

The Weekly Ledger.

R. M. WHITE, Editor and Proprietor.

THURSDAY, AUGUST 5.

Who committed the crime of 1873? roars Senator Felt. Sh! Maybe it was this fellow Holmes.

The farm products in agricultural hall at the fair last week show what a great county Andrain is and what a magnificent growing season this has been.

The LEADER desires to thank the brethren of the press throughout the state for the kindly notices given to the Mexico Fair, which, in a great measure, helped to make it a success.

Is the death of Robert Lawder, Andrain County, one of its most energetic and useful citizens. He was in the prime of life, had a bright future before him, and his untimely taking away is deplored by this community.

When the Indians found that Copping was in charge of the troops they ineffectually quit. Copping, we believe, has never killed any Indians, but his respect like that of Attila, is so terrible as to throw his adversaries into a panic.

If the new woman will get her delicately molded ear to the ground she will be apprised of the fact that there are a few cross-grained bachelors as well as some curmudgeons among the benighted who propose to resist the absolute sway which she proposes to establish.

The Weather Bureau, having decided to publish a report of its predictions, fulfilled and unfulfilled, we shall have such accurate and comprehensive predictions as "fair with the possibility of showers." It will take extraordinary weather to get out of the range of such forecasts as that.

The prospect for the greatest crop ever grown in the United States is a good deal even to people who do not know that corn bread is one of the most useful articles in a scientific diet. It means cheaper meat for one thing. Cheap corn bread down the price of pork, as pork falls here is apt to fall with it.

When the untimely and severe cold weather occurred in June the reports agreed that the apple crop was ruined, so it was that the frost had been too much. But this is a big country. No June frost is sufficiently widespread to destroy any crop. And now the National Apple Shippers' Association, in session at Chicago, declares that the outlook is for the largest crop and best quality in recent years of this kind of fruit. It is good news.

BROADBENT all over the country people are talking of Mexico and Mexico's hospitality last week. They came from everywhere and saw one of the best towns in Missouri. It was a big advertisement for us, and the who were not benefited a dollar financially there are many must admit they are well repaid, as a result of the fair the business men and public spirited citizens gave to Mexico. A failure of anything undertaken in Mexico is a rare thing.

THE MASON (Ga.) Telegraph has made a canvass of all the political papers of the State, and is endeavoring to ascertain how they stand on the money question. The Telegraph sent to all the papers this query: "Does your paper advocate the free, unlimited and independent coinage of silver at the ratio of 16 to 1? That is, is the gold standard a dollar financially 14 replies, of which 89 were in favor of sound money and 55 in favor of free silver.

OUR of the twelve delegates elected from Andrain county only eight attended the Springfield Convention. They were S. B. Cook, J. C. McKinney, J. R. Sims, Goodwin Cresson, W. W. Bots, A. B. Medley, T. A. McIntyre and J. C. Buckner. When the vote was taken in convention to reorganize the State Central Committee all were present except S. B. Cook, W. W. Bots and J. C. McKinney. We only Andrain delegates that voted for reorganization.

UNITY MEANS SUCCESS. The Fertile Springs Convention has met and acted. It is too early yet to be able to judge fully of its effects upon the party. The professed purpose of the Convention silver remonetization was entirely lost sight of and the ascendancy of certain politicians the only matter considered. The reform element controlled. Should a split in the Democratic party, as many prophesy, come in 1896 the men who promoted this convention will have to stand the blame for it.

The addition of nineteen constituents to the State Committee could have no other purpose than wresting the party management from the regularly constituted committee. This action of the Convention is without precedent, is irregular and revolutionary and can only result in further discord within the party. Whether the regular committee will recognize the new members and submit its domination remains to be seen. The regular committee represents the entire party; the new addition represents a few men whose only purpose is self-aggrandizement it cannot and will not have the confidence of the people. When the rank and file of the Democratic party shall rise up in their might and power and send the reform element to the rear and aft it will return to its pristine glory, purity and power in this state, and not until then.

