

OUR farmers are getting ready to plant a largely increased acreage of corn.

THE candidates for city offices are out and the candidates for county offices are coming.

THE hum of industry down South is about to drown the growls of the Southern protectionists.

BOTH of the Mexico Colleges have started in after the holidays with a largely increased attendance. Times are getting much easier.

JOHN D. ROCKEFELLER has given nearly \$5,000,000 to the Chicago University and had the good taste not to demand that it be named for him.

THE weather department seems bent on tempering the wind to the shorn lamb. Even when the January thaw came there was nothing to thaw.

CORBETT, with that frankness of expression habitual with men who live by fighting and by talking about fighting, says that he will be doing the American public a favor by whipping Mitchell. This may be true as to a large majority of the people, but in order to entirely satisfy a divided public sentiment, it will be necessary for both men to be well whipped.

In speaking to a lady the other day about reading advertisements, she remarked: "There is common sense in reading the advertisements; you must admit that. You find out the novelties, and when the regular old stand-by materials are advertised at a bargain you know it. Oh, yes; I own up to reading the bargain advertisements, and what's more, I believe every mother's daughter of us does it!"

THE Louisville (Ky.) Courier Journal editorially says: "The New York Press declares that 'the opposition to the Wilson Bill at the present moment is spontaneous uprising of starving workmen.'" "Spontaneous" is good. On the same page of the Press is an appeal to workmen to uprise and besiege their Congressmen to vote against the Wilson Bill, and the Republican papers of New York have been systematically trying to excite them to such "spontaneity."

THE City Council should see that the Fire Company is kept supplied with plenty of hose and that the hose is kept in first-class condition. We are paying a great deal of money for protection against fire and when we do have a fire everything should be in the best of condition. At the present time we have only about 500 feet of hose which can be used in case of a fire. There should not be less than 1,000 or 1,500 feet. After the hose is purchased it should be taken care of. After a block or two of buildings are burned it will be too late to prepare for a fire.

THE St. Louis Republic says: The death of Ex-Congressman John E. Hutton, of Mexico, is met throughout the State by expressions of sincere regret. Mr. Hutton was a scholarly, able, eloquent and unpretentious man, whose services to his people were fully appreciated. As a legislator, as a physician, editor, lawyer and citizen he did his whole duty fearlessly and conscientiously, and his memory will long be revered by all who had the honor of his acquaintance.

THERE were quite a number of applicants for Judge Gibson's place as Circuit Judge in Kansas City. At a meeting of the bar association in that city a few days since the various applicants received the following number of votes: The first regular ballot resulted as follows: R. E. Ball, 161; William B. Teasdale, 100; J. F. Minter, 12; A. B. Kagy, 11; E. P. Gates, 10; T. H. Buckner, formerly of Mexico, 11; scattering, 6. R. E. Ball having a majority received the endorsement of the bar association.

THE members of the Democratic party throughout the country should line up and cordially support the party leaders. This is no time for bickering or fault finding. It strikes us, to say the least, as peculiar that some Democrats are continually hunting for some cause to harass and annoy the administration and embarrass every movement made in the direction of carrying out the principles of the platform. Instead of cordially supporting the tariff bill and assisting in making it a law you find Democrats endeavoring to attract attention to stay laws and land loan schemes and snide schemes of that character. The party, in order to accomplish anything, must have the cordial support of the rank and file.

CANDIDATES and applicants for office are as thick as flies in the summer time. In a crowd of men that gathered at the post-office corner yesterday afternoon there were candidates after the following offices, viz: Postmaster, State Legislature, County Collector, Circuit Clerk, City Marshal, Prosecuting Attorney, City Attorney and Police Judge. The odd man said he did not know for sure what he wanted, but would let them know in a few days which one he would accept. They talked the chances over a while, and although every man they could think of was also a candidate, they were all sure that they would get there and said that when they did, they intended to stay as long as possible.

MRS. COCKRELL'S LIFE ENDS.

CHILDREN, Tex., Jan. 6.—

Every year in hog-fattening time I see in your paper numerous complaints of hog cholera destroying thousands and perhaps millions of dollars' worth of fattened hogs. I have fed a few hogs every year for 25 years, and have never lost one from disease of any kind. I will give you what I consider to be an infallible preventive of hog cholera and an auxiliary for fattening. The first thought that I had was that a hog does not eat enough salt for its system, and that he will not eat any scarcely if not mixed with something else. In a contest with my neighbors as to who should have the best lot of hogs I tried every way to get my hogs to have a good appetite and take on flesh. So I undertook to get all the salt into their system that I could, and that would create an appetite for water and hence demand an increase quantity of corn. So, with the recipe that I give you, I have often put two pounds of fat each day on a thrifty hog of 150 pounds.

