JUDGE WILLIAM STUART DEAD.

Passed Away Thursday Evening After Ten-Days' Unconsciousness—The Funeral to be Held Saturday Afternoon.

Judge William Stuart, aged 86 years, 9 months and 29 days, died at his home at Boulevard avenue and Jefferson street at 7:15 o'clock Thursday evening of paralysis. He had been unconscious for ten days. The funeral services will be conducted from the late home of the deceased at 2 o'clock Saturday afternoon by Rev. A. A. Wallace, assisted by Rev. John Anderson. The casket will not be opened during the services, but any friends who wish to see the body may do so by calling at the residence Saturday morning between 9 and 11 o'clock. William Stuart was born in Clark county, Ky., near Winchester, on May 19, 1817. His father, Roy Stuart, was a prominent farmer and the son was reared to manhood on the farm, receiving an excellent education. He followed farming in the Blue Grass state for a number of years, marrying Miss Elizabeth Judy, of Clark county, in October, 1840. There were two children born to the union, both of whom are still living. George W. Stuart, of Marshall, Saline county, Mo., and Mrs. James B. Davis, formerly of Monroe county, Mo., but now living in the state of Louisiana.

Judge Stuart had been a resident of Audrain county for forty-seven years, having moved to this section from Kentucky in 1857. He bought a large farm near the northeastern line of Audrain county, and soon had a fine farm of five to six hundred acres. Here he lived until 1881, when he moved to this city to reside permanently. In the meantime Judge Stuart had built a comfortable fortune, which steadily increased through careful handling and strict attention to business. In 1887, when the country was just recovering from the effects of the civil war, Judge Stuart, with other leading men of this community, organized the Savings bank, he being one of the original members of the board of directors. Later, and for several years, the judge served as president of the institution with great ability.

In the spring of 1889, eight years after having moved to the city, Judge Stuart suffered his first great sorrow, in the loss of his wife. The following year he was married to Mrs. Rachael Cardwell, who lived but three years, and he was married to Mrs. Elizabeth Addie Judy, daughter of Judge Sumner. Mrs. Stuart survives the judge. Of five brothers and one sister, only one brother is now living. J. F. Stuart, of Shenandoah, Iowa, who was at the bedside of Judge Stuart when he passed away. The son, G. W. Stuart, of Marshall, is also present at the time of death.

Judge Stuart was a member of the Presbyterian church and in his youth was a Mason, but had not affiliated with the lodge in Missouri. He was of kindly heart and did much good to his fellow men during his life, being free with his means to relieve distress, and was always ready with a kind and helpful word for his younger competitors in the struggles of life.

Funeral services over the remains of Judge William Stuart were conducted from the late residence in south Mexico at 2 o'clock Saturday afternoon by Rev. A. A. Wallace, assisted by Rev. John Anderson. A large gathering of friends of the family was present.

Mail Service on Hannibal Line.

WASHINGTON, March 10.—Representative Champ Clark of Missouri called at the Post-Office Department today to urge the establishment of another mail route on the Hannibal short line—Hannibal and Perry, Mo. He has asked for an additional mail car for the benefit of the postal service between these two points. An early investigation into the merits of his request was assured the Missourian.

G. M. Hull has resigned his position as guard in the State prison and has returned to Mexico to reside. Mr. Hull made a most efficient officer at the penitentiary but his many friends in Mexico are glad to have him home again.

WEBB M. RUBEY'S REPLY TO DR. CAMPBELL.

Still insists That The Only Issue In Missouri is and Will Be Whether the Democratic Party Will Eliminate Corruption or Surrender to it.

From the Mason "Times-Democrat."
Mr. Editor—I think those who introduced Dr. Campbell to write his article which appeared in your last issue giving reasons why Democrats ought not to support Mr. Folk for governor were guilty of asking a very nice man to undertake a job which must subject him to severe criticism, not complimentary to his intelligence. I have a high regard for the doctor as a citizen and of him personally I shall not write, but I must say some plain things of his article.

