July 28, 1914.

Hello, everybody.

Dinah, did you attend the all day singing at the Baptist church in Mansfield Sunday? Pansy would like to have been there, but could not go.

Mrs. John Frye, Ollie, May and little Ruth spent the day Wednesday at Joe Dennis'. Mrs. James Frye and children were there in the afternoon.

Burl Stone and wife, Belle Stone, Mabel Coday and Otto Brentlinger, all went to the picnic at Brown's Cave Thursday and stayed until Sunday.

George Frye got in from Iowa Wednesday. Hurrah for George, he stayed away three weeks this time, and says he is going again. Maybe he will stay four weeks.

Fred Frye, who has been working for the Burlington railroad at Palmer, Neb., came in home Thursday night for a few weeks' vacation through the hot weather, and expects to go back later in the fall.

Say, Dinah, what did you mean the other week by saying that Mr. Miller was having his yard moved? I would like to know how that was done, for we have been wishing we could move a well or a spring on our place, and no doubt that could be done on the same plan that a yard could be moved. Anyhow, I would like to see that yard after it was moved.

Tom Holland, wife and children, John Frye and family, all spent Sunday at Joe Emberton's. Mrs. Emberton was sick the week before and Mr. Emberton did the baking, made two nice cakes, baked light bread and dressed the chickens. His dinner was certainly fine which proves that Mr. Emberton is certainly a good cook. They also made three gallons of nice ice cream and had a jolly good time.

Now, Katie, Sunshine didn't know any more about the picnic than you did. She was very careful to say "if all reports are true," and you see they were not. That is all Sunshine has to say for herself.

John Garner and wife visited her parents, Henry Dennis and wife, a few days last week. John has lived in Macomb so long that while he was in the country he made a visit to the orchard and on finding a heavily laden peach tree called to his wife to come and see what large gooseberries he had found.

**Talked on Horses**

Dr. P. H. Howard, a veterinarian of St. Louis, and J. W. Shepherd, of Cabool, were here at the service of our horse owners. Dr. Howard gave a lecture on the care of horses' eyes and teeth. He displayed a large number of teeth which he had pulled and cut, also a salivary calculus, a stone-like concretion which forms in the mouth of horses, which weighed eight and one half ounces, and which he claims is the largest of its kind in the world. The gentlemen are making the towns in a Ford car.

We printed bills Monday for E. H. Deaver for a public sale on August 6. He expects to go to California.

**A SANITARIUM HERE**

**Plans Under Way for Such Such an Institution to Be Located Here**

Some of Mansfield's business men are boosting a sanitarium proposition and have gone so far as to have plans and specifications drawn by a Kansas City architect, which will be published in the Mirror soon.

A large sanitarium, such as is being planned, with a lake stocked with game fish, row boats and bathing beach. It is also planned to have a bathing pool built in the sanitarium.

Every business man, farmer and property owner in Wright county should take part and help make this project a success. We refer you to the Mt. Vernon Sanitarium, which with a little push, would have been located here, but was lost for lack of support, and the success of this institution should encourage one and all to put a shoulder to the wheel. Yours for a better Mansfield. Get Busy.