Take one or two pints of meal to each hog. Mix with one or two tablespoons of salt to each hog per day. Less quantity to begin with. Then pour boiling water into the mixture until it is well cooked, stirring while the water is being poured from the spout. When done, it should be stiffer than mush and not so tough as bread. Let it cool some before feeding at first. After a while they will learn to eat it while warm, and I think it better for them to eat it as warm as they will. Plenty of fresh water is essential. Corn should be kept lying by them all the time. They will not resist heavy feeding.

I hope you will induce some stock feeder to make a trial of this yet this season and let me know the result. I would like to hear of it being tried as a cure. I am sure it is a preventive.

E. J. McCONNELL.

THE State Bank Tax. It is probable that the important bill repealing the 10 per cent. tax on State bank issues will be reported from the Committee on Banking and Currency at an early day, and perhaps during the coming week. There is a wide difference of opinion between the Democratic members as to the principles of such a measure, and as these differences can not well be reconciled the general desire in the committee is to report a bill simply repealing the tax and then let the House decide all differences.

THE bill of Mr. Cox, of Tennessee, which is, in brief, a repeal of the State bank tax without any effort at regulating future bank issues, was under consideration at the last meeting of the committee. To some extent it is bidding for favor against the bill of Mr. Springer, chairman of the committee, which removes the tax on certain kinds of State bank issues secured by Government, State or municipal bonds. Mr. Springer thinks the bills do not conflict, and might both be reported. It is probable, however, that the simple repeal bill will first be reported, and that the Springer bill will be taken up by the committee later.

THE Ways and Means Committee have two important tasks before them, one the final settlement of the terms of the internal revenue branch of the tariff bill and the other the authorization of bonds to meet the pressing Treasury deficit.

SKIN GRAFTING. CHICAGO, ILL., Jan. 6.—Physicians at the Mercy hospital are grafting skin upon the burned arms of Mrs. Blake of Ottawa, Ill., seventy-two square inches of cuticle having been taken from the thighs of her husband, ex-State Attorney W. W. Blake. The operation, so far, has been successful, and is the only case in this country in which any person has sacrificed so great a surface of skin for another.

A Mammoth Gas Well. FOSTORIA, O., Jan. 8.—A gas well drilled on the farm of Joseph Wise, 3 miles west of this city, has been completed and shows a flow of gas estimated at from 1,000,000 to 2,000,000 feet a day. During the first hour the well flowed 150 barrels of oil, and conservative experts say it will produce when tubed 500 barrels daily. There is great excitement in oil and gas circles in and around this city.

Offers for the Corbett-Mitchell mill, in the event of its not being pulled off in Florida, are coming in thick and fast. New Castle, Colo., offers 30,000 tons of coal to have the right brought off in that place; Silver Plume, Colo., offers \$60,000 in gold or silver, and Deadwood, S. Dak., promises to hang up a purse of \$50,000 for the fighters.

Remarkable if Reliable. MOBERLY, Mo., Jan. 6.—Peter Hunt, colored, who claimed to be 104 years old and to have been the father of no less than seventy-six children, died here Thursday. During his slavery days he had thirteen masters and names innumerable. He was well fixed financially.

Killed by a Falling Tree. STURGEON, Mo., Jan. 7.—Charles Callwell, who carries the mail between Columbia, Mo., and Dripping Springs, was killed yesterday by a falling tree, which he was endeavoring to cut down.

Farm for Sale or Trade. Farm of 130 acres within 5 miles of Mexico, well improved, for sale or exchange for Mexico property. Enquire of W. B. McIntire, agent. 4614 41.

J. M. Beagles shipped a car load of hogs to Chicago last night.

Salt for Hog Cholera.

CHILDREN, Tex., Jan. 6.—

Every year in hog-fattening time I see in your paper numerous complaints of hog cholera destroying thousands and perhaps millions of dollars' worth of fattened hogs. I have fed a few hogs every year for 25 years, and have never lost one from disease of any kind. I will give you what I consider to be an infallible preventive of hog cholera and an auxiliary for fattening. CHURCH DISCIPLINE.