The doctor starts out by saying: "I do not hesitate to say that I am opposed to Joseph W. Folk as a candidate for nomination by the Democratic party. But before presenting my reasons for this attitude it may be proper to state that I am in common with Democrats generally, accord Mr. Folk the credit due him for the prosecution of criminals in St. Louis and elsewhere in the State. The charge often made that there is a sentiment among Democrats opposing Mr. Folk for governor is a grand mistake. All efforts for the suppression of crime—whether by Mr. Folk, Attorney Crow or others—meet the approval of every citizen of this community without regard to his color for governor."

That statement is partly false, and as a whole misleading. That part of it which says, "the charge often made that there is a sentiment among Democrats opposing Mr. Folk for governor is a grand mistake"—is false. That charge has never come from Mr. Folk.

The statement that Folk and his supporters charge Democrats generally with not supporting Mr. Folk as a candidate for nomination by the Democratic party, that they (Republicans) may triumph in the election and gain control of the State.

True as preaching—Doctor—if it is that because they praise Folk and his work Democrats like you are induced to defeat him. Then their purpose as you state it, will be accomplished, and the weakened condition of the Democratic party an accomplished fact. A weakened condition indeed it will be, when, as I have stated, these same Republican papers can proclaim to the people of the State that, while they did all they could to uphold an honest Democratic official, the Democratic party has turned him down, simply as they say, because we, as good citizens and as editors, deemed it our duty to applaud his honesty and courage, and denounce the machine Democrats for their opposition to him. Yes, Doctor, a weakened condition indeed, and who but you and your candidate, Mr. Reed, will be to blame for it? Certainly it will not be the fault of Mr. Folk. He has not said or done anything to court the favor of Republican press. Neither he nor his friends have bought the Republican praise of which you speak.

Some of it has been given honestly and in sincerity, because there are honest and sincere Republican editors. Most of it perhaps has been given as I have stated by reason of their smartness. They know that for the Republicans to abuse Mr. Folk would be to convict them and their party of sympathy for hoodlums and in favor of official corruption, and give their candidate no standing before the people. But if they praise Folk for his honesty and courage they may stand upon which their candidate can go before the people on an equal footing with even Mr. Folk, and if Reed or Hawes be nominated they would be in shape to arraign the Democratic party for turning down Folk whom they, with all honest citizens, commended.

The smartness of the Republican praise of Mr. Folk is shown in that they believe that their praise of Folk would induce even honest county Democrats like you, doctor, to abandon Folk. This strategy of Republicans is at least indicative of brightness, but what shall I say of Democrats who can be caught by such cheap bait? If the doctor knows of the purpose as he states it, "to weaken the party," why does he wish to aid such purpose by advising Democrats to walk into the trap set for them?

THE DOCTOR'S OBJECTION TO FOLK.

The doctor thinks in point of ability either Mr. Hawes or Mr. Reed are superior to Mr. Folk. As for Mr. Hawes, I will quote from Congressman Vandiver's recent speech, referring to Hawes' charge that Mr. Folk was not a lawyer. Mr. Vandiver says: "Who is it that makes this charge? It is Harry B. Hawes, of St. Louis, a lawyer who never tried a case in court in his life. What are his qualifications as a lawyer and judge of lawyers? As attorney for the gamblers and the race track association he succeeded in playing the part of lobbyist at Jefferson City and conspiring with Republicans to defeat a Democratic measure for taxing and regulating his race track. If he were of other qualifications as a lawyer it has not been discovered. The truth is that he knows more about war politics in St. Louis than he does about law."

MR. FOLK NOT A LAWYER.

He has gone up against the greatest legal talent that money can hire, and is largely out of it has answered with heavy sentences. He went up against the secretary of state at Washington and was turned down; then carried the case to attorney general and president of the United States, and as a result, Kratz has been brought back from Mexico; the agreement for extradition of hoodlums has gone into the president's message, been acted upon by the senate of the United States, and now incorporated into the laws of Missouri. Every where through the country his ability is recognized, and yet here in Missouri, strange to say, a powerful coterie of puffed politicians are shouting he is no lawyer.

