## A GREAT ORATION.

### CROWDS HEAR THE GIFTED MISSOURIAN AT VANCE PARK AND ALL WERE DELIGHTED WITH HIS MATCHLESS ORATORY.

BY THE HON. CHAMP CLARK.

"The United States in the Twentieth Century," a Theme Which Furnished Opportunities for a Speech of Wonderful and Powerful Magnetism.

From the Charlotte N. C. News.

The Honorable Champ Clark, of Missouri, "Came, saw and conquered" all those who were fortunate enough to hear him. He was in his happiest vein and from the time he first addressed his audience until the close of his speech he kept the attention of every one with magnetic grip. The speech was great.

There is one thing which can be said, no one left after Mr. Clark mounted the stage.

Mr. Clark was introduced by the genial and brilliant representative in congress from this district, the Honorable E. Y. Webb, who paid Mr. Clark a beautiful eulogy. His speech of introduction, though short, was a gem of grace and rhetorical beauty.

Then the great and peerless orator and statesman from that far-famed section where "Doubling Thomases" abound arose amid bursts of applause and began to speak.

Mr. Clark is one of the most distinguished men in Congress to-day in appearance. His bearing is knightly and his appearance prepossessing. And though his speech the twinkle of his steel gray eye announced the coming of a joke or a bit of witicism and the crowd prepared to laugh. Then again as the inspiration of the occasion and of the subject thrilled him his gray locks and resolutely impressive face stirred feeling that only the true orator can stir.

He was at his best and his audience was captivated throughout his speech. No one yawned, they didn't have time.

As the crowd was convulsed with laughter at some sparkling joke; then they were entranced by the speaker's soaring oratory, and again they were inspired by the lucid picture of glorious America.

In introducing Mr. Clark, Congressman Webb said:

MR. WEBB'S INTRODUCTION.

Ladies and Gentlemen:—

It gives me much pleasure to introduce our honored guest and orator of the day, to the people of this splendid city and surrounding country.

During the two engagements of General Grant here in 1862 a high British officer said: "Charlotte is a very hospitable town but in a damned rebellious country."

Our distinguished visitor has charmed vast audiences from Lake Superior to Miami, with his wit and eloquence. For twenty-two years he held the record of being the youngest college president in the United States. He is a lawyer, author, editor, scholar, statesman and patriot. A member of congress for twelve years—he has climbed in this world without pulling others down. He is too big to harbor jealousy, too noble to bear envy. "The elements are so mixed in him that nature might stand up and say of him—this is a man."

I will present Hon. Champ Clark whom it will delight you to hear on the subject. "The United States in the Twentieth Century."

## MICHIGAN WINS HEAT.

One World Record Broken and One Equalled—Missouri Only Makes One Point.

Michigan ascends to its old time ranking as champion of the west in track events. Its athletes Saturday at Northwestern field, Evanston, Ill., ran away with the sixth renewal of the conference meet, totaling 624.5 points, with eight firsts and seven seconds. The victory was the biggest landslide in the history of athletics in the middle west. Chicago last year scored 56 points, the largest previous mark.

Chicago was second, with 20.35 points—some ten points less than Director Stagg had expected. The maroon's showing was a disappointment and also a surprise, taking places where none were expected.

IOWA NORMAL THIRD.

Iowa Normal was the "dark horse" of the meet, taking third place with 19 points through the efforts of one man, Hamilton, who ran both dashes, registering the fourth. Wisconsin, with 9 points, was fourth, Illinois was fifth with 7.45.

Indiana was sixth with 5, while the other schools finished as follows: Drake, 3; Purdue, 1; Missouri, 1; Iowa State, 1; Miami, 1.

Missouri's one point was for a third in the shot put made by Anderson.

One world's record was broken. Same, the Indiana pole vault, cleared 12 feet 4.75 inches, and came close to setting over the bar at 12 feet 7 inches. The previous record, officially accepted, was held by Norman Dole of Stanford university at 12 feet 1.5 inches. Gifters of Yale a few days ago succeeded in clearing 12 feet and 3 inches.

Same's vaulting was the most marvelous exhibition ever seen. Not until the bar was placed at 11 feet 4 inches did the Hoosier make a trial. Then he cleared the bar by a foot. Three inches at a time the bar shot up until it was at 12 feet 7 inches. He tried the leap twice, but the leap failed. It seemed as if he would drop out at this height, but on his last trail he sailed over the bar high and dry with nearly six inches to spare.

Another world's record was tied. Garret, Michigan's "iron man," turning his attention from the weight events for a few moments, went over the high hurdles in 15 1-5 a mark only once before made.