To all sincere Democrats, whatever your views may be regarding the financial question, whether you be for free and unlimited coinage of silver or for a single standard with limited coinage of silver: Do not forget that you are Democrats and that the only way to success is unity. Do not be deceived by the action of this Fertile Springs Convention. You have never been dealt with honestly. The purpose of this Convention has been fully disclosed, and that it was for no other purpose than making a machine for the benefit of a lot of men lost to power, and wanting in power, is already too plain.

Messrs. Hall and Bland.

DEBATE BY MISSOURI STATESMEN ON THE CURRENCY AT HUNTSVILLE.

Arguments for and Against Sixteen of Silver to One of Gold—Disagree on the Ratio.

HUNTSVILLE, Mo., August 3.—Silver Dick Bland and Riley Hall met in joint debate here to-day on the money question. There was an immense crowd present. It was not a crowd ready to fight, but a crowd of people in sympathy with the man that was to confront in debate. That man was known the world over as one of the ablest exponents of the cause of free silver.

Mr. Hall began by saying that he realized the disadvantages which were referred to by the people of the community, he said, were unquestionably in sympathy with the man that was to confront in debate. That man was known the world over as one of the ablest exponents of the cause of free silver.

Mr. Bland comes to you, said Mr. Hall, "to remove every lingering doubt that you may have on the silver question. If Dick Bland cannot remove these doubts, then no other man can do it."

Continuing his personal remarks, Mr. Bland said that he had had the experience that Dick Bland had had in debate, and his life-time study of the question that he was about to discuss.

With this preface, he stated the propositions upon which they were agreed. He said that he had had the experience that Dick Bland had had in debate, and his life-time study of the question that he was about to discuss.

Mr. Bland said that he had had the experience that Dick Bland had had in debate, and his life-time study of the question that he was about to discuss.

Mr. Bland said that he had had the experience that Dick Bland had had in debate, and his life-time study of the question that he was about to discuss.

Mr. Bland said that he had had the experience that Dick Bland had had in debate, and his life-time study of the question that he was about to discuss.

Mr. Bland said that he had had the experience that Dick Bland had had in debate, and his life-time study of the question that he was about to discuss.

Mr. Bland said that he had had the experience that Dick Bland had had in debate, and his life-time study of the question that he was about to discuss.

Mr. Bland said that he had had the experience that Dick Bland had had in debate, and his life-time study of the question that he was about to discuss.

Mr. Bland said that he had had the experience that Dick Bland had had in debate, and his life-time study of the question that he was about to discuss.

Mr. Bland said that he had had the experience that Dick Bland had had in debate, and his life-time study of the question that he was about to discuss.

Uncle Sam: Stop your arguing, gentlemen. Get out into that field with your knives and you'll get both silver and gold.

mines, leaving silver principally for our and other markets.

It Reminds Editor White of Fulton, Mo. Crops in the East Short—At Coney Island.

It Was One of the Most Successful in Point of Attendance Ever Held at Mexico.

The fair and races closed last Saturday after a successful week. The attendance was all that could have been expected and all exhibitions in the many departments gave entire satisfaction.

At 6 o'clock Saturday the flag fell for the last race of the meeting the mile dash for runners. Bronco Bill won it in 1:44, Viola Knight second, Blue Stone third.

The two-year-old trot was won in straight heats by the once renowned grand circuit performer, Guy, after dropping the first heat to Recall for a record. Clear Grit was a good horse and made the gray son of Shiloh get up on his legs in the first heat in two heats. Time of Recall, 2:16. Guy's best time, 2:15.

The 2:40 trot was won in straight heats by J. W. Norman's black stallion, J. R. Bascom, Kentucky Belle second in each heat, Bonnie Reed in the first heat and King Jaybird in the second heat. Time—2:25, 2:28, 2:30. Kentucky Belle had a time of 2:25, but was unsteady. She is a dandy good mare and won two first ribbons in the harness races. J. R. Bascom is a race horse from wire to wire, never quits, can be depended upon.

