

COUNTY CORRESPONDENCE.

BISMARCK BREVITIES.

Archie Wood moved this week to the Stephen Fine farm near town.

Born, Monday, Oct. 15, to the wife of Albert Stone, an 8-pound girl.

Robert Denton and family spent the day with Dr. Stammer and family Monday.

Many of our progressive and enterprising citizens are building grand old walks around their homes. This is a long step in the right direction.

The badly needed, much desired and oft spoken of grand old street crossings, that have been predicted and promised, have not yet been placed.

Extensive preparations are being made for the State Horticultural and Dairy meeting here the 19th and 20th. An interesting and instructive program is to be carried out, and a large attendance is expected.

A fire broke out in a barn, the property of Mr. Trubert, Monday morning at 2 o'clock. By prompt use of the telephone and the vigorous blowing of two Iron Mountain engine whistles, the people were awakened, hurried to the scene and prevented the spreading of the fire. The property was used by Mr. Paul and a large winter's supply of coal was burned with the building.

Gov. Joseph W. Folk arrived here unannounced Saturday on a freight train over the Belmont branch, and had less than an hour to wait for a main line passenger train. He was prevailed upon to address the citizens here. All parties available were telephoned and in twenty-five minutes between 400 and 500 people were gathered. Gov. Folk spoke in a happy strain, his remarks were frequently applauded and he made a good impression on his hearers.

We had the pleasure of hearing Gov. Frank exposed Democratic principles Sunday. The Governor said it was no trouble to get men to make laws, but it was hard to get men to enforce the laws. That is true, and all who want the law enforced in St. Francois county will vote the Democratic ticket on Nov. 6th.

The Food Value of a Soda Cracker. You have heard that some foods furnish fat, other foods make muscle, and still others are tissue building and heat forming. You know that most foods have one or more of these elements, but do you know that no food contains them all in such properly balanced proportions as a good soda cracker? The United States Government report shows that soda crackers contain less water, are richer in the muscle and fat elements, and have a much higher per cent of the tissue building and heat forming properties than any article of food made from flour. That is why Uneda Biscuit should form an important part of every meal. They represent the superlative of the soda cracker, all their goodness and nourishment being brought from the oven to you in a package that is proof against air, moisture and dust—the price being too small to mention.