Kraenzlein, considered the world's greatest hurdler, June 18 1898, in Chicago took the high barriers in this time. It was predicted then that no in this generation would mark the ever he touched. Garret, however, turned the trick, and this is Garret's first year's acquaintance with the high hurdles. He has two years more of college competition, and in another season his teammates say he will bring the record down to 15 flat.

## Hardin College Board Meets.

The Hardin College board met Tuesday morning in the directors' room of the Southern Bank for their bi-annual election of officers.

The present officers were re-elected: A. G. Turner, President; C. A. Witherspoon, vice president and C. F. Clark, secretary. The number of board members was changed from 13 to fifteen and in place of permanent positions elected for the following terms: Five for two years, five for four years and five for six years. There are several vacancies in the board that will be filled in the near future.

It is the desire of the board to erect another building in the near future out at present nothing definite will be done.

Boy Narrowly Escapes Injury.

Leslie Craig, the young son of Edward Craig, living on Western Avenue narrowly escaped being seriously injured by a runaway horse late Monday afternoon.

A horse belonging to Jessie Coll and hitched to a light spring wagon became frightened and ran away on Western Avenue between 5 and 6 o'clock Monday evening. The Craig child was playing in front of his home near the Electric Light plant and seeing the runaway approaching, ran to the street and grabbed the reins, which were dangling on the ground.

The plucky little fellow was thrown from his feet almost directly underneath the vehicle, one wheel striking his leg and bruising that member. Aside from this he is none the worse for his experience.

Dr. Peter M. Menefee, a capitalist of California, was the guest of his relative, Gene Tomlinson, Monday. Dr. Menefee is quite well known in Mexico. He is a brother of the late lamented John Menefee. Dr. Menefee is now visiting his mother (who is now in her 91st year) at Perry, Mo.

C. A. James, cashier of the New Benton City Bank was in town Wednesday and said the Bank will open Thursday.

## WAIT FOR HUNGER.

Good Advice From Woodridge & Purdy as to How to Create an Appetite.

Any physician will tell you that it is unwise to eat unless one is really hungry. It is far better to miss a meal than to eat without appetite.

But do not take a tonic, stimulant, or appetizer to make you hungry. Woodridge & Purdy say that the best way to create an appetite is to restore the digestion to health by the use of Mi-on stomach tablets, a reliable remedy that they have with the best of satisfaction.

When Mi-on is used, the irritation and inflammation of the stomach coating will be soothed, the gastric follicles will be strengthened so that they will pour out the natural digestive fluids with regularity, and the food you eat will be perfectly digested without distress.

A large box of Mi-on stomach tablets is sold for 50 cents by Woodridge & Purdy, and it is so successful and reliable in curing indigestion and other stomach troubles, with the exception of cancer of the stomach, that they sell it under a guarantee that the money will be refunded unless it does all that is claimed for it.

## STOCK AND FARM NOTES.

### CHICAGO LIVE STOCK MARKET.

WEDNESDAY, JUNE 6—

Hogs 22,000 5 higher  
Left Over 2,902  
Mixed 6.30@6.50  
Light 6.30@6.50  
Rough 6.15@6.30  
Heavy 6.35@6.52  
Cattle 20,000 steady, 10 higher  
Sheep 5,000 strong.

Shotwell, Tanner & Co., Audrain county, stockmen had a load each of cattle, hogs and sheep on the Tuesday's supply at St. Louis.

C. H. Inlow sent two cars of hogs to the St. Louis market Tuesday.

H. Butler, of Audrain county, consigned 15 steers, 1140 lbs., to the St. Louis market Tuesday that sold at \$4.90.

E. J. Shobe an eastern Audrain county stockman marketed 33 steers of 1387 lbs average at St. Louis this week that sold at \$5.10.

W. W. Winn, of this county, bought two carloads of feeders at the Kansas City market this week.

Special to the Ledger.

STOCK YARDS, KANSAS CITY, MO., June 4, 1906.—In spite of the moderate run of cattle at all points last week, 30,000 head at this market, declined 10 to 20 cents. Agitation against the beef trust reflecting on the cleanliness of packing house methods took away the appetites of many consumers, particularly in the East, a condition quickly reflected in smaller orders from packers for live animals, and a consequent decline in prices and a stagnant market. Commission men are in a quandary as to how to advise parties who have cattle on the feed but the position is generally taken that the publication of the message of the President to-day, embodying the main points of the Neill-Reynolds report, on which is based the animus of the present attack on the packers will remove most of the venom from the controversy, and tend to quickly restore normal conditions in the meat trade.