The ring wards Saturday were as follows: For the best saddle stallion, 2 and under, first, W. H. Connor, Auxvasse, \$15; second, Tom Bass, Mexico, \$10; third, J. B. May, Mexico, \$5.

For the best saddle, 4 and over, first, Freeman & Son, Mexico, \$15; second, Jeff Bridgford, Paris, \$10; third, S. B. May, Mexico, \$5.

For the best harness mare, 2 and under, first, C. C. Rodgers, Columbia, \$15; second, J. K. Crow, Mexico, \$10; third, J. C. Meyer, Mexico, \$5.

For the best harness stallion, 4 and over, first, Frost Stock Farm, Roadhouse, Ill., on Brock McGreggor, \$15; second, David Freeman & Co., Mexico, \$10; third, J. P. Arnold, Williamsburg, \$5.

Death of Mrs. Talmage. DANVILLE, N. Y., August 5.—The wife of Dr. T. D. Talmage died at 5:30 this morning.

Mr. Hall closed. Mr. Hall, in reply to the argument that the United States had a much larger per capita circulation than any of the silver countries, reviewed the argument advanced in his Sedalia speech, which he quoted from the English statisticians as to the productive power of the people of the United States as compared with other countries.

The Taylor Brothers.

MOTION FOR A NEW TRIAL WILL BE MADE AT CARROLLTON.

Letter to Sheriff Stanley—Four Men Say That They Murdered the Meeks Family.

CARROLLTON, Mo., Aug. 3.—There were as many people in town to-day as during any day of the Taylor trial, but this was Saturday and a Democratic convention was to be held. The Taylors have rested quietly in jail to-day, with the exception of working with their attorneys, preparing the papers that will be submitted to the court next Tuesday, when a motion will be filed for a new trial. Judge Rucker will not return until Tuesday. The motion for a new trial will then be disposed of, and, if not allowed by the court, the prisoners will be sentenced to be hanged.

This morning the Taylor family returned to their homes in Linn county, Mo., with the exception of James Taylor, they will not return to hear the motion for a new trial. The attorneys for the defense have been at work all day getting their points in a presentable shape, but they refuse to give them for publication. They have over 12 points on which they will ask a new trial.

The verdict of the jury in full was: "We, the jury, find the defendants, William P. and George E. Taylor, guilty of murder in the first degree in the persons of James W. Meeks, his wife and child, as charged in the indictments." G. W. CRANE, Foreman.

There has been no objection raised to the form of the verdict, but the defense will not say that it is right in form. Attorney Holiday for the state says that the form of the verdict was left to Major A. W. Mullins, and that it was taken from the Supreme Court decisions.

The question asked by all to-day was: "Will they get a new trial?" One citizen answered to-day by saying that Judge Rucker always gave the defense the benefit of the doubt.

Shortly after the former trial, a citizen of one of the northern counties was in a man with whom he was having a talk. "If I had you in Carroll county, I would kill you." This saying will be revised.

The Taylor brothers are in the same jail with a man who was interviewed yesterday. They "don't feel like it just now." Ben Pierce, the prosecuting attorney of Sullivan county, before leaving for home this morning, said: "There will be several indictments for perjury come out of this trial, and perhaps a number of other crimes."

Anonymous letters have been sent thick for the last few days, and Sheriff Stanley received one to-day that heads the list. It is evidently a "fake" of the worst order. It reads: "To Whom Concerned: We, the undersigned, do solemnly swear that the Taylor brothers are not the murderers of the Meeks family, but the men who committed the deed are as follows: Verney Taylor, Bill White, Enos Williams and Tom Williams. We have a number of other crimes, but have never been caught. We are now on the road to New Mexico, and if you can catch us you may have us. You will hang two innocent men. We have no relatives, and if we come to the gallows it won't be so bad as for the Taylor boys for their innocent. Hoping that you will not hang the innocent brothers for that crime, we bid you adieu."

