If you want to take the work out of washing, and perhaps have it done in your own home, without the many worries of the past, the Eden Electric Washer is the solution. You should see this wonderful machine, at A. J. Hawin's, Agent, Farmington, Mo.

He said that neither he nor his family had been able to get the longing for Farmington out of their system. Through an oversight the advertisement of Limmer's Bakery was run in this paper last week with the bread prices unchanged, when the fact is that there has been a reduction in bread prices. Silver sliced bread, which was formerly 3 loaves for 25c, is now 2 loaves for 15c; Pan Dandy, formerly 2 for 15c, is now 5c straight. You should not overlook the fact that A. J. Hawin is agent for The Eden Electric Washer and Safety Wringer, and will be pleased to give you a demonstration of how they eliminate work from washing. Vogt, Deputy Internal Revenue Collector, was in Farmington yesterday acquainting our people with the new law in regard to the printing of the war tax on all tickets intended for use in pay entertainments of every description. The law is a new one, the provisions of which are not generally known to the public generally. Rev. and Mrs. Schular, late of Atlanta, Mo., arrived in this city Friday noon, where they will make their future home. They are being extended hearty and sincere welcome by the people of Farmington and vicinity in general. Rev. Schular has accepted the pastorate of the First Baptist Church, in which work The Times wishes him unbounded success. While driving a Ford, hired from Ollie Mayberry, last Saturday, going from Bismarck to Elvins, "Crip" Crawley, driving with several companions, the machine was run into a ditch, evidently due to careless or incompetent driving. None of the occupants were seriously injured, but the car was badly damaged, which necessitates its being hauled in for repairs. For the protection of those within their rights, careless or reckless auto driving should be made a felony. There is no doubt about it. Reckless use of the public highways is a felony, and punishment in keeping with such a crime should be rigidly invoked. Several accidents in this vicinity the past week indicates the immediate and stringent need for more drastic regulation of speed fiends, road hogs and careless driving generally. Monday night's rain was one of the heaviest downpours that has visited this section of country for a long time. When the storm broke it was accompanied by heavy wind that for a time proved to be quite alarming. Later there was considerable hail, and the rain continued practically throughout the night. Many rivers and streams were swollen out of their banks, and considerable damage resulted, especially in the low lands. An automobile filled with Belleville folks came to grief Sunday about a mile from Farmington, on the Flat River road. This accident, like most of them, resulted from speeding. The car was trying to pass another, when there was a skid-out, and the machine went top-sy-turvy to the side of the road, spilling its occupants promiscuously, and damaging them somewhat, but fortunately none were seriously injured. Automobiling is splendid recreation and pastime, but foolish driving is rapidly bringing it into disrepute with many. The only way to prevent the ever increasing number of auto accidents is for drivers to be brought to a realization that they have no more rights on the public highway than have the many others who may be using the same roadway.
