will furnish the power or a part of the power to operate the proposed electric railway from Cabool to Ironton. We also learn that the consulting engineer in New York has approved the plan for the dam. M. R. Cole, engineer in charge of the survey, etc., etc., is now in Cincinnati, Ohio, for a conference with those who contemplate the building of the road. The people back of this enterprise are asking our people for nothing—only the right-of-way as the road is constructed. When the time comes for our citizens to act on the proposition of right-of-way they will do the right thing. We will probably have something more definite for our readers in a couple of weeks.

Dunklin Democrat.

Clarence Thomas, the 13-year-old son of F. E. (Friendly) Thomas and wife, committed suicide last Monday afternoon at their home in Gibson by shooting himself with a No. 12 shotgun. The sad affair happened some time after half past three when Clarence went home after having a quarrel with his older brother. Three of the brothers, Clarence, Ernest, age 15, and John who is 24, were papering a house in Gibson, which was to be the home of the latter. An argument arose among the brothers about some of the wall paper; from reports there was nothing serious about the argument and it was just such a quarrel as many brothers frequently have among themselves, and sometimes about the most trivial matters. Clarence left the two older brothers and returned home alone. There was no one there, so he sat down and wrote a note to his mother. In it he explained the incident which resulted in the quarrel, and told his mother that he was going to kill himself, which he must have done immediately after writing the note.

Farmington News.

Walter Hagen died at the home of his niece, Mrs. Israel Aubuchon, of French Village on last Friday night at the advanced age of 96 years. He had been sick only a few days. Funeral services were conducted at the church at French Village on last Sunday afternoon. Interment occurred in the parish cemetery. The deceased was the sole survivor by name of an old and

advanced J. W. Beall for steel book shelving, books and office supplies furnished county.
