L. T. McCarver has had seven fox races and killed five foxes; went turkey hunting once and killed two turkeys, and his son Alvin killed two. Who can beat this?

Our postmaster, Mr. Sturgess, has turned over a new leaf at the beginning of the new year. He says that no more goods will be sold and no more mail will be handed out on Sunday at his place. We congratulate Mr. Sturgess in resolving to do this, and we know that a majority of the people here would be glad if the other merchants would do likewise.

The Odd Fellows rally here Dec. 21st, being crowded out last week, we mention it this week. Only seventeen out of forty members responded to roll-call, which did pretty well, considering the fact that the members are scattered over a wide territory, some being in other states. They had no candidate to initiate, but had one on the way, but not far enough advanced to be initiated. After closing lodge all present repaired to Mr. Ward's house, who had turned his possessions over to the women and children, and they had prepared an excellent supper; to say the least, it was all that a hungry person could desire. At a late hour all departed for their homes feeling much benefited in F. L. & T.

Saturday afternoon, the time appointed for the rabbit hunt at Mr. Baker's, about thirty men and boys and twenty dogs, from a long eared hound to a bench-leg terrier, gathered and started in for rabbits, the men and boys armed with clubs, so "Bre'r Rabbit," if he ever jumped out of his bed, had a poor chance to escape. Charley Belken could jump wire fences and over trees; C. M. Heitman could outrun anything in the field, rabbit not excepted; Will Kinkead took the premium on being the best on the "holler;" Dr. Eugas could twist his club so as to bring the rabbits down; Will Simpson couldn't hit the rabbit, but he was a sure shot on dogs; J. C. Williams could not run or throw much, but no one could beat him laughing. Well, late in the evening, when all were satisfied and tired enough to quit, the roundup came, and it was announced that fifty-two rabbits was the result, not counting the number the dogs had eaten. Can rabbit hunters in other parts of the county beat this?

Mr. and Mrs. Wm. Smith went to Desloge Thursday to be present at a dinner given by Mr. Smith's parents in honor of their fortieth marriage anniversary. All of the children of the aged couple were present except one son, Andrew, of this place, who could not be present.

George Richardson of Marvin Chapel, while driving along the road the other day, lost a wagon tire. Although he has since made two trips to Bonne Terre he has not been able to locate the tire and thinks it is buried in the mud somewhere. This may be good, but we can beat it; illustrative of this, will say that a disheartened traveler, after floundering through a mile or two of our mud and noticing one of the U. S. G. S. altitude marks on which there was painted 837, and an arrow pointing downward, stopped disconsolately, gazing at it. On being questioned what was the matter, he asked, "Is that the depth of the mud-hole?" Rock roads, boys.

INTERESTING STATEMENT

FROM THE PRESIDENT OF THE WOLF WILSON DRUG CO., OF ST. LOUIS, RELATIVE TO THE COOPER REMEDIES.

It is Understood That a Local Dealer Has Secured a Supply Of The Famous New Medicines.

St. Louis, January 2.—(Special dispatch.)—Will Farmington be affected with the same astonishing demand for the new preparations extolled by L. T. Cooper as has visited St. Louis and the leading cities of the East?

The question is brought forth by the fact that a local druggist has secured the agency for the much-talked-of preparations that are producing such a furor, and about which the newspapers of the United States have devoted columns.

In fact a discussion of Cooper's preparations and the unheard of demand for them wherever introduced has appeared in the greater part of all the leading dailies of the country.

The recently published statement of Mr. Wolf, President of the Wolff-Wilson Drug Co. of St. Louis, which appeared in the Post-Dispatch and the Globe-Democrat of that city, would seem to indicate that with no exception these preparations produced the same results in all sections, regardless of what pressure is brought to bear against the medicines.

Mr. Wolf's statement is as follows: "This talk about St. Louis going mad over Mr. Cooper is absurd. If his preparations did not do all that is claimed for them there would be no demand. Mr. Cooper has nothing whatever to do with it.

"The idea that his personality has something to do with the sale of his medicines, and that the people of this city only imagine they have been benefited is too far-fetched to be seriously

considered.

"One physician says the people have a disease called 'Cooper-mania.' This may be clever, but it certainly is not true.

"I have sold these preparations on trial ever since Mr. Cooper made his headquarters at my store. Any one can receive whatever they pay for the preparations instantly if they are not satisfied. If the people are infatuated with Mr. Cooper, as is claimed, and therefore buy his medicines, why don't they come and ask for their money after they have taken them. Out of the thousands of bottles we have sold, almost none have been returned.

"As a matter of fact St. Louis is no exception in the immense demand for these preparations. Before Mr. Cooper came to this city I received letters from leading druggists throughout the East telling me that wherever he goes his preparations are sold almost to the exclusion of all others.

"Every city in this country where these medicines have been introduced has had the same experience as St. Louis. This ought to be proof positive that the people know what they are about."

In the light of this statement it will be interesting to see how these preparations are received in Farmington.

Every Niece and Nephew of Uncle Sam

should be deeply interested in what he has said about soda crackers, because they are the one food with which all of them are familiar.

Uncle Sam has given out figures showing that soda crackers are richer in nutriment and body-building elements, properly proportioned, than any food made from flour.

This is saying much for common soda crackers, and much more for **Uneeda Biscuit**, because they are soda crackers of the best quality. They are baked better—more scientifically. They are packed better—more cleanly. The damp, dust and odor proof package retains all the goodness and nutriment of the wheat, all the freshness of the best baking, all the purity of the cleanest bakeries.

Your Uncle Sam has shown what food he thinks best for his people. His people have shown that they think **Uneeda Biscuit** the best of that food, nearly 400,000,000 packages having already been consumed.

Heart Weakness.

Dr. Miles' Heart Cure has made many hearts well after they have been pronounced hopeless. It has completely cured thousands, and will almost invariably cure or benefit every case of heart disease. Short breath, pain around heart, palpitation, fluttering, dizzy, fainting and smothering spells should not be neglected. Take Dr. Miles' Heart Cure and see how quick you will be relieved.

It cannot make a new heart, but will restore a sick one by strengthening the heart nerves and muscles, relieving the unnatural strain, and restoring its vitality.

"I had a very bad case of heart trouble. For six months I could not work. Last July I was plowing corn and feeling bad all day; in the afternoon in plowing one row I had to lay down, or fall down, three times. My heart throbbed as though it would burst through, and I had difficulty in getting my breath. I purchased a bottle of Dr. Miles' Heart Cure, and before I had used half of it I could lay down and sleep all night. Previously I had to get up from five to ten times a night. I have taken several bottles, and my heart is as regular as clock work. I feel like a new man, and can work considerably for an old man, 84½ years old."
