An Export's Opinio readers have doubtless noticed tists and hygienists as to the relative value of the various baking powders. A careful sifting of the evidence leaves n loubt as to the superiority of the Royal Baking Powder in purity, wholesome-ness and strength, from a scientific standpoint. An opinion, however, that will have perhaps greater influence with our practical housekeepers, is that given by Marion Harland, the wellknown and popular writer, upon mat-ters pertaining to the science of domestic economy, of housekeeping, and of home cooking. In a letter published in the Philadelphia Ladies' Home Journal,

A Bloodless Revolution in the Ha walian Islands.

Queen Lilloukalani Dethroned and Annexation to the United

SAN FRANCISCO, Jan. 29.—At 2 o'clock yesterday morning the steamer Clau-dine arrived at this port from the Havaiian islands bringing important news a revolution in that king look.

A provisional government has been established by an uprising of the peo-ple; Queen Lilioukalani has been deed from power; mondrehy has been abrograted; the government buildings seized and a new provisional ministry, omposed of four members, is sustained bayonets of volunteers.

The queen attempted on Saturday, January 15, to promulgate a new con-stitution, depriving foreigners of the right of franchise and abrogating the existing house of nobles, att the same time giving her power to ap-point a new house. This was rethe foreign element of the community, who at once appointed a mmittee of safety of thirteen members, who called a mass-meeting of their class, at which 1,200 or 1,500 were present. This meeting unanimously adopted resolutions condemning the ac-tion of the queen and authorizing the ommittee to take into further consideration whatever was necessary to pro-

Monday the committee of public safety issued a proclamation to the Hawaiian people. The manifesto con-

"Upon the accession of her majesty Lilioukalini, for a brief period the hope prevailed that a new policy would be adopted. This hope was soon blasted by her immediately enering into a conflict with the existing cabinet, who held office with the apoval of a large majority of the legisinture, resulting in the tri-imple of Queen Lilioukalani and the removal of the cabinet. The appointment of new cabinet subservient to her wishes and their

atinuance in office until a recent date gave no opportunity for the further in-dication of the policy which would be pursued by her majesty until the opening of the legislature in May of 1892. The recent history of that session has shown stubborn determination on the part of her majesty to follow the tacties of her late brother and in all possible ways to secure extension of the royal prerogatives and to abridge the popular rights.

'Five uprisings of conspirators against the government have occurred within five years and seven months. It is firmly believed that the culminating volutionary attempt of Saturday will, unless radical measures are taken wreck our already damaged credit abroad and precipitate to final ruin our already overstrained financial condi-tion, and guaranties of protection to life, liberty and property will steadily decrease, and the political situation is rapidly growing worse. In this belief, and also in our firm belief that the ection hereby taken is and will be for the best personal, political and prorty interest of every citizen of the land, we, citizens and residents of the Bawaiian islands, organized and acting for public safety and common good, eby proclaim as follows:

The Hawailian monarchical system of government is hereby abrogated. 'A provisional government for control and management of public affairs and protection of public peace is hereby established to exist until terms of union have been negotiated and agreed upon.

"Such provisional government shall consist of an executive council of four members, who are hereby declared to be S. B. Dole, J. A. King, P. C. Jones and W. O. Smith, who shall administer the government of the islands, the first-named acting as president and chairman of such consul and administering the department of foreign affairs, and the others severally administering the departments of the interior, finance and attorney general, respectively, in the order in which enumerated, according to the existing Hawaiian laws as far as may be consistent with this proclamation; and also of an advisory council, who shall consist of fourteen members, who are hereby declared to be S. D. Damon, A. Brown, L. A. Thurston, J. F. Morgan, J. Emmelmuth, H. Waterhouse, J. A. McCandless, E. D. Tenney, F. W. Mc-Chesney, F. Wilhelm, W. R. Castle, W. G. Ashley, W. C. Wilder and C. Bolte, Such a lvisory council shall also have

general legislative authority.
"Such executive and advisory coun eils shall, acting jointly, have power to remove any member of either conneil and to fill such or any other vacancy. "All officers under the existing government are hereby requested to con-tinue to exercise their functions and perform the duties of their respective

offices, excepting the following-name "Queen Lilioukalani, Charles B. Wilson, marshal: Samuel Parker, minister of foreign affairs; W. H. Cornwell, minister of finance; John F. Colburn. ereby removed from office.

The Hawalian Commissioners En Route to Washington.

SAN FRANCISCO, Jan. 29.-The comnissioners from the provisional govern-nent of Hawaii went to the Occidental hotel this morning. They expect to start for Washington to-morrow night. The commission is composed of Lorin Thurston, W. C. Wilder, C. L. Carter, William C. Castle and J. Marsden.

"The five men go on to Washington to-morrow night," said Mr. Carter in

"Well, I cannot say, but we are going to Washington to endeavor to negotiate plan for the annexation of the Haailan islands to the United States."

