

CASTORIA For Infants and Children. Mothers Know That Genuine Castoria Always Bears the Signature of Dr. J. C. Hutchins In Use For Over Thirty Years CASTORIA

SAVE VEGETABLE SEED

Indications are that the commercial crops of vegetable seed will be ample for the needs next spring, except in the case of a few kinds. Large orders, however, for American vegetable seed have been placed by the Allies, so that there is still need for every gardener to save as many seeds as possible from his own garden.

BOYS AND GIRLS WIN PRIZES

The Boys' and Girls' Clubs of Missouri entered 142 exhibits at the State Fair. The exhibits in the different classes were: sewing 46, baking 2, canning 44, corn 6, poultry 10, pigs 11, calves 6, sheep 12, and garden 5.

SUGAR SAVING IS IMPORTANT

Sugar conservation is the most important thing just now in the program of the Food Administration. F. B. Mumford, food administrator for Missouri, said recently. Stocks are low because of the destruction of sugar ships by submarines, and it is imperative that every person limit his consumption of sugar to two pounds a month.

M. U. STOCK WINS AT FAIR

The department of animal husbandry of the University of Missouri College of Agriculture exhibited nine head of fat steers and twenty-one head of breeding sheep at the State Fair this year.

The following places were won by the University exhibit: champion Shorthorn and Galloway steers; first prize grade herd; first prize Hereford herd; and six first prizes, two second prizes and one fourth prize in the individual steer classes.

UNIFORM MARKERS FOR PUBLIC ROADS

Aside from construction and maintenance, the most essential feature of highway development is a uniform system of markers. There are 11,000 miles of inter-county-seat roads in Missouri, and the appropriation to drag or otherwise improve these roads is sufficient to more than pay for well constructed signs giving correct directions and distances.

FARM BUREAU AID IN FIGHTING FIRES

California county agents and representatives of the Forest Service saved \$130,000 worth of grain crops from fire losses during 1917. All the principal grain-producing counties have raised funds, purchased equipment, and appointed fire bosses for this first-aid work.

INLAND TOWNS HAVE MOTOR EXPRESS SERVICE

The establishment of Rural Motor Express lines between cities, towns and rural communities, has in large measure removed the necessity for railroad transportation. Buffalo, the county seat of Dallas county, has a six-hour passenger schedule by motor transport to Springfield, a distance of forty miles, together with ten rural motor express lines operating between Buffalo and other towns in that section of the State.

LIVE STOCK MARKET

National Stock Yards, Ill., Sept 3, 1918 Receipts and Comparisons Today Wk. ago Cattle 16,000 7,800 Hogs 14,000 14,000 Sheep 5,000 5,500

CATTLE.—Owing to the fact that yesterday was a holiday, being observed as Labor Day, today which virtually being the opening business day of the week was ushered in and conducted under rather peculiar circumstances, due to the fact, that two days' supply was available in one.

HOGS.—Similar conditions in regard to the quality of the supply, as noted for cattle prevailed in this department. The strictly good to choice fat northern hogs were scarce and with buyers picking carefully for these varieties it enabled salesmen to work their deals 5c to 10c higher than the best prices of last week, with an extreme top of \$20.35 being realized, a new record.

SHEEP.—Although not a great deal of change can be noted in the lamb situation compared with a week ago, yet the indifference that has been characteristic in the trade must not be overlooked to lightly for it has resulted in a slight weakness in prices, and had the supply been more ample, no doubt, lower prices would have ensued.

GRAIN FIELDS SAVED FROM FIRE

During 1917 crops valued at \$130,000 were saved from destruction in California through the fire-fighting campaigns initiated through the Farm Bureaus by county agents throughout the State. A Ford auto truck equipped with an extinguisher and other fire-fighting apparatus was purchased by one county by levying an assessment of 2 cents per acre on its grainland.

LOANS TO FARMERS

The War Finance Corporation of the Treasury Department will make loans, in exceptional cases, directly and without the intervention of banks, to live-stock raisers, whose industry has been classified as one necessary or contributory to the prosecution of the war.

These loans are to be made under section 9 of the War Finance Corporation act, and the loans will be made to individuals, firms, and corporations whose principal business is the raising of live stock, which includes cattle, goats, sheep and hogs.

Chamberlain's Cough Remedy

This is not only one of the best and most efficient medicines for coughs and colds, croup and whooping cough, but it is also pleasant to take, which is important when a medicine must be given to young children. Chamberlain's Cough Remedy has been in use for many years and has met with much favor wherever its good qualities have become known.

Speaking of great turning movements, there will be one worth noting when the people turn autocracy out.

What has become of the old-fashioned salient with an apex toward Paris? Oh, have a heart! can't a fellow change his mind?

With all the life guards scattered up and down the beaches a person must be very industrious to accomplish a successful drowning this summer.

WEEKLY NEWS NOTES

(By County Agent Glenn S. Hensley.)

St. Francois County to Make Agricultural Display at Sikeston Fair.

The Sikeston Fair Association has offered \$100 in cash to every Farm Bureau in Southeast Missouri which makes an agricultural display at their fair. The Executive Committee of the Farm Bureau voted at their regular meeting Tuesday night, to arrange for such an exhibit to be made.

Judge E. E. Swink, Mr. Lee Roy Johnson and the County Agent are helping to collect the material for the display. State Hospital No. 4 has been kind enough to offer their full co-operation and to allow their gardener to arrange the exhibit and to superintendent putting it up at the fair.

The following list includes some of the things which have not yet been secured for the display: rutabagas, celery, Hubbard squash, crook-neck and 1-2 dozen ripe cucumbers, yellow tomatoes, navy beans, all varieties of corn, both gathered from the stalk and the stalk with the ear still hanging on, gallon sample of all varieties of oats and wheat, cleaned and ready for display; samples of all kinds of clovers and grasses, gathered in bunches ready for display as well as hulled samples of seed; all varieties of cowpeas, soy beans, sorghum, kafir corn and broom corn.

The wheat and silo campaign. The Farm Bureau and the County Council of Defense have been co-operating in putting on a wheat and silo campaign. Five meetings were held the past week at different community centers with an average attendance of 34 at each place.

FARM BOYS MAKE MONEY FROM MOLES. "Remember that the mole is the Kaiser's land submarine, and it is up to us to eradicate them, as our Nation is cleaning out the sea pirates," reads a letter from a county agent in Oregon to a young hunter of Oregon City.

FARM FOR SALE

Seventy-five miles south of St. Louis on Missouri Pacific Ry. 55 acres or as much as 100 acres; good land, 5-room house, new barn, other good outbuildings, good water, young orchard, one mile from town with good high school; on rural route. Suitable stock or truck farm.

Chamberlain's Cough Remedy

One thing Mr. Clenvert said in his Chautauqua talk here Saturday, we want to emphasize by repetition and comment. It is this: When those millions of civilian soldier boys get back home, they will be so fed up on the horrors committed by the Huns "over there", you can depend upon it, they will rid America of all pro-Germans. Those who are now most offensive in their talk and conduct will be strung up or shot while the lesser offensive of these foreigners will be deprived of the property they accumulated here in America and will be sent back to Germany with just what they had when they landed here.

BILL BOARDS OBSTRUCT VIEW ON PUBLIC ROADS

On many of the public roads in Missouri leading out of our principal cities and towns, billboards have been constructed in such a manner that they obstruct the view at intersections and corners. The State Highway Department urges the enforcement of the law which prohibits not only the erection of billboards which obstruct the view, but also the fastening of advertising signs to trees along the public highways.

Kickers, whiners and plain knockers are aiding the enemy.