This letter was not signed. It was post-marked St. Joseph, Mo. The state has acted on the theory that the Taylor brothers are not the murderers of the Meeks family, but the men who committed the deed are as follows: Verney Taylor, Bill White, Enos Williams and Tom Williams. We have a number of other crimes, but have never been caught. We are now on the road to New Mexico, and if you can catch us you may have us. You will hang two innocent men. We have no relatives, and if we come to the gallows it won't be so bad as for the Taylor boys for their innocent. Hoping that you will not hang the innocent brothers for that crime, we bid you adieu."

MISSOURI CROPS. What Returns to the Agricultural Department Show.

COLUMBIA, Mo., Aug. 3.—The State Board of Agriculture to-morrow will show corn increased from 90 per cent average crop, in 1894, to 108 per cent, and from 140,000,000 bushels to 272,000,000. Wheat and oats were damaged 9 per cent by continued rains. The wheat yield is estimated at 17,000,000 bushels; oats, 34,000,000. Hay yield has increased from nine tenths of a ton to the acre to one and a quarter tons. The pasture acreage is reduced. In cotton there is 90 per cent of an average crop; tobacco, 93 per cent. Tobacco should yield 100 per cent. Apples and melons promise a splendid crop. Potatoes increased from 65 per cent to 101. The yield will be 10,000,000 bushels.

Assessments Completed. JEFFERSON CITY, Mo., Aug. 3.—The State Board of Equalization to-day completed the assessment of railroad and telegraph and bridge property. Subdivided the board valued this property as follows: Railroads, \$79,221,913; bridges, \$94,460,875; telegraph lines, \$94,460,875. This is an increase over 1894 of \$4,147,807.

A Sure "Pop" This Time. Mr. B. O. Sims, of this county, has received the following: WICHITA, KAN., Aug. 1.—Dear Sir: An noble state with certainty as just that time I can speak in Mexico. Will inform you in the course of a few days. Yours fraternally, MARY E. LEASE.

Lincoln County Fair. The Fifteenth Annual Fair of the above association will be held in Troy, Mo., Sept. 3 to 6, inclusive. This is one of the most successful fairs in the state. Always pays its premiums in full; always keeps its promises; always has good crowds; always offers extra attractions. For premium list and other information, address James Linnahan, Secretary, Troy, Mo.

Cut Her Throat. CENTRALIA, Mo., Aug. 5.—Mrs. K. T. Hulen, aged about 80 years, committed suicide this morning by cutting her throat with a razor, almost severing her head from her body. She had been separated from her husband, was recently reconciled, and after quarrel this morning she committed the deed while alone.

Your choice of any of the 50c. fans for 25c. at Hall's.

TRUSTEE'S SALE. ORDER OF PUBLICATION.

WHERMAN, John B. Harris, and Mantie Harris, his wife, by their certain deed of trust, dated December 27th, 1888, recorded in the Recorder's office of Andrain County, Missouri, in deed of trust book No. 13, at page 161, conveyed to Joseph T. Williams, the following described real estate situated in Andrain county, State of Missouri:

