

Colds

It should be borne in mind that every cold weakens the lungs, lowers the vitality and prepares the system for the more serious diseases, among which are the two greatest destroyers of human life, pneumonia and consumption.

Chamberlain's Cough Remedy

has won its great popularity by its prompt cures of this most common ailment. It aids expectoration, relieves the lungs and opens the secretions, effecting a speedy and permanent cure. It counteracts any tendency toward pneumonia.

Their new mill plant will be located there, the situation being on Little Red river, about half way between Heber and Searcy, or about 15 miles from Searcy. The nearest railroad station is Pangborn, and the mill site and town is about four miles from that station, and the company will have to build a spur from that station into their location. James F. Fullbright.

who is the candidate for prosecuting attorney of this county, is a native of Cape Girardeau county, having been born on a farm near Millerville January 25, 1877. As a youngster he attended the local schools and got the rudiments of an education, and being a boy of parts he determined to press on and wrest from the brow of Success all that her crown held for him. By working hard he succeeded in going through the Millerville high school, and from there went to the Cape Normal, earning every dollar by hard work on farms, and by teaching. He graduated at the head of his class from the Normal, and won the first prize in the oratorical contests. Having visited in Ripley county during his school days, he liked the county and in 1900 he came here and permanently located, engaging to teach school in the Pine district, and afterwards, at Bennett for several years, in the meantime, while teaching, he was reading law and preparing himself for that profession. He was appointed a member of the county board of education by the county court, and in 1903 was admitted to the practice of law, passing an excellent examination. In 1904 he attended law school at the University in St. Louis, and on his return engaged actively in the practice. For the past two years he has ably filled the position of assistant prosecuting attorney.

As an orator he has no equal at our bar, and time is coming when his ability in forensic work will be recognized by all classes in this section of the state. He is a ready, offhand speaker, and in reading keeps up with the times. He is a good lawyer, and having no opposition for the nomination, and possibly none at the election, is as good as elected now.

He is married, being still in his honeymoon, and owns a nice property in town. He is a member of the Odd Fellows, Masons, Rebekcas, Woodmen and Fraternal Home societies, and takes an active interest in the work.

Ripley County Schools.
(Collected and Edited by E. T. FOARD, County School Commissioner.)

A number of schools have closed the last two weeks. Three of these held graduating exercises. Dismang school taught by Miss Lillie Whitwell closed Feb. 16th, with one graduate, James Johnson. An interesting program was rendered by the pupils of the school and a large number of the patrons were present which indicated a good school sentiment on the part of the people and also that Miss Whitwell's work has been appreciated. Mr. Dismang made an interesting talk in which he stated that he had been school director for thirty years. An interesting feature in the program was the good singing furnished by a choir of the older pupils.

Greenwood school closed last Thursday with one graduate, Roy Carrioco. Mr. Talbot, the teacher, gave an entertainment Thursday evening in honor of Washington's birthday.

The exercises were followed by a pie Supper. Mr. Fullbright acted as auctioneer and a handsome sum was raised for a library. Good talks were made by Superintendent Carter and Mr. Fullbright. The large audience present seemed to enjoy themselves very much.

Current View School which closed about a week ago held graduating exercises last Saturday night. The graduates were Mary Bristow, Pilgram Moberg and Edgar Schmidt.

Mr. Booker with the pupils of the school and the young people of the town rendered a very entertaining program followed by talks by Superintendent Carter and Mr. Proffer of Doniphan. Mr. Proffer made an excellent talk on agriculture.

I have had the pleasure of being present at all these exercises and presenting the certificates to the graduates. In all these districts I have found the people enthusiastic over their school.

YOUR NEIGHBOR

is not only the one that lives next door to you, but the one that helps and assists you when you are in need. The Doniphan Roller Mill NEEDS YOUR TRADE, and if you wish to be neighborly with us and your county's interest we ask you to tell your merchant when you are buying flour not to send or sell you some other that is made in other counties. Does your merchant ever tell you it is not teating him right to patronize mail order houses in the ciey for your supplies when he can furnish you the goods? He is right, you should not! Now, don't you think the merchant that tries to show you how you ought to patronize home merchants, ought to give his flour trade to home mills, and not try to sell you shipped-in flour? Tell him the Doniphan Roller Mill Company flour is good enough for you, and he ought to stand by home enterprise just as as well as you. Is this not right, is it not neighborly—you buy our flour, we pay it back to you in cash for your surplus grain? Demand our flour and stand up for Ripley county and her enterprises and let's be neighborly.

Yours to please.
