

The Facilities for Distribution of the Standard Oil Company (Indiana)

THE service which, at all times, the Standard Oil Company (Indiana) is prepared to render its patrons, rests securely upon a solid foundation of complete distribution.

To perfect a system which shall make every product manufactured by the Company instantly available to anyone, anywhere, any time, has been the goal toward which this Company has been working since the day of its organization.

As yet this ideal has not been achieved; but the system as it stands is conceded to be the most perfect of its kind in the world.

The present equipment for distribution, including grounds, buildings, storage tanks, motor trucks, wagons, etc., represents an investment of more than \$30,000,000.

There are 27 main stations where complete stocks of all products are kept on hand. Supporting these are the bulk stations located at 28-1 carefully selected points in 11 states. These stations are equipped with storage tanks having a combined capacity of 86,113,650 gallons of gasoline, 66,115,390 gallons of kerosene, and 4,300,000 gallons of lubricating oils.

It is necessary to carry this tremendous stock—total 156,528,950 gallons—at all times to insure quick, convenient service to the patrons of the Standard Oil Company (Indiana) wherever they may be, regardless of transportation difficulties or weather conditions.

To enable the Company to fulfill its obligations to patrons, and deliver to them the products they require, it is necessary to maintain a fleet of 3700 motor trucks and a caravan of 3500 horse-drawn wagons, either active or in reserve. These trucks and wagons are so organized that they, at regular intervals, can reach 75% of the homes in the territory at present served by this Company.

Supplementing the wagons, an equipment of 230,000 iron barrels, representing an investment of more than \$7,000,000, is kept in service to insure the safe delivery of oils and gasoline, even to those remote places where the dark-green tank wagon never has penetrated.

For the convenience of the motoring public, a chain of 1300 service stations has been organized and many others are in the course of construction. These stations are prepared at all times to supply the motorist with his requirements of gasoline and lubricating oils in any quantity and at the lowest prices.

This, in outline, is the distribution system upon which the service of the Standard Oil Company (Indiana) rests.

It is the hope of the Company that the time is not far distant when no person in the territory served will be more than five or six miles from a Standard Oil Company (Indiana) service station if he lives in the country, or more than one mile away if he lives in a town or city.

Standard Oil Company (Indiana)

910 So. Michigan Ave., Chicago

SPRAY APPLE TREES WHEN BLOSSOMS FALL

The so-called calyx or blossom-fall spray is the most important fruit spray of the season. It not only controls the first brood of the apple worms or larvae of the codling moth, but it also largely prevents the losses occasioned by the later broods. It is also an effective spray against the lesser apple worm, plum curculio, canker worms, apple scabs, black rot, and other less important insect pests and fungous diseases, advises T. J. Talbert, extension horticulturist to the University of Missouri College of Agriculture.

For best results the spray must be applied immediately after the blossoms or petals fall. The trees should not be sprayed while in full bloom, because the stamens and pistil of the flower fill and almost close the calyx cup, thus preventing the poison spray from reaching the place where the ma-

majority of the codling moth worms take their first meal.

Spraying apple trees when they are in full bloom is also apt to prevent a satisfactory set of fruit. The spraying solution may be strong enough to burn and destroy the reproductive organs of the flowers.

When about two-thirds of the petals have fallen, spraying work may begin, as practically all the nectar will have dried up and the bees will not be found visiting the flowers. No injury can, therefore, be done to the bees if the spray is applied immediately after the petals fall. Use lime-sulphur solution and arsenate of lead in the same proportions as for the cluster-bud spray, 1-2 gallons to 50 gallons of water and 2 pounds of the paste or 1 of the dry arsenate of lead.

Since the little cavity at the blossom end of the apple, known as the calyx cup, remains open for only a week or ten days, for most varieties of apples, the spray should be applied, if possible, within from 4 to 7 days after the petals fall in order to be most effective in killing the apple worms. A large percentage of these worms upon hatching from the eggs of the codling moth take their first meal in the calyx cup of the little apple. If the fruit grower is careful in applying the spray a few grains of arsenic will be placed in the calyx cup of each young fruit, and the worms will be killed.

This should be the most thorough and drenching spray of the season. A nozzle throwing a rather coarse driving spray will give best results. The equipment employed should furnish enough pressure to force the spray to all parts of the tree. If thorough work is done the young apple clusters must be sprayed from every angle in order to force the poison spray into each calyx cup. Apple trees from 12 to 18 years old may each require from four to six gallons of the spraying solution, while larger trees ranging from 18 to 25 years old may need from 7 to 12 gallons of the spray to cover them thoroughly.