INTERNAL DISSENT AMONG THE CHRISTIANS OF NEVADA, MO.

NEVADA, Mo., Jan. 6.—The Christian church, one of the largest and wealthiest church organizations in this city, is now torn with internal dissension. Quite recently over one hundred new members were added to the church membership under the preaching of Evangelist Boles of Indiana.

The board, at a late meeting, adopted a series of resolutions strongly condemning dancing, coquetism and card parties, and deciding that members of the church engaging in these pastimes were fit subjects for church discipline. The resolutions brought out a protest from a very large and respectable contingent of the church. Both resolutions and protest were published in the papers of this city, and resulted in considerable feeling being aroused. The end of the matter is looked forward to with much interest, as forty-five members of the church are listed for discipline under the resolutions.

A Summing Up. The Columbia Herald figures these items from the last census report. Read them: From it we learn that in Columbia are 802 dwelling houses and 821 families. As there are 4,500 people in Columbia, that means we have 4.87 persons to a family and 4.99—almost five—to a dwelling. In Mexico there are 4.53 persons to a family, in Fulton 6.08, in Booneville 5.25 and in Jefferson City the extraordinary number of 6.40. We evidently do not raise many children in Columbia.

We have more dwellings, in proportion to population, in Columbia than there are in Fulton, Louisiana, Marshall or Mexico, and nearly twice as many as in Jefferson City. That may be because so many of Jefferson City's population lives in one large stone house.

IN ADRIN COUNTY there are 4.96 persons to every dwelling, in Callaway 5.50, in Monroe 5.08 and in Randolph 4.99. There are more persons to the family in Callaway than in any of these counties, 5.50. Of Columbia people 1,890 are males and 2,161 females, more than 300 more women than men. Oddly enough, in our neighbor towns of Fulton and Booneville the men are more in number than the women. We have so many widows in Columbia.

AN AMERICAN FABLE. From the St. Louis Republic.

A traveler over a certain highway was stopped by a robber, who made the usual demand, accompanied by the usual horse pistol. The traveler shelled out every dollar he had with great promptness, but after he had done so he raised his voice in lamentation and cried:

"Alas! it needed only this to undo me, and I am a ruined man!" "You have given me only \$50," replied the robber as he counted the cash.

"Let me explain the case. I am in trouble with my neighbor about a line fence. I was on my way to see a lawyer and retain him to bring suit. Having been robbed of my money, I shall not now be able to secure justice."

"My dear man," said the robber as he spat over his right shoulder for luck, "you should congratulate yourself on this fortunate meeting. Had you begun suit, your neighbor would have been compelled to defend it. While the courts might have settled the question in time, both farms would long before have passed into the hands of the lawyers. It is true that you lost \$50 in cash, but at the same time you save a farm, and the troubles and anxieties of a lawsuit. Again, the neighbor you are at war with happens to be my uncle, and having saved his farm from the lawyers he will now be quite willing to move that line fence 2 1/2 inches and thus settle the point in dispute forever. Taken all around—"

"Say no more!" joyfully interrupted the traveler as he extended his hand. "I see how it is and appreciate your kindness and self-sacrifice. You are not only welcome to my money, but shall have half of my buckwheat crop."

Whenever you would go to law, try to meet a robber somewhere. M. QUADE.

"A Little Philosophy." C. B. Hudson, of Vandalia, Mo., writes that Newton says: "If a hole were made through the center of the earth and a ball let fall from one side it will pass beyond the center, but will continue away back and forth until finally it stops at the center of the earth." Is this correct? Suppose a hole made through the center of the earth, would not the air rush in from both sides and fill the vacuum? Now if the air at the greatest only extends 200 miles above the surface of the earth (and half the pressure only about 3 1/2 miles) and presses upon it with a force of 15 lbs. to the square inch, what would be the pressure at its center? The body there would have to hold up a column of air over 4,000 miles. Would not the density of the air be so great that the body would be suspended in air before it reached the center?

Farm for Sale or Trade. Farm of 130 acres within 5 miles of Mexico, well improved, for sale or exchange for Mexico property. Enquire of W. B. McIntire, agent. 4614 41.

WAS THERE BLOODSHED?

Rumor at Washington That American Marines Were Landed at Honolulu.

