

Learn Your Children to Save Money And You Help the Government

In its time of Need. Save the lives of the Boys in the Army and Navy by buying Thrift Saving Stamps and War Savings Certificates. Start the Children to saving the pennies, then the nickles and the dimes and you soon have 25 cents, enough to give the child "a shot at the Kaiser." In this way you assist the Government within your means, learn your children to be thrifty and saving, and the investment is the safest of any in the World.

Let every Boy and Girl resolve: "I will fight in this War in which Our Country is now involved; I will save every penny and loan it to my Government to help save the lives of our big Brothers of America, and I will try to teach every American I see to do the same." Urge your children to make this resolution.

Ripley County has been asked to buy \$160,000 worth of the Stamps and Certificates, and while this may seem like a great sum of money to raise, yet if each child, or person, will save their pennies, nickels and dimes and buy the Stamps, thus saving the money, the amount can be raised and almost without feeling that one has been deprived of even a penny in their ordinary every day expenditures. In saving these small items you soon create an interest and find that it is easy, and in the end you will be surprised at what you have accomplished, without appreciable effort, in the way of this saving, and you will have helped Your Government, and yourself, without hardly missing what you have saved. Try it and learn, and teach your Children this saving and thrifty habit. All the local Banks,

The Ripley County Bank, The Doniphan State Bank, and The Citizens Bank of Doniphan, and The Post Office

Have the Stamps and Certificates for Sale. Call on any one of them and ascertain the particulars, as they are neither intricate nor hard to understand.

Doniphan School Notes.

If the cold weather continues the fuel supply will soon be exhausted and then we will have a "surenuf" long vacation.

Work was not resumed at the Grammar school because the water main is frozen and the building is most effectively "snow bound."

Most all of the sick folks are back in the ranks and the Captains of the various companies are shouting the command with a spirit that would make the Kaiser sit up and take notice, if he could hear them.

The inter-high school debate between Sikeston and Doniphan High Schools was postponed until February 1. This gives our boys a much needed addition of time to work their debates "down to a T."

School opened full blast Monday morning. We will probably have school on Saturdays the remainder of the year to make up lost time and also be dismissed about a week earlier than would have been the case should we not teach on Saturdays.

A water pipe, which protrudes into the Domestic Science Laboratory, lost its stopping cap and the room was undergoing a miniature deluge when the janitor luckily found the break and turned off the water. No great damage was done. Another pipe bursted between the floor and ceiling of the second and third stories and a part of the floor was removed in order to make the necessary repairs.

The second quarter of school a D. H. S. shows a marked improvement over the first quarter. During the first quarter there were approximately 70 offenses recorded against the Draconian Code, while during the second quarter there were only about 40 recorded. The highest number of points lost by one person the first quarter was 23, while 81, the high water-mark for the second quarter. Is the world really getting better?

Do you get up at night? Sanol is surely the best for all kidney or bladder troubles. Sanol gives relief in 24 hours from all backache and bladder troubles. Sanol is a guaranteed remedy. 35c and 61.00 a bottle at the drug store. 25-52.