For a Sprained Ankle

As soon as possible after the injury is received get a bottle of Chamberlain's Liniment and follow the plain printed directions which accompany the bottle. Obtainable everywhere.

Final Settlement Notice

Notice is hereby given to all creditors and others interested in the estate of Val Boen, deceased, that I, C. W. Dunmire, Administrator, of said estate, intend to make final settlement thereof at the next term of Probate Court of St. Francois County, State of Missouri, to be held at Farmington, Mo., beginning on the 14th day of April, 1919.

C. W. DUNMIRE, Administrator.

April 11, 18, 25, May 2.

SLACKERS AMONG FARMERS WERE RELATIVELY FEW

BUT THERE WERE SOME WHO FAILED TO SUBSCRIBE IN FORMER LIBERTY LOAN DRIVES.

A CHANCE TO MAKE GOOD

Uncle Sam Has Been Farmers' Best Customer and Reciprocation is in Order.

You hear the question argued as to whether the farmer has done his full part in the buying of Liberty Bonds.—it is generally admitted that he has. But—as with other men—there were thousands of him who slacked.

There is no sense in being soft-spoken about it. The facts show it. The various Liberty Loan organizations had farmers on their slacker lists, just as they had slackers from other lines of work. Some farmers failed to prove their loyalty, just as some lawyers, some doctors, some merchants and some others failed.

Uncle Sam has been the farmer's biggest customer. He bought more farm products than anyone else. Uncle Sam was the feeder of many millions. In his armies and navies he had nearly 4,000,000 men. And as Uncle Sam is still the biggest customer, the greatest buyer of farm products. He has hundreds of thousands of men still in the service. He will have a big navy and a big army for months yet, even at the best. A demand has been created abroad for farm products that will make strong demands upon the farmer. Millions of dollars of foodstuffs, grown on American dirt by American farmers, will produce Europe.

Uncle Sam has paved the way for the American farmer to sell his produce abroad. The way seems to have paved for American farm prosperity for a good many years. Not war prosperity, of course, but something very near it. It looks like the farmer should be able to dispose of all he can produce for a good while now.

Has the farmer been appreciative of these things? Has he met his old Uncle Samuel about half-way in the big job? Well, it has been argued and it has been disputed. Doubtless the farmer has taken care of his share of the undertaking. But whether he has or not, he has a chance in this last, the Fifth or Victory Liberty Loan, to make his presence felt.

The loan is a big one and there will be plenty of room for the farmer as well as every other man in the country to get a piece of it. There was very little criticism of the rural communities during the Third and Fourth Loans and during the Fifth drive it is likely that the farmer will march off with the honors. There is another chance to buy Liberty Notes (short-term bonds), the soundest of sound investments.

MATTER OF SELF-RESPECT

The Government does not want any man who actually is financially unable to buy a Victory Liberty Note (short-term bond) to purchase. But it does want every man who is able, even by skimping, to do so. It is up to the individual to decide this question. On the decision depends whether the individual is a patriot or a slacker. The man who is able and does not buy cannot have the respect of even himself.

GEORGE WASHINGTON WAS LIBERTY BONDS' FATHER

George Washington, father of his country, could have been the first Liberty bond holder. In the Revolutionary War when the young government had no funds whatever to meet current expenses Washington supplied a part of the necessary money from his private fortune. In order to get this ready cash he was compelled to sell property in Virginia. He lent in all about \$72,000 to the government. These sacrifices on Washington's part were cheerfully made to a government in the making; to one in fact that he was striving to establish. Had he failed in his purpose no payment would have been forthcoming, and as it was the loan was made without interest. Americans of today are not asked to make such sacrifices. The government to which Washington gave of himself and his property so unstintingly to make stable is today stronger established financially than any other in the world. Its bonds are backed by better security than any others on the world market. The father of his country did not doubt nor hesitate—but gave. He had faith against all odds, and his faith was justified. Today the government has all the odds on its side. It asks the loan of its people's money. It will be returned with interest. There is no uncertainty.

GET SLOAN'S FOR YOUR PAIN RELIEF

You don't have to rub it in to get quick, comforting relief

Once you've tried it on that stiff joint, sore muscle, sciatic pain, rheumatic twinge, lame back, you'll find a warm, soothing relief you never thought a liniment could produce.