WASHINGTON, D. C., Jan. 8.—A rumor is current at the Capitol this afternoon that the dispatches from Minister Willis to Secretary Gresham state that marines were landed at Honolulu from American warships, and that fighting and bloodshed ensued. The rumor, although apparently baseless, is gaining credence in many quarters. So far it cannot be verified. In favor of the correctness of the rumor it is argued that the Provisional Government, under Thurston's mentorship, may have become aggressive and arrested the Queen, thus precipitating a riot in the city, and that minister Willis to protect life and property of Americans, who were compelled to use their arms to carry out their orders.

To an inquiry made at the State Department late this afternoon as to the truth of the rumor the answer was made by one of the officials: "Don't lose any time on the report. It is baseless."

White City Burned. The St. Louis Republic, referring to the fire at the World's Fair grounds, used the following headlines:

In ashes now—World's Fair buildings wrecked by fire—Disastrous conflagration at the White City—Five buildings in ruin—Liberal arts, electricity and other structures destroyed—The fire started in the music hall and then to the others named—Many valuable exhibits consumed and a loss that will run into millions entailed—One fireman loses his life and others are badly injured—Believed to be the work of incendiaries—The police investigation.

Officers of Mexico Lodge, A. F. & A. M., No. 544. D. A. McMillan, W. M.; J. C. Wilkins, S. W.; R. M. White, J. W.; J. M. Marmaduke, Treasurer; G. Blum, Secretary; A. Bernhardt, S. D.; F. V. Gentry, J. D.; E. C. Burkhardt, S. S.; J. W. Howell, J. S.; H. J. Brown, Chaplain; D. C. Wright, T.

The annual convention of the Missouri Road Improvement Association is now in session at Carrollton, Mo. Adrain County should have had at least a half dozen representative farmers at this meeting.

A Car of Timothy and Clover Seed. I have just received a car load of timothy and clover seed. Address: d2t wit W. S. HATHAWAY.

Marriage license was issued to-day to E. W. Johnson, of Wells county, Colo., and Miss Lutie Coil, of Adrain.

BIG BARGAINS! ALL KINDS OF CLOTHING CHEAPER THAN EVER! OVERCOATS At a great sacrifice.

WINTER CLOTHING In great quantities that must be sold before spring. Underwear must go. Come at once and make your selection.

We are sole agents in Mexico for the highly popular and widely-known W. L. Douglas Shoes! For \$2, \$2.50, \$3, \$4 and \$5. JOE & VIC BARTH.

A WONDERFUL DISCOVERY!

Genoa, Italy, a Blaze of Excitement!

Priests of the Convent Robida said to have discovered two well preserved skeletons of Christopher Columbus, one when he was a boy of 12 and the other when he was a man grown. The latter skeleton contained a broken heart, a pair of iron shackles, and a 10-foot chain was found near it.

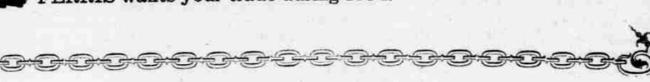

This is certainly very hard to believe, hence we wait for further dispatches before offering comment.

We will say, however, this: That it you are in doubt as to where you can buy the

Most Hardware for the Least Money! Just Try FERRIS

Pocket Knives, Scissors, Razors, Butcher Knives, Gimlets, Post Augers, Buckeye Saws, Dog Collars, and thousands of other articles

At prices LOWER than all competitors. All new goods at FERRIS. He cleans up each year; never keeps anything that is shelf-worn or out of style. FERRIS wants your trade during 1894.

WILL BE AT OUR BRANCH OFFICE In the Parlors of the Windsor Hotel, Mexico, Missouri, Friday, Jan. 19, 1894, And each month thereafter.

DR. J. P. HENDERSON President of the Illinois State Institute of Physicians and Surgeons, Chicago, or one of their staff, will make regular visits here once each month for the benefit of all those who are suffering from any form of chronic disease. Our Institute practices entirely the new system of treatment as formulated by Dr. Henderson.

WE ARE NOT DECEPTIVE, AS WE DO NOT CLAIM TO CURE EVERYTHING. For all who apply to us are carefully examined, a consultation is had, and an opinion given free of charge, so that if your case is incurable you are plainly told of it, and if your symptoms can be only relieved, you will be told what can be done; while if a cure can be effected, you will be given the means to do so, and the power of the human mind to cure everything, but it is the greatest heritage allotted to man to diagnose disease.