Trade in stockers and feeders has improved slightly over a week ago, the hold-over at the week decreasing 500 head from the number remaining in pens at the close of previous week; 151 cars went to the country during the week. Present good demand for country grades is surprising in view of the unsatisfactory state of the beef cattle market, but a good many buyers are taking advantage of a lull in farm operations, between planting and cultivating corn. Native feeders sold early to-day at \$4.35 to \$4.45, Kansas wintered Colorado's at \$4.90, Oklahoma feeders \$3.75, native stockers \$3.75 to \$4.50, with a small number of cattle at \$2.75 to \$3.50. Cattle supply here to-day is 9,000 head, including 3,800 cattle from the quarantine line, movement from which territory is now getting under full way.

J. A. RICKARD,

The Perry, Mo., Enterprise editorially says: "J. R. Dye sold Lee Bros., at Mexico a fancy Missouri Oscar horse for \$215, he recently bought from Geo. Flowers, of Center. Mr. Dye bought a span of 2860 lb. mules from Bill Bailey, of near Laddonia, for \$950, and a span of mules from Chris Flint, of near the same place for \$350."

Major J. W. McKinley, the popular and old reliable City Bakery man, was out to his hill in the elixir of life a few days ago. Major McKinley is a life-long friend of ours and is one of Mexico's best and most progressive citizens. He has a fine trade and has always a good word for the Springs.

Dr. Reese, the painless tooth extractor, pulled nine teeth for Ed. Dermody Monday, and as soon as Ed. can stand it, this noted dentist will extract nine more. Dr. Reese is going to fill his mouth (we mean Ed's) with gold—tipped off with Cottonwood Springs diamonds. Then Dr. Reese and Ed. Dermody will set 'em up to the cheese and crackers.

A married lady of Pike county, who is visiting one of Mexico's leading society ladies, was among the good multitude here Sunday. The good-looking lady from Pike county has been taking the Lakeman for a great many years, and can't "keep house" without The Great Exponent of Truth. We were introduced to the said lady from Pike. She told us she has long been waiting for just one introduction to the correspondent from Cottonwood Springs. We told her we was "that Cottonwood liar," and the lady from Pike said: "Mr. Dill, you are the best humorous writer that ever a carrier pigeon flew over." We then went to the fountain and took a hearty drink of the elixir of life and everlasting loveliness—at our expense.

# Danderine

GREW MISS LEWIS' HAIR

AND WE CAN PROVE IT

The Great Danderine Never Fails to Produce the Desired Results

MISS Lewis' hair was very thin and it was less than two feet in length when she began using Danderine. She says her hair and scalp are now both teeming with new life and vigor.

That's the main secret of the great remedy's success as a hair grower. It invigorates and fairly electrifies the hair glands and tissues of the scalp, causing normal and unobstructed activity on the part of these two most important organs, resulting in a strenuous and continuous growth of the hair.

The following is a reproduction of Miss Lewis' last letter:

January 3, 1905.

Dear Doctor Keweenaw—

You know I told you in my first letter that my hair would not reach much below my shoulders, and that all of it together only made one tiny lock.

I am sending you my photograph, which I had taken at Stevens Block. It tells the whole story better than I can tell it.

Everybody I know is using Danderine, so you see I am doing something to show my appreciation.

Sincerely yours, (Miss) EVA LEWIS

Danderine makes the scalp healthy and fertile and keeps it as it is the greatest scalp fertilizer and therefore the greatest hair-producing remedy the world has ever known. It is a natural food and a wholesome medicine for both the hair and scalp. Even a 25c bottle of it will put more genuine life in your hair than a gallon of any other hair tonic ever made. It shows results from the very start.

NOW at all druggists in three sizes. 25 cents, 50 cents and \$1. per bottle

FREE To show how quickly Danderine acts we will send a large sample free by return mail to any one who sends this advertisement to the Keweenaw Drug Co., Chicago, with their name and address and to return a stamp to pay postage.

A Wonderful Compound—Cures Piles, Eczema, Skin Itching, Skin Eruptions, Cuts and Bruises.

Dian's Ointment is the best skin treatment, and the cheapest, because so little is required to cure. It cures piles after years of torture. It cures obstinate cases of eczema. It cures all skin itching. It cures skin eruptions. It heals cuts, bruises, scratches and abrasions without leaving a scar. It cures permanently. Mexico testimony proves it.

O. H. Neal, mail carrier between Mexico and Gant, says: "For 20 years I was annoyed with itching hemorrhoids. I tried several remedies, but got little if any benefit from them. Finally I procured a box of Dian's Ointment from Buckner & Whitney's drug store and used a part of it. Every application brought relief until the itching left me. There was a spot on my left shoulder which was very annoying. Two applications disposed of it. Dian's Ointment is worth its weight in gold."