"On what terms do you wish to enter with the campaign of calumny con-"We would rather not come in as a ritorial connection with the United States. We would like a commiss and a governor appointed by the presisame features of both those of Utah

"Don't you desire congressional representation "We would desire a voice in the national councils, but would not ask a vote in congress, preferring to adopt the same system as exists in your ter-

ritories."
"But would not you prefer statehood "You see the white element in Ha-

there is the better it will be for the citizens. In brief we think it wise to take the direct government of Hawaii out of the hands of residents, which means we don't wish to be subjected to

the ignorant Kanaka." "Is the commission empowered to conclude a definite scheme of annexation, Mr. Carter?"

"No: the commission will confer with the Washington officials, and will suggest our plan as I have outlined it. The result of the conference will be reported to the provisional government at Honolulu before any definite action What is the attitude of foreign rest-

lents of the islands?"

"Almost all support the provisional overnment. The Germans desire auexation, as do many of the English. All of the foreigners except the British and the Japanese have acknowledged the new government, and they may have done so since our departure, the "Will not Great Britain oppose ad-

exation to the United States' "She will probably enter a protest; but I doubt if there will be any vigorous opposition. I think the British government has recognized that our inevitable destiny is annexation with the practically abandoned Honolulu as a stragetic point, and has not used the islands as a station for three years." "What will be the attitude of

"Well, you know, the French are gaining possession of all the South sea islands which they can occupy, and would unquestionably like the Hawalian also. They will hardly object to the inevitable, though."

Washington, Jan. 29.—An litterview etween Secretary of State Foster and Dr. Mott Smith, the Hawaiian minister, continued for some time in the diplomatic room of the state depart-ment. At its conclusion Secretary Fos-ter went over to the Whith House and had a conference with President Har-rison. While, of course, no statement of the policy to be pursued by the United States in the matter will be made, at least until after the arrival of the commissioners from Hawail, who are to present the request for annexation to the United States, it may be said that the visit of the Hawailans will hardly be successful if the purpose thereof has been cor-rectly stated. Aside from the innovation upon the policy of the government since its origin which the annexation would be, the interests of other coun-tries in the Sandwich islands are too large to permit, on the part of the government of those nations, an acquiessence in such annexation. It would ead to inevitable consequences that which its long settled policy forbids it

One of the small conveniences often overlooked is the few blank cards always in the hall drawer or in a flat lacquer box on the hali stand if drawer is wanting. Often an important message or name is lost through the absence of this simple forethought.-N. Y. Times.

-The Way to Boil Fggs: Our woma (and her household ways are the won der and envy of her friends) says that the right way to boil eggs is not to boil them at all. First, put the eggs into a wire basket with a tall handle (that saves the time and vexation of fishing them out with a spoon when cooked) the United States would not care, and then set the nest of eggs in a kettle or or other vessel with cold water chough to cover the eggs-not hot water, or warm water, but cold water. Set the vessel over a brisk fire. Do not let the water boil, only just "come to a boil," and at that particular time-no before or later-the eggs will be cooker as they should be. Remove the basket of eggs by the tall edge handle. Spread Princess Kaiulani, who is at school in England.

None But Royal

BAKING POWDER is absolutely pure. No other equals it, or approaches it in leavening strength, purity, or wholesomeness. (See U. S. Gov't Reports.) No other is made from cream of tartar specially refined for it and chemically pure. No other makes such light, sweet, finely-flavored, and wholesome food. No other will maintain its strength without loss until used, or will make bread or cake that will keep fresh so long, or that can be eaten hot with impunity, even by dyspeptics. No other is so economical.

The Baking Powders now being offered in this vicinity, with the statement that they are "as good as Royal," have been shown by the official analyses to be composed of alum and detrimental to health.

The official chemists of the United States and Canada, State analysts, municipal boards of health, and physicians indorse the great qualities of the Royal Baking Powder.

The Official Souvenir

of the Great Exposition-5,000,000 of which were donated to the World's Columbian Exposition by the Government, are being rapidly taken by an enthusiastically patriotic people. As there early promised to be a demand for these Souvenirs that would render them very valuable in the hands of speculator3, the Exposition

Authorities decided to place the price at \$1.00 for Each Coin

and sell them direct to the people, thus realizing \$5,000,000, and using the

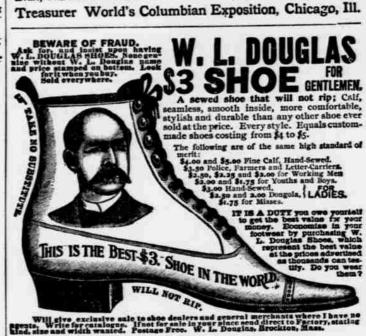

additional money for the further development of the Fair. Considering the fact that there were but 5,000,000 of these coins to be distributed among 65,000,000 people, in this country alone (to say nothing of the foreign demand,) and that many have already been taken, those wishing to purchase these mementoes of our Country's Discovery and of the grandest Exposition ever held, should secure as many as they desire at once.
