Emotions Expressed in Dancing.

In the Vedas of the Hindus, some of which date back 6,000 years before Christ, there is steady reference to dancing as an expression of triumph, worship, and even the deepest grief. It is the same in the Zendavestas of the Persians. Dancing with cymbals and tambourines, with bells tied to their ankles and wrists or around their waists, was an art that the priestesses in the temples must understand.

There is more Cataract in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Cataract to be a constitutional disease, and therefore requires constitutional treatment. Hall's Cataract Cure, manufactured by E. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

100 PLANTS FREE WITH EVERY NEW OR RENEWED SUBSCRIPTION TO THE TIMES FOR ONE YEAR.

GERATY'S FROST-PROOF FREE CABBAGE PLANTS

Everyone who has a garden wants Cabbages. They need little space—a foot or so apart—and a garden as "big as a handkerchief" has room for at least a hundred plants.

We have just made an arrangement with the biggest Cabbage Plant growers in the country—Wm. C. Geraty Co., Youngs Island, S. C., to furnish us with extra-choice "Frost-Proof" plants, which we are going to give away free.

These plants are grown on an island just off the coast, where the brick, cold breezes of the Atlantic make them tough, hardy and healthy. The big advantage is that you can plant them in the field a month or six weeks earlier than home-grown plants, which means solid heads three or four weeks earlier.

These "Frost-Proof" plants are guaranteed to stand a temperature of ten degrees above zero without injury.

Geraty's "Frost-Proof" Cabbage plants are hardier, better, and worth more than the ordinary plants. We are so sure of this that we agree to refund the full value of the plants—35 cents a hundred—if they are not satisfactory and do not produce earlier and better heads than you grow from other plants—you to be the judge.

Geraty's "Frost-Proof" Cabbage plants will be shipped direct to you from Youngs Island at the proper time for planting in your territory. Send us the coupon with the price of the subscription; we will order the plants.

Fill out the coupon below and get a hundred or more plants free.