A tract of land fronting east sixty (60) feet and ten (10) inches by the north side of the following described lands in West Mexico, viz: A part of the North half of section twenty-six (26) township fifty-one (51) north of range nine (9) east of the first degree of longitude. Begin at station stake No. 12 in survey No. 546, run thence north 2,500 chains, thence east 144 feet, thence south 2,655 chains, thence west to the beginning. Also six (6) feet off the south side of the following described lands in West Mexico, viz: A part of the North half of section twenty-six (26) township fifty-one (51) north of range nine (9) east of the first degree of longitude. Begin at station stake No. 12 in survey No. 546, run thence north 2,500 chains, thence east 144 feet, thence south 2,655 chains, thence west to the beginning. Also six (6) feet off the south side of the following described lands in West Mexico, viz: A part of the North half of section twenty-six (26) township fifty-one (51) north of range nine (9) east of the first degree of longitude. Begin at station stake No. 12 in survey No. 546, run thence north 2,500 chains, thence east 144 feet, thence south 2,655 chains, thence west to the beginning. Also six (6) feet off the south side of the following described lands in West Mexico, viz: A part of the North half of section twenty-six (26) township fifty-one (51) north of range nine (9) east of the first degree of longitude. Begin at station stake No. 12 in survey No. 546, run thence north 2,500 chains, thence east 144 feet, thence south 2,655 chains, thence west to the beginning. Also six (6) feet off the south side of the following described lands in West Mexico, viz: A part of the North half of section twenty-six (26) township fifty-one (51) north of range nine (9) east of the first degree of longitude. Begin at station stake No. 12 in survey No. 546, run thence north 2,500 chains, thence east 144 feet, thence south 2,655 chains, thence west to the beginning. Also six (6) feet off the south side of the following described lands in West Mexico, viz: A part of the North half of section twenty-six (26) township fifty-one (51) north of range nine (9) east of the first degree of longitude. Begin at station stake No. 12 in survey No. 546, run thence north 2,500 chains, thence east 144 feet, thence south 2,655 chains, thence west to the beginning. Also six (6) feet off the south side of the following described lands in West Mexico, viz: A part of the North half of section twenty-six (26) township fifty-one (51) north of range nine (9) east of the first degree of longitude. Begin at station stake No. 12 in survey No. 546, run thence north 2,500 chains, thence east 144 feet, thence south 2,655 chains, thence west to the beginning. Also six (6) feet off the south side of the following described lands in West Mexico, viz: A part of the North half of section twenty-six (26) township fifty-one (51) north of range nine (9) east of the first degree of longitude. Begin at station stake No. 12 in survey No. 546, run thence north 2,500 chains, thence east 144 feet, thence south 2,655 chains, thence west to the beginning. Also six (6) feet off the south side of the following described lands in West Mexico, viz: A part of the North half of section twenty-six (26) township fifty-one (51) north of range nine (9) east of the first degree of longitude. Begin at station stake No. 12 in survey No. 546, run thence north 2,500 chains, thence east 144 feet, thence south 2,655 chains, thence west to the beginning. Also six (6) feet off the south side of the following described lands in West Mexico, viz: A part of the North half of section twenty-six (26) township fifty-one (51) north of range nine (9) east of the first degree of longitude. Begin at station stake No. 12 in survey No. 546, run thence north 2,500 chains, thence east 144 feet, thence south 2,655 chains, thence west to the beginning. Also six (6) feet off the south side of the following described lands in West Mexico, viz: A part of the North half of section twenty-six (26) township fifty-one (51) north of range nine (9) east of the first degree of longitude. Begin at station stake No. 12 in survey No. 546, run thence north 2,500 chains, thence east 144 feet, thence south 2,655 chains, thence west to the beginning. Also six (6) feet off the south side of the following described lands in West Mexico, viz: A part of the North half of section twenty-six (26) township fifty-one (51) north of range nine (9) east of the first degree of longitude. Begin at station stake No. 12 in survey No. 546, run thence north 2,500 chains, thence east 144 feet, thence south 2,655 chains, thence west to the beginning. Also six (6) feet off the south side of the following described lands in West Mexico, viz: A part of the North half of section twenty-six (26) township fifty-one (51) north of range nine (9) east of the first degree of longitude. Begin at station stake No. 12 in survey No. 546, run thence north 2,500 chains, thence east 144 feet, thence south 2,655 chains, thence west to the beginning. Also six (6) feet off the south side of the following described lands in West Mexico, viz: A part of the North half of section twenty-six (26) township fifty-one (51) north of range nine (9) east of the first degree of longitude.
