Tallent

As nothing has been in the paper from Tallent lately I will try and see if I can give you a few items. Well, it still rains. But few farmers have any corn planted and some have but little ground broke. Rev. Bee Yount was at Liberty church the second Sunday—his regular appointment. He brought a preacher with him by the name of Gibson, who preached three excel-

AS THE EDITOR SEES IT

The editor is popularly supposed to see everything, hear everything, know everything and publish everything that is going on. But sometimes he doesn't see it—doesn't want to see it—because, being an editor and trained to weigh all angles of every question, he knows that it is better for the community if he does not see it.

There are many things the editor does not publish because they contain no element of news, are distressing to many innocent people, and their publication could serve no good purpose.

Sometimes the editor is criticised for his forbearance, but at least some of his critics do not stop to remember that possibly the paper is just as forbearing regarding an incident or two of their own lives.

There are many things to be considered before putting it in cold type.—Dunklin Democrat.

MY AUTO, 'TIS OF THEE

My auto, 'tis of thee, short road to poverty, of thee I chant. I blew a pile of dough on thee three years ago, now you refuse to go, or won't or can't. Through town and country side you were my joy and pride, a happy day. I loved the gaudy hue, the nice white tires new, but you're down and out for true, in every way. To thee, old rattle box, came many bumps and knocks, for thee I grieve. Badly the top is torn, frayed are the seats and worn, the

whooping cough affects my horn, I do believe. Thy perfume swells the breeze, while good folks choke and wheeze as we pass by. I paid for thee a price, 'twould buy a mansion twice, now everybody's yelling "ice"—I wonder why? The motor has the gripe, the spark plug has the pip and woe is mine. I, too, have suffered chills, fatigue and kindred ills, endeavoring to pay my bills since thou wert mine. Gone is my bank roll now, no more 'twould choke the cow, as once before. Yet, if I had the moon, so help me, John—amen, I'd buy a car again and speed some more—Auto Links.

"I'm bothered with rats," said Mrs. Casey, owner of the boarding house, as she talked over the back fence with her neighbor.

"Did you buy any of them rat biscuits for them?" suggested Mrs. Kelley.

"Now, Mrs. Kelley, what kind of a house do you think I'm running? Sure if the bastards can't eat what the rest of us do, they kin go hungry."

More Locals

Dan Conrad and son Dewey, of near Alliance were Marble Hill visitors Tuesday. The same complaint comes from every direction in regard to the farming operations—too wet and much of the corn crop remains to be planted, and Mr. Conrad says this is the condition in his vicinity.

Marvin Zimmerman of near Advance was in Marble Hill a day or two the latter part of last week on business. He informed us that the outlook for the farmers in that part of the country so far is very good. He said he had eighty acres of his corn crop ready for the plow, and practically all of it is planted.

Mr. and Mrs. Homer Jamison of Moberly arrived here last Sunday and visited at the home of his mother, Mrs. Ernie Jamison, and other relatives here and at Lutesville. His brother, Capt. Alva Jamison, of Cape Girardeau, brought them over in his car, and visited here a few hours.

The Bollinger County Interdenominational Sunday School convention will be held at the Methodist church in Marble Hill next Sunday afternoon at 3:30 o'clock. There is to be at least one interesting speaker for the occasion and those who are interested in Sunday school work will enjoy the occasion. Be sure to be present.

We received a much appreciated private letter a short time ago from Judge D. C. Clippard, who moved from here to Hot Springs, Ark., some time ago, containing his check with which to renew his subscription to The Press. He and Mrs. Clippard are located there for the present, at least, and seem to like their home there all right. He has employment with an abstract company and likes his work very well. He says they think of friends here often and sends his regards and best wishes to all. The city there is growing rapidly and property values increasing. In winter most of the people are from the north, but in summer they are mostly from the south. The hotels are doing well all the time. We are sure their friends here will always be glad to hear from Judge and Mrs. Clippard and to know they are pleasantly located.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J.
