Well I must say the country has gone wet for a wetter time you never saw. It just continues to pour.

GARBER

Presto what a change, last week we were wet, but this week we are dry and in cold storage besides. Our coldest day last week was two below on Thursday morning and this Monday morning it was eight above for the worst but the way some of us complain you would think it was forty below.

In fact it had been so warm that the cold that came so sudden caused considerable suffering, and it took all the duds that a fellow had to keep from freezing, and worst of all the ice on the ground put hauling of all kinds out of the question for the time being.

Monroe Watkins had a car load of cotton hulls come in just as the storm came, and had to let it stand until Sunday before teams could do anything toward unloading it, and it has been with difficulty that stove wood can be hauled, and taking it all around it has been demonstrated that we can have some severe winter whether we want it or not.

The death of Mrs. Sarah Locke was a surprise to the community, as she was not thought to be so dangerously sick, and shows what a tragedy life can come to. As only at Christmas time all the family had gathered at the mothers home and had a reunion the first that the mother and her children had all been together for thirteen years, and what a good time they all had little thinking it would be the last one, as in less than three weeks the good old mother was stilled in death.

Mr. Alexander from over on Bear Creek came to Garber Monday morning and took train for Branson and Forsyth on business.

J. F. Hill has not yet returned from Springfield, where he went a week ago on business.

A little child of J. W. Vining was scalded last week by the overturning of a pan of hot water, burning its legs and feet badly, but is getting along quite well.

W. S. Trammel of Hollister, came up to Garber Monday evening and is looking up lands for mining leases. We hope him success in the enterprise, and hope he will get something started.

Charles A. Vining Sr. and Mrs. Vining came in from Arkansas last week and are stopping at present with friends about Garber. Mr. Vining is in very poor health.

Considerable sickness from colds, and grip exists yet in the neighborhood. Freezingly yours.