Won't stain the skin, leaves no muss, wastes no time in applying, sure to give quick results. A large bottle means economy. Your own or any other druggist has it. Get it today.

ORGANIZE FOR BETTER DAIRYING

A drop of sixty cents a hundred-weight in the wholesale price of milk caused the dairymen in Adair county to organize a county dairy association to promote a better understanding of the value of dairy products on the part of the consumer and a better knowledge of sanitation, balanced rations, the use of better sires, keeping of records, etc., on the part of the producer. In short, the plan of the local association is to put dairying on a business basis in the county. The members have pledged themselves to have their herds tuberculin tested and many have agreed to keep records.

Good dairy feeds are also receiving attention. Although the acreage of soy beans was greatly increased last year, the farmers are making many inquiries this year and the indications are that the average of last year will be doubled. Clover is being sown on practically all the land that was limed last season and it is anticipated that the clover will show up much better on the limed land than on the unlimed land as nearly all soil was acid.

TRUSTEE'S SALE

Whereas, Abraham Nelson Cayce and Maggie Thornton, by their certain deed of trust, dated the 20th day of June, 1914, and recorded in the office of the Recorder of Deeds of St. Francois County, Missouri, in Book 71 at page 439, conveyed to the undersigned trustee the following described real estate, situate, lying and being in the County of St. Francois and State of Missouri, to-wit:

All of lot numbered twenty-one (21) of John C. Alexander's subdivision of part of Survey No. 2969, township thirty-six (36) north, range 5 east, adjoining the western addition to the City of Farmington, Missouri, as fully shown on the plat of said addition of record in the Recorder's office of St. Francois County, Missouri. And also one share of stock in Series No. Seven (7) of the St. Francois County Building and Loan Association.

Which said conveyance was made in trust to secure the payment of a certain promissory note in said deed of trust described; and whereas by the terms of said deed of trust and note said note is past due and remains unpaid; therefore, in conformity with the provisions of said deed of trust, and at the request of the legal holder of said note, I, the undersigned trustee, will on

Saturday, May 24th, 1919, between the hours of nine o'clock in the forenoon and five o'clock in the afternoon of that day, at the south front door of the Court House, in the City of Farmington, St. Francois County, Missouri, sell at public auction to the highest bidder, for cash, the above described real estate and personal property to satisfy said note and the cost of executing this trust.

P. A. SHAW, Trustee.

May 2, 9, 16 and 23.

NOTICE OF SHERIFF'S SALE IN PARTITION

Missouri F. Hines, Plaintiff,

vs.

Mary Ballard, Mary Patterson, Sarah J. Lariba, Thomas Ballard, Cora Draper, J. J. Ballard, Rachael Post, Estella Meadow, Miss Willie Ballard, Beverly Counts, Delaney Umfleet, Clell Counts, Lyde Counts, Anna B. Counts, Lillie Robinson, Bessie Pierson, Anna Moore, J. D. Ballard, Willie Davis, Roberta Byington, James Ballard, Jeff Ballard, John Ballard, Katherine Ballard, J. C. Ballard, Frank Ballard, W. C. Ballard, Josephine Brown, Rachael Wise, Sallie V. Ballard, Philip Ballard, Ada Ballard and Mamie Broetz, Defendants.

Notice is hereby given that by virtue of a decree of partition and order of sale of the Circuit Court of the county of St. Francois, State of Missouri, made in the above entitled cause at the February term, 1919, thereof, I the undersigned, the duly elected, qualified and acting Sheriff of the said county of St. Francois, will, on

Tuesday, the 6th Day of May, 1919, between the hours of nine o'clock in the forenoon and five o'clock in the afternoon of that day, at the south front door of the Court House in the City of Farmington, the county-seat of said St. Francois county, and during the session of the regular May term of the County Court of said St. Francois County for the year 1919, sell, at public vendue, to the highest bidder, for cash, the following described real estate, lying and being in the said county of St. Francois, to-wit:

The north half of the northwest quarter of section 12, and the east half of the southwest quarter of section one, all in township 34, north, range 7 east, containing in the aggregate, 160 acres, less one-half acre in the southeast quarter of the northwest quarter of said section one, heretofore conveyed for graveyard purposes.

CHAS. H. ADAMS, Sheriff of St. Francois County, Mo.