Talk of comparing Hawes or even Reed with Folk for ability. Mr. Folk has more ability of every kind than both combined, except, perhaps, Reed may be superior in oratory.

The fact is Folk stands head and shoulders above both in every element of manhood, ability and citizenship. Mr. Folk is one of the great men of the country. The greatest men of this and other nations have recognized his ability. His ability has given him a world wide renown. He has a level head, steady nerve, incorruptible integrity, and his bravery challenges the admiration of all brave men who will do their duty or die. The doctor would even question Mr. Folk's Democracy and loyalty to his party. Such an insinuation is not becoming in a man of the knowledge the doctor ought to have of the facts as to both these matters, and I will not notice it further than to say that I challenge the doctor to produce a particle of testimony of the truth of his charge. No Democrat in Missouri has a better, purer or more consistent record as a Democrat.

THE PERPETUAL WAR

There is always a fight going on in every human body between health and disease. On one side are poor food, bad air, over-work, worry, colds, accidents. On the other are sunshine, rest, cheerfulness and nourishment.

The reason Scott's Emulsion fights so powerfully for health is because it gives so much more nourishment than you can get in any other way. Get in the sunlight and try Scott's Emulsion.

Negro Boy Twelve Years Old Weighs 315 Pounds.

Early Payne, a nephew of Professor W. C. Payne, principal of the colored public schools of Fulton, tips the beam at 215 pounds, although he will not be twelve years of age until March 10, 1904. Early has been attending the public school here for several years and making his home with his uncle, W. C. Payne. His parents who weigh about two hundred pounds each live about three miles east of Fulton.

When Early was ten years of age his weight was about 140 pounds. About one year ago he weighed 185 pounds. His height is now five feet six inches. Some of his measurements will convey some idea of his size: chest normal 42 inches; chest expanded 47 inches; waist 42 inches; right calf 18 inches; left calf 17 inches. Early sleeps soundly and has an excellent appetite. Exercise soon fatigues him. Although study is distasteful to him he plays the piano very nicely.—Fulton Sun.

"Builds up the System."

Hon. Joseph H. Ridgway, Secretary of the American Anti-Traff Society, writes the following letter from the Grand Central Hotel, St. Paul, Minn.: "It is with great pleasure that I endorse Peruna as an honest medicine, calculated to do all it claims. I have used it several times and know of nothing that can cure so completely, and at the same time builds up the system."

"I have recommended it to a number of my friends and always feel that I do them a service for I know how satisfactory the results invariably are. I only wish every family had a bottle—I would save much sickness and doctor bills."—Joseph H. Ridgway.

"Feel Better Than for Five Years."

Mr. James B. Taylor, Roberts, Ind., writes: "I am at the present time entirely well. I can eat anything I ever could. I took five bottles of Peruna, and feel better now than I have for five years. I have recovered with what doctors call and call for fifteen years, so I can recommend your medicine very highly for stomach troubles. I take great pleasure in thanking you for your free advice and Peruna."—James B. Taylor.

"I Enjoy my Meals as I Used to."

Mr. J. W. Pritchard, Wolf Lake, Ind., writes: "I am pleased to say that I have been cured of catarrh of the stomach by Peruna. I could hardly eat anything that agreed with me. Before, I could get half through my meal. My stomach would fill with gas causing me much distress and unpleasant feelings for an hour or two after each meal. But, thanks to your Peruna, I am now completely cured, and can eat anything I want to without any of the distressing symptoms. I can now enjoy my meals as I used to do, and it is all due to Dr. Hartman and his wonderful medicine, Peruna."

"It has been one year since I was cured, and I am all O. K., yet, so I know I am cured."—J. W. Pritchard.

Dyspepsia is a very common phase of summer catarrh. A remedy that will cure catarrh of one location will cure it anywhere. Peruna cures catarrh wherever located. That it is a prompt and permanent cure for catarrh of the stomach the above letters testify.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.
