Probably one of the most important subjects before us today is the question before this country relative to the entry of the United States into a League of Nations...

We urge our readers to read an editorial which is taken from the Kansas City Star, and is reprinted on our first page. It is so much to the point and such a concise statement...

Shocks Retard Drug Action. "Shock retards the action of drugs," says the Revue de Medecine. "Frogs in a state of shock from a blow on the head or an electric shock did not respond to the effect of a poison until after a period of eight or ten times longer than under normal circumstances, even when strychnine, for example, was injected by the vein."

HIGH SCHOOL NOTES

THE GIRL'S GLEE CLUB

The new music for the Glee Club has come and we have been doing some faithful practicing. We have been working for the past few days on one of our favorites, "The Nightingale and the Rose."

We received a challenge from the Boys' Debating Club to debate with them in assembly, which we accepted, and also challenged them to compete with the girls in a singing contest. The dates have not been decided on yet.

SOPHOMORE CLASS PROGRAM

February 21st the Sophomores gave their class program which consisted of a debate. The question, "Resolved that beets and greens shall be eliminated from our menu." The judges were chosen from the other classes. The debate was presided over by the Chairman, Miss Florence Blofeld. The debaters were: Affirmative, first speaker, Cleo Smith, second, Zana Church, third, Roy Smith. Negative, first speaker, Zan Vandell, second, Chester Arnold, third, Hazel McPherson. The beets were represented by Georgia Phillips dressed as a beet and the greens were represented by Rachel Church dressed as greens.

The first speaker on the Affirmative took his place as an up-to-date debater. He proved to us that beets and greens are a menace to the public and are very difficult to prepare for proper eating.

The first speaker on the Negative had a very old fashioned dress and form of debate and brought forth no issues but only told that she had been raised on beets and greens.

The second speaker on the Affirmative had an up-to-date manner and gave her debate in an interesting way telling us of the injuries caused by beets and greens.

The second speaker on the Negative also had a very old fashioned style both in manner and debate. He merely called attention to his physique telling us that he had been raised on beets and greens. He was very slender and his voice was soft, which gave the Affirmative proof as to the effect of eating beets and greens.

The third speaker on the Affirmative told the experience he had in growing beets and greens and the danger in the task. His speech was given in a monotone, proving to the judges that it was caused by eating beets and greens when he was young.

The third speaker on the Negative represented a negro who had been a cook in the asylum, and said that the people there just craved beets and greens.

The first speaker on the affirmative gave a rebuttal which appealed to the judges in a way that could not be ignored.

The chairman asked for a rebuttal from the negative but the negative speakers did not pay attention to their rebuttal and began quarreling. She then called for the judges' decision but the negatives realized that they were beaten and did not wait for a decision but took the beets and started for Georgia; and started to church with the greens.

The Freshmen colors are green and white and the Juniors, crimson and cream, the greens represented the Freshmen and the beets represented the Juniors.

There were several patrons of the school present and they seemed to enjoy themselves very much.

THE BOY'S DEBATING CLUB

The Wilsonian Debating Club met March 4, in the club room at the high school. A very interesting debate was presented on the question: "Resolved that labor unions should be abolished." The negative side won.

Sometime ago the debating club issued a challenge for a joint debate with Sparta, S. of C., and the Ozark High School. The Ozark High School has responded by asking for terms, and a debate with them seems certain.

Saturday night, March 1, the Juniors entertained the other members of the High School at a very enjoyable party at the high school building. Each class came in a body, but the members were taken, one at a time, into the hall where they took an oath to carry out in every way the entertainment of the evening. Then they were ushered into the northeast room, upstairs, which was decorated in the class colors, crimson and cream. A program of contests and games was slated as soon as the guests had arrived. Later refreshments were served in the science room, where the class colors were also used. At a late hour the party broke up and everyone left happy.

THE SOPHOMORE BANQUET

February 26th the Sophomores gave the High School a very pleasant evening at the Holland Hotel.

The guests were first entertained by playing Rook. Mr. Crawford and Cleo Smith gave us some music on the mandolin and guitar. The guests were then invited to the banquet, consisted of covered dishes. After they had become tired of looking at the dishes, cocoa and cake were served. The room was decorated with blue and gold, the Sophomore colors and lighted with candles. The guests seemed to enjoy themselves very much.

He Knew the Sex. "Take that picture out of your display window immediately!" demanded the irate woman. "I am surprised that you would exhibit my photograph to the common gaze!" "Awfully thoughtless of me," said the photographer a few minutes later. "I should have remembered that she liked the profile best." And the profile was substituted for the offensive front view in the display window, and all were happy ever after.—Kansas City Star.

Birth of Great Organization.

The first organization under the name of the Young Men's Christian association was effected June 6, 1844, in England, due to the efforts of George Williams, for the purpose of prayer and Bible study. Library and reading room were later added, and lecture and other courses provided. The association in America is the outgrowth of the English movement in 1844. The organization in America now has almost a million members.
