The Diamond Concrete Stave Silo

Is made of diamond shaped concrete staves, bound together with steel bands or rods. The concrete staves are 30 inches in length by 11 1-2 inches at the extreme width and 6 inches wide at either end, and are 2 3-4 inches thick.

This form of silo construction is of the highest type of architecture.

Our Diamond Concrete Stave Silos are **FIRE PROOF, HOOP PROOF, WIND PROOF, WATER PROOF, RODENT PROOF, WORRY PROOF**

What Crops Make Good Silage

CORN is pre-eminently the crop for the Silo. The *COW PEA* is an excellent crop to put into silage; this crop when put into the Silo along with corn silage increases the value of the corn silage on account of the high protein in the cow peas. *SORGHUM* stands next in feed and jattening value to corn for silage.

You are invited to write or call and see me for information about our Diamond Concrete Stave Silos; let's know the size silos you need and we will give you our prices; we build all our silos on the farm and pay the railroad freight charges.

This Handsome Silver Spoon Absolutely and Unconditionally FREE If You Call For It Next Saturday

Each woman who calls at this store next Saturday, is going to receive FREE as a present, one of the most beautiful Tea Spoons ever designed—the **ROGERS** Spoon here shown. You are not asked to buy anything now or later. This spoon is **absolutely and unqualifiedly free.**

The New "Puritan" Pattern

Note the style of this spoon. It belongs to the Popular Colonial series. This particular design is the "Puritan"—perhaps the most artistic ever designed by America's most famous Silverware maker. Certainly no Spoon was ever more beautiful.

Made by the Wm. Rogers Mfg. Co., who have been manufacturing Silver Plated ware of quality for fifty years.

This spoon is **guaranteed** to give permanent satisfaction. And the guarantee is authorized by the manufacturers.

Why This Offer?

Many people will wonder how Silver of such quality can be given away.

It is done to quickly introduce the "Puritan" pattern to the best homes of our city. So handsome is this spoon that most women, we believe, will come back at a later date and buy several; and some will also want "Puritan" knives, forks and the various fancy pieces, which are on sale at this store.

In making this offer we lay no claim to liberality. It is simply our idea of good business.

Only One Spoon Per Family

But we won't give two Spoons in the same family. You, as a representative of your family, are entitled to just one spoon. And you must call next Saturday to get it.

This offer is not apt to be repeated again this season. So, if you want this genuine **ROGERS** Spoon (Puritan Design) free—**come Saturday and get it.**
